HOW TO SELECT THE RIGHT SHEPHERD CASTER

CONSIDER THESE FOUR THINGS...

1 The Load Rating

First, figure out the load rating per caster you will require to safely move the desired object. Keep in mind, the larger the total load is, the larger the wheel will be. You can carry heavier loads with smaller wheels, if you utilize several casters.

*EX. Load + Weight of cart-truck / number of casters
= lbs per caster*

2 The Caster Type

- **Swivel Casters:** Swivel 360 degrees, which allows for easy movement of the load in any direction.
- **Rigid Casters:** Do not swivel. They are mounted in a way that allows them to go forwards and backwards only.
- **Swivel Casters with Brake:** Same as swivel but also feature a brake that when activated, will not allow the wheel to roll.

3 The Wheel Type

- Make sure the wheel selected is large enough to pass over cracks in the floor and other obstructions.
- If the casters are to be used on very rough surface, a larger wheel size is recommended.
- Rubber wheels cushion the load while offering noise reduction and good floor protection.

4 Caster Type Combinations

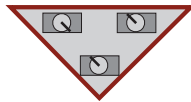

How many swivel and rigid casters are needed?

- In building, repairing and refurbishing mobile equipment, such as trucks, benches, tables, etc., various effective combinations may be used. Several types of mountings are illustrated below.

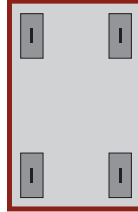

Three Swivel

Affords excellent maneuverability for barrel dollies and small portable machines. Be sure to select casters designed to take the weight load on three casters rather than the usual four.

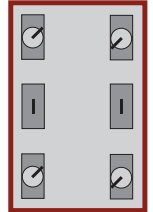

Tilt Mounting

A tilt mounting is the most economical but should be limited to lighter loads. The tilt is best when the load wheels are 1/8" taller than the overall height of the casters.

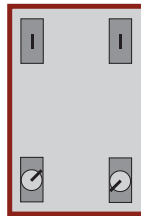

Four Swivel, Two Rigid

This is a level mounting design for heavy loads and long trucks. The two rigid casters help to distribute and reduce the load on the swivel units, and thereby maintain good maneuverability and easy steering.

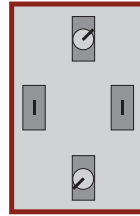

Two Rigid, Two Swivel

Most practical and inexpensive arrangement for straight and/or long distances. Can be used for heavy or medium loads, depending upon the weight capacity of the casters selected.

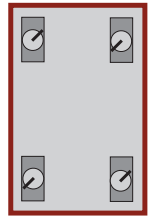

Diamond Mounting

This also uses two rigid and two swivel casters, but the diamond shaped mounting greatly increases maneuverability. The weight load is dependent upon the capacity of the casters selected. This mounting is not recommended for ramps.

Four Swivel

Where a side motion is frequently needed, the four swivel arrangement is excellent. If the casters are equipped with swivel locks, this mounting is also practical for long, straight travel as well as use on ramps. A most versatile arrangement.

U-Bracket envelopes pressboard furniture for a secure install

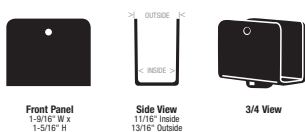

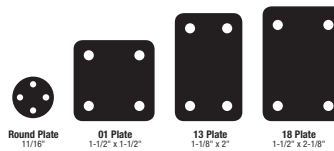

Plate mounts directly to furniture with four screws

Select the Right Type of Installation

- The standard stem locks into a socket located inside the furniture leg. Allows the caster to be attached and removed easily.
- Threaded stems allow for minimal leveling adjustments.
- U-bracket is ideal for pressboard furniture.
- Plate mounts to furniture with four screws.

HOME & OFFICE CASTERS (cont'd)

Black soft tread wheel for use on small sofas, upholstered chairs, TV stands, microwave carts, servers, etc. Double race ball bearing construction.

