TENAX®

The Tenax Group

Every day, all over the world, millions of individuals in hundreds of fields rely on the innovative products and services Tenax provides.

TENAX: A SOLID CHOICE FOR FLEXIBLE SOLUTIONS

About Tenax USA

Established in Ohio in 1984 as a distribution center under the name of ATP (American Tenax Products), Tenax relocated to Jessup, Maryland in 1987 to open its first U.S. manufacturing facility. In 1993, the company expanded its operation and moved to our current location in East Baltimore.

Tenax gained worldwide fame with its first US-produced product—orange safety fence for building and construction sites—which quickly spawned imitators all over the world. Currently Tenax Corporation serves the USA, Canada, Mexico, and Central and South America with specialty products for netting,

fencing, pipe protection, construction, agricultural, gardening and DIY applications.

Throughout the years of growth and expansion, Tenax Corporation has maintained our promise to be a pioneer in the “Made in USA” movement.

Tenax Group

Established in Italy in 1960, Tenax was one of the first companies to develop the unique process of extruding and forming thermoplastic polymers. Ever since, Tenax has been a rising star through sustained growth and advances in engineering efficiency. Tenax’s mastery of manufacturing capabilities now places

the Tenax Group and its subsidiaries as a true international leader with production facilities, technical services, distribution centers and sales departments in more than 50 countries across five continents.

Commitment to Quality

The Tenax Group’s commitment to quality shows in our superior product line, and it all starts with our selection of raw materials. Tenax only uses 100% specially-selected raw materials. This means our resins are clean and unaltered. This ensures that our products provide the longevity, appearance and versatility our customers have come to expect from the Tenax brand. Our products are also treated for UV resistance, allowing for longer-term use and performance in the field. Our discriminating process for selecting raw materials places the Tenax Group in the forefront of quality in the industry.

Tenax only uses 100% specially-selected raw materials. This means our resins are clean and unaltered. This ensures that our products provide the longevity, appearance and versatility our customers have come to expect from the Tenax brand.

Our values

Tenax is committed to building a lasting company that provides products and services of the highest quality. We offer our employees a safe and rewarding work environment and are striving to be a good corporate citizen in the communities in which we operate. Tenax focuses on strategic growth through the responsible use and management of our resources.

Cintoflex

Tenax Cintoflex Fences are ideal for creating temporary or permanent containment fencing areas at almost any site. Offered in a variety of mesh sizes, these fences have a multitude of uses, guaranteeing optimal visibility and allowing good airflow.

This specially stretched, wide meshed fencing mimics the texture of cloth or welded wire, with knots at four corners of the squares. These mesh sizes are perfect to protect the perimeter of any property or construction site and to prevent and control the spreading of debris.

Plant Support & Lawns

Tenax Plant Support and Lawn products provide solutions for growing, harvesting, erosion and seed starting. These lightweight products hold the highest quality and reputation in the growing community.

FLORA TRELLIS NET

Lawnmat Select

Tenax Lawnmat Select utilizes a specially fabricated straw mat that is reinforced with an exclusive style of Tenax net. This unique Lawnmat provides a solution for areas experiencing erosion, and to sustain the growth of grass seed. Simply rake, seed, and stake your lawnmat to troublesome areas and watch it work. This DIY product makes growing seed and stopping erosion quick and easy.

Pet & Wildlife**

Pet & Wildlife

Tenax Pet & Wildlife products provide solutions for both animal protection/defense and containment. The Tenax Pet and Wildlife product line is the most broad, highest quality and longest lasting solution whether you are building an animal cage or dog run, or protecting your property from small and large animals.

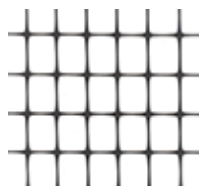

PLANT & POND PROTECT NET

Plant & Pond Protect Net

Tenax Plant & Pond Protect Net is an easy to use net to be draped over trees, bushes, or plant beds for preventing damage from birds. Tenax Plant & Pond Protect Net is heavy enough to protect ponds from large predators such as herons and operates as a barrier from debris such as leaves that may fall onto a pond. Tenax Plant & Pond Protect Net can also be used for collecting leaves in an easy and labor saving way. You can simply rake or blow your leaves onto the Tenax Plant & Pond Protect Net, roll it up and dispose of easily.

“I used Tenax Pet Fence around my garden and I loved it! My dogs and cats could no longer chew or destroy my plants, so I was actually able to enjoy the flowers and vegetables I was growing.”

