AnchorMate®

Anchor Bolt Holder

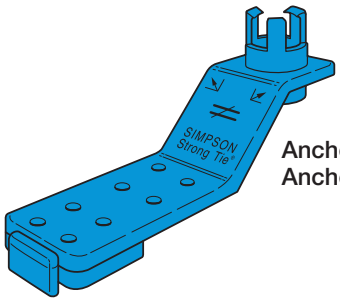

The reusable AnchorMate anchor bolt holder is designed to hold the anchor in place before the concrete pour, as required in some jurisdictions. The gripping section secures the bolt in place without a nut for quicker setup and teardown. It also protects the threads from wet concrete and simplifies trowel finishing.

Features:

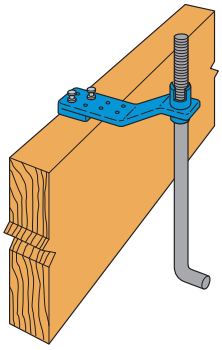

- Built-in 2x4 and 2x6 stops eliminate measuring.
- Color coded for easy size identification.
- Use the AnchorMate to secure the SSTB/SB anchors to the formboard before the concrete pour. Alignment arrows (left or right) match the SSTB/SB bolt head arrow.

Material: Nylon

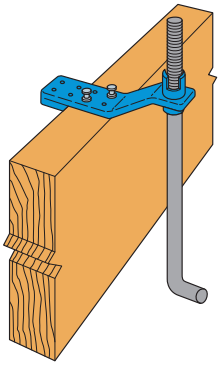

Model No.	Diameter (in.)	Color
AM1/2	½	Yellow
AM5/8	⅝	Blue
AM3/4	¾	Red
AM7/8	⅞	Green
AM1	1	Black

Installation for a 2x4 Mudsill

ABS

Anchor Bolt Stabilizer

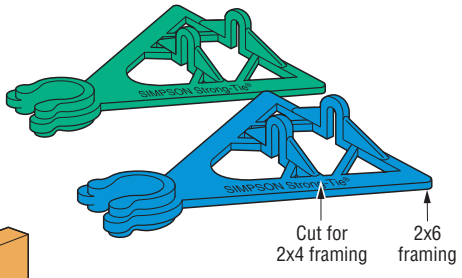

The ABS stabilizes the anchor bolt to prevent it from being pushed against the form during the concrete pour.

Features:

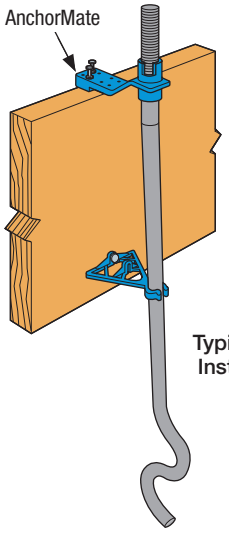

- Supports the bolt approximately 8" below the top of the concrete
- Model ABS5⁄8 is for the ⅝" SSTB and ABS7⁄8 is for the ⅞" SSTB
- Thin section limits the effect of a cold joint
- Sized for 2x4 and 2x6 mudsills

Material: Engineered composite plastic
