## MOSQUITO CONTROL PRODUCTS

Summit Chemical Company has been devoted to professional mosquito control for over 50 years. Our best selling Mosquito Dunks® were initially engineered for the professional mosquito control and public health industries as a biodegradable formulation aimed at low impact application to any body of water.

### Summit Mosquito Dunks® Kills Mosquitoes Before They're Old Enough to Bite!®

America's best selling homeowner mosquito control product. The only product with BTI, a bacteria toxic only to mosquito larvae, that lasts 30 days and treats 100 square feet of surface water.

- **Natural and harmless to beneficial insects, pets, birds, fish, or wildlife.**
- Perfect for **Koi Ponds, Hydroponic systems, Animal Watering Troughs and Rain Barrels.**
- Simply apply Mosquito Dunks® to any standing water, water garden or water feature.
- Kills within hours and **lasts for 30 days or more.**
- Labeled **For Organic Production** by the USEPA.
- Registered for sale in Canada.
- The quintessential highly effective **low environmental impact product!**

**Item # 102-12**  
2 Dunks® carded  
12 cards per case

## Summit Mosquito Bits<sup>®</sup> Kills Mosquitoes Before They're Old Enough to Bite!<sup>®</sup>

### AND NOW CONTROLS FUNGUS GNATS TOO!

- **Versatile application** where standing water cannot easily be controlled, such as in bromeliads "pitcher plants", fallen leaves, tire dumps, or swampy areas.
- Contains BTI the same proven natural mosquito control as in Mosquito Dunks<sup>®</sup>.
- **Kills Fungus Gnat Larvae** in soil without synthetic toxins.
- **Harmless to beneficial insects, pets, birds, fish, or wildlife.**
- Perfect for **Koi Ponds, Hydroponic systems, and Rain Barrels.**
- **Easy** broadcast application with a hand spreader or the included spice shaker top.
- **Works within 24 hours for mosquito control and lasts for months in soil to control Fungus Gnats!**

Item #012-6  
Mosquito & Gnat  
Hose-End Barrier

Mosquito & Gnat  
Hose-End Barrier  
32oz. Hose-End Sprayer  
12 per case  
Each UPC 0-18506 00010-3  
Case UPC 200-18506 00010-7

## Mosquito & Gnat Barrier and Mosquito Coils

### Summit Mosquito and Gnat Barrier

is packaged in a convenient precalibrated Hose-End sprayer. By spraying fences, decking, vegetation, and other surfaces—and allowing to dry prior to enjoying the area—the homeowner can effectively repel mosquitoes and other annoying pests for up to four weeks!

- Contains permethrin, a residual insecticide that provides up to four weeks of repellency
- Controls a wide variety of insect pests including mosquitoes, ants, fleas, ticks, and more.
- Reduce suitable mosquito resting area by spraying outdoor vertical surfaces and reduce your chances of being bitten.
- Spray outdoor pet areas and quarters to reduce the chance of heartworm and Lyme disease.

### Summit Mosquito Coils

When the Mosquito Coils are burned they release a small amount of the insecticide d/l-allethrolone d-trans chrysanthemate. This potent compound repels mosquitoes and other insects—providing inexpensive and effective protection in the backyard, patio, or campsite. Using Summit's mosquito control products together will provide multiple approaches to prevent insect annoyance, bites, and disease.

# Summit... *responsible solutions*®

## GARDEN & HOME PRODUCTS

Summit Ready-to-Use (RTU) Spray Oils are pre-diluted for small jobs in the home and backyard and approved for organic gardening. Ready-to-Use is an alternative to concentrates that require mixing.

## Year-Round Horticultural Oils

Summit Year-Round® Spray Oil is a complete line of horticultural oils that kill and repel a multitude of insects on a wide variety of plants without synthetic toxins. Approved for organic gardening.

### What are horticultural oils?

Horticultural oil is highly refined mineral oil, mixed with water and sprayed on plants to kill insects and their eggs, and preventing the spread of plant diseases.

Year-Round® Spray Oil kills insects through the physical action of "smothering" as opposed to traditional insecticides that "poison" pests. Horticultural oils have been used for centuries because of the effectiveness against many insect pests and low risk associated with their use.