What are Total Lock Brakes?
Brakes that lock wheel and swivel simultaneously.

Elastic Blue Rubber is a super elastic rubber wheel that instantly regains its original form when a force is applied to the caster. As friction is considerably reduced, initial starting thrust required by user is brought to a minimum. The softness of this wheel will allow for easier rolling over obstacles, excellent rolling quality and important noise reduction. Non-marking, its fantastic abrasion resistance will increase its durability compared to standard rubber wheel.

HARD RUBBER

Hard rubber wheels are impervious to oils, greases and gasoline while combining many desirable characteristics: high load ratings, good mobility, high impact resistance, as well as excellent floor protection. Unlike other wheels, it does not develop flat spots under standing loads.

✓ Works on most flooring surfaces, carpet, ceramics, concrete and hardwood.

POLYAMIDE

Polyamide wheels combine the advantages of a hard polyamide band on top with a softer elastic rubber circle that acts as a shock absorber, reducing significantly damages to casters and assuring softer rolling quality. The hard polyamide band top maintains wheel maneuverability to the fullest even under heavy loads. This brings unbeatable quality with minimal starting thrust, greater ease in handling, important noise reduction, easier rolling over obstacles, improved durability and non-marking.

✓ Works on most flooring surfaces, carpet, ceramics, concrete and hardwood.

*G1 Series CASTERS

Two inch casters use a **TPU** (Thermoplastic Polyurethane) wheel and three inch casters use a **TPR** (Thermoplastic Rubber) wheel. Both sizes have a durable, soft, non-marking wheel that combines quiet movement with superior floor protection. Applies to casters 3541*, 3542*, 3543* (page 19), and 3545*, 3546*, 3547* (page 18).

TOOLBOX

Toolbox wheels have excellent mobility. With hard non-marking, durable wheels that will not go flat under heavy loads.

✓ Works best on carpet and concrete floor surfaces.

REPLACEMENT WHEELS

Multi-Purpose Replacement. An expanded selection of the most commonly used household, industrial, lawn/garden and material handling wheels. The line includes economical rust free plastic hubs, sturdy ball bearing steel hubs for more demanding applications, and pneumatic tires.

Hub Position Centered vs. Offset

Wheels with centered bore hubs are equal sizes on both sides of the wheel, and can be mounted in either position. (C)
Offset wheels have different sized hubs on the front and back sides and must be properly positioned for correct assembly. (O)

REPLACEMENT WHEELS

Flat Free Tires Never Require Maintenance

- Provides an air like ride, but can withstand all the common objects that typically cause flats.
- Lasts 4 to 10 times longer than standard air filled tires.

FELT GARD PLUS®

For Wooden legs. These glides tap into wooden legs, will not split the wood and the heavy duty felt base protect hard surfaces and slides easily over floors that can be marred by most other glides.

Self-leveling felt is ideal for angled leg chairs. It's thick foam layer allows for superior surface adherence and grips better than other heavy duty felt pads available.

LITTLE KNOWN BENEFIT:
Self-leveling felt corrects uneven wear of 3/8" or less on chairs, stools, etc.

FELT GARD PLUS® (cont'd)

Snap-On Snap-Off felt caps are easy to install and then can be quickly removed and replaced when worn. Felt attaches to base without adhesive and will not fall off when moved. Replacement pads are available and sold separately.

FeltGard Plus Slider and Mover Pads. Large sized slider pads are made with premium quality felt backed by durable foam for repeated use on hard surface floors. Use, then remove and store until needed again.

Installation

- Use bit provided to drill pilot hole into center of wooden leg.
- Center nylon pad beneath leg and position screw-nail in the disk. Do not hit the disk directly. Nail should be completely flush - use either screwdriver or hammer and nail punch.
- Remove protective paper from FeltGard® pad and apply self-adhesive side to center of disk.

