From 100% RECYCLED PLASTIC

to 100% FUN!

### Pet Toys Made with Recycled Plastic Bottles.

We are doing our part to help reduce the amount of plastic that pollutes our environment. The outer fabric and stuffing of Spot® Love the Earth™ pet toys are made from 100% recycled plastic bottles. Each toy is made with about 7 to 10 plastic bottles and is certified to be compliant with the Global Recycle Standard.

Let's work together to protect our Earth, oceans and wildlife for future generations.

NEW

# Coffee Wood DOG CHEWS™

## 100% Natural & Sustainably Sourced

**all natural**

Our Love the Earth™ Coffee Wood Dog Chews are skillfully hand-made from the branches of coffee plants that no longer produce coffee beans. This by-product of coffee farming provides a safe, strong material that is 100% natural, sustainable and free from chemicals and artificial ingredients.

**sustainable**

**no splintering**

Coffee wood is naturally dense and heavier than most wood. As dogs chew, the stick whittles down slowly, softening the fibers making it less prone to splintering. Resilient coffee wood chews provide satisfying and long-lasting enjoyment.

**long-lasting**

**stress relief**

Dogs instinctively chew to entertain and occupy themselves. As they chew, natural hormones are released in their brains that help to relieve stress. While chewing, the wood is softened and flakes away exposing tiny, harmless fibers that act as floss for healthy dental hygiene. Daily chewing also exercises the jaw muscles.

**dental hygiene**
