

Super S® SuperFuel® Oil & Gas Mixture

TECHNICAL PRODUCT INFORMATION

Super S Super Fuel Oil & Gas Mixture

Super S Super Fuel Oil & Gas Mixture is a unique blend of proprietary engineered fuel, oil, and additives designed to get the most out of your two stroke equipment while providing the highest level of protection. Made from high octane engineered fuel and synthetic lubricants, your motor will burn cleaner. Unlike gasoline you may buy at the pump, this fuel is ethanol free and is designed to prevent gum-like buildup from occurring in your motor as well as prevent degradation of fuel lines. It is also designed to maximize freshness and will not lose stability like a fuel straight out of the local fuel pump.

Pre-mixed fuel saves time! There is no need for inaccurate, messy, oil and gas mixing. Just pick up a can and pour. Your equipment will run the same way every time.

FEATURES/ BENEFITS

- Easy dependable starts
- Long term storage
- Ethanol Free

APPLICATIONS

- String Trimmers
- Chainsaws
- 2-Cycle Motor Scooters
- API TC
- Blowers
- Hedge Trimmers
- JASO FD

AVAILABLE IN 3 GRADES

- 50:1 Ratio for use in engines requiring 50:1 Gas to Oil Mix Ratios
- 40:1 Ratio for use in engines requiring 40:1 Gas to Oil Mix Ratios
- 4-Cycle – Contains no oil. For use in 4 cycle engines