COMPONENTS

ASSEMBLED

HEAVY DUTY FELT (cont'd)

Self-Adhesive **FELT GARD**® pads are simple to install and offer protection for surfaces such as hardwood, linoleum, vinyl, asphalt tile, terrazzo, marble, etc. We are proud to offer a new line of **FELT GARD**® self-adhesive pad floor protection - a companion version especially developed to compliment dark wood finishes. Features the same quality as our renowned heavy duty beige felt and available in the most popular sizes and shapes.

SLIDER n GRIPPER

Slider n Gripper pads, glides and cups fall into three distinct categories, Slider, Gripper, and dual function - Slider and Gripper. Slider protects floor surfaces and is perfect for small furniture such as chairs. Gripper offers optimum grip and is used when you prefer furniture to resist movement. Dual function pads and risers grip when flat but slide easily without damaging your floor when tilted.

9855	4" I.D. Slide Glide Cups, 4" Anti-skid Pads, 4" H-D FeltGard Pads	09855 4	12	4

Each card contains twelve pads designed for three distinctly different surfaces or purposes.

1. Four anti-skid SurfaceGrip® pads minimize furniture movement, and reduce vibration and noise.
2. Four larger size self-adhesive FeltGard® pads available to protect hardwood, linoleum, ceramic tile and other hard surfaces.
3. Four Slide Glide® cups are simple to install to move objects smoothly on carpeted floors.

16 pc Easy Movers Pack

ITEM #	DESCRIPTION	U.P.C. (0 39003)	PCS/ PKG	PKG/ CTN
9045	Easy Mover Pack contains H-D FeltGard & Slide Glide movers	09045 9	16	4

SLIDE GLIDE® sliders remove the friction between your furniture and carpeting, and FeltGard® heavy duty felt movers protect wood and hard surface flooring. Both move heavy objects safely, without damage or excessive effort.

- 4 - 5-3/4" x 8" Slider Mover Pads
- 4 - 3-1/2" round Slider Mover Pads
- 4 - 4" x 7" Felt Mover Pads
- 4 - 3-1/2" round Felt Mover Pads

58 pc Combo Pack

ITEM #	DESCRIPTION	U.P.C. (0 39003)	PCS/ PKG	PKG/ CTN
9917	58 pc assortment of FeltGard & Slide Glide pads	09917 9	58	6

For wood or laminated surfaces
Self-Adhesive FeltGard® Pads and Sheets

- 16 — 1" (25mm) Round Pads
- 8 — 1-1/2" (38mm) Round Pads
- 16 — 1" (25mm) Square Pads
- 2 — 4-1/4" x 6" (108 x 150mm) Sheets

Easy moving sliders assortment for carpeted flooring. Attaches with screws and/or self-adhesive

- 4 — 2-1/2" (38mm) Round Pads
- 4 — 2" (38mm) Round Pads
- 4 — 1" (25mm) Round Pads

Available Only in Canada

VALUE PACKS ASSORTMENTS

Terms of Payment

Net thirty (30) days from date of invoice with approved credit.

Minimum Prepaid Freight Order

\$500 minimum order for prepaid freight (standard ground) within the continental US for established accounts. Orders will be adjusted to conform to standard packaging quantities.

Product Specification

We reserve the right to adjust product specification in line with our policy of continuous development.

Return Merchandise

Written authorization must be obtained from Shepherd Hardware Products LLC before merchandise may be returned. All merchandise must be shipped on a pre-paid basis and is subject to a 20% handling charge.

Claims

Claims for shortage of goods must be made within three (3) working days from receipt of goods.

Pricing

Prices may be subject to change without prior notice.

Order Acknowledgement

Confirmation/acknowledgement of order receipt is not sent as standard procedure.

Overdue Accounts

We reserve the right to charge a late fee of 1.5% per month on the unpaid total balance due when more than thirty (30) days past due.

Shepherd Hardware Products sells on a wholesale basis only. Contact your local hardware store for retail purchases - - no sales direct to the public.