— Mike Miller, DE

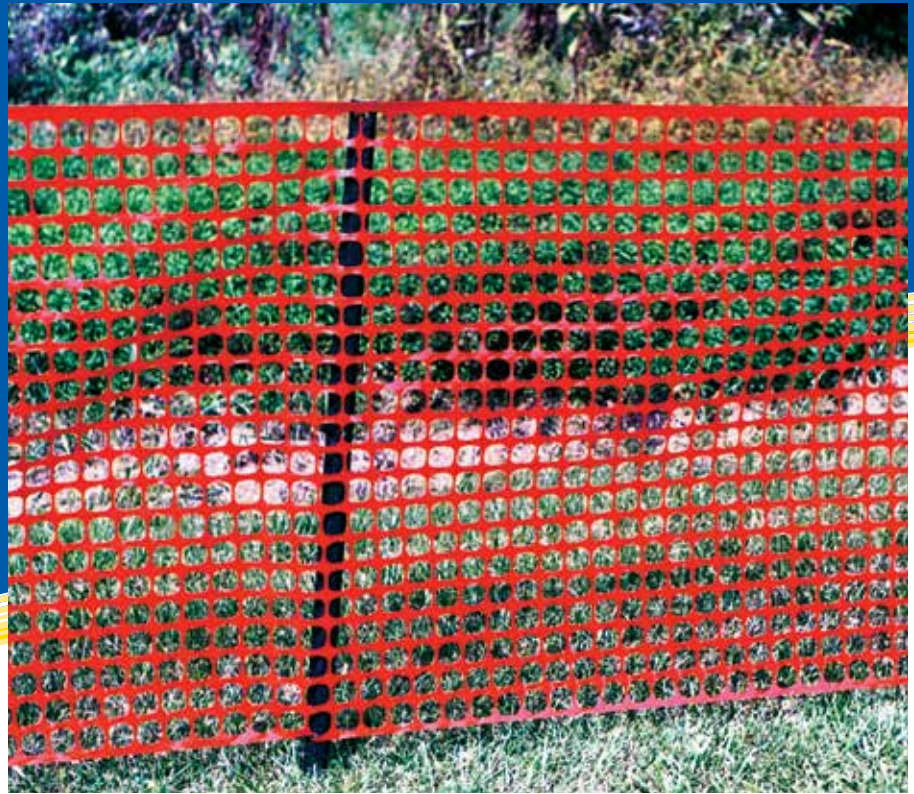

CONSTRUCTION

Safety Fence & Warning Barriers

Safety Fence & Warning Barriers

Tenax Safety Fence and Warning Barriers are designed for protection around construction sites, manholes or for use as a property delineator. Providing an alternative to traditional metal construction materials, Tenax's plastic construction solutions are easier to handle and highly visible. Perfect for road work, crowd control, identifying obstacles and dangerous areas.

GUARDIAN WARNING BARRIER

Guardian Visual Barrier

Tenax Guardian is a lightweight visual barrier suited for use around utility work, construction sites, or in crowd control applications. Guardian is a highly noticeable visual barrier with oval mesh openings. Guardian Visual Barrier is UV stabilized and economical. Guardian is Tenax's most popular and best-selling warning barrier and is also available in green and yellow.

Kryptonight Max Visibility Barrier

Tenax Kryptonight is manufactured in a UV stabilized, fluorescent yellow-green color, and is ideal for areas where high visibility is needed. Kryptonight also complements fluorescent stop signs, vests, and cones, which are now used in most municipalities. Kryptonight Max Visibility Barrier is so visible that it can be seen by most color blind people. Tenax Kryptonight is so unique it was awarded a patent.

SENTRY SAFETY FENCE

DIAMEX SAFETY FENCE

Sentry Safety Fence

Tenax Sentry fences are safe, durable, and attractive safety fences. Their consistent diamond mesh ensures aesthetic appeal, while the smooth top and bottom borders make the fence less likely to cut and scrape adjacent materials during installation and removal. Tenax Sentry is the most economical of the Sentry product line, Sentry Secura is premium strength while Sentry HD has the highest strength grade, professional. Sentry and Sentry Secura can be special ordered in green.

BEACON PLUS SAFETY FENCE

TENAX[®]

CONSTRUCTION Snow Fence Products

Snow Fence Products

Tenax Snow Fences are a must for winter safety. Safety starts with keeping snow cleared, and that's where Tenax Snow Fences stand out. By cutting wind speed, it reduces snow drift and lessens the need for plowing. Work sites and roads stay cleaner and safer.

SNOW GUARD FENCE

“I purchased a few rolls of Tenax snow fencing to keep snow drifts controlled. After I installed it, the fence immediately began routing the snow away! It worked perfectly, and I’ve used it for 2 winters so far. It’s clear Tenax products are superior to others on the market.”

— Megan Wickkiser, PA

Snow Guard Fence

Available in green, yellow and orange, our most economical snow fence, Tenax Snow Guard, has been used effectively in various commercial and residential applications and settings.

Parking lots, airports and industrial facilities have all benefitted from Tenax Snow Guard's efficient snow-control design.

NORDIC PLUS II SNOW FENCE

Insulation Net

Tenax Insulation Net is made of lightweight polypropylene and is specially designed to hold insulation in place inside a home or building. The product can be used for spray-in, blown-in, or sheeting insulation jobs by attaching the net to the structure studs or under floor joists to hold insulation securely in place.

INSULATION NET

Insulation Net

Tenax Insulation Net is specifically designed to secure rolled or sprayed insulation in horizontal or vertical applications. Its lightweight, easy to handle and install, strong and won't displace insulation.

Number	Product Size	Mesh Size	Color
6004119CO	4' x 330'	.78" x .78"	●

“I contacted Tenax regarding some fencing they sell. Once we connected, our dialogue began and responses were nearly immediate (very grateful for that as I am an impatient person). Then within days my mail contained samples of the fencing I had inquired about. Great customer service! I look forward to working with Tenax on my project, who has already won my loyalty.”

— Jamie Heberlein, MO

CONSTRUCTION

Privacy & Wind Screening

Privacy & Wind Screening / Wind & Vent Guard

The various Screens and Guards offered by Tenax are ideal when privacy and wind protection are needed for construction sites, storage areas, parks or highways.

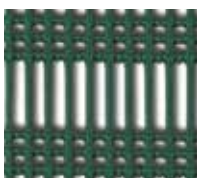

PRIVACY SCREEN

Windguard

This protective screen filters and mitigates the wind intensity in the enclosed area, protecting gardens, porches, balconies and construction sites.

The unique structure of this net, which includes two different rectangular meshes, creates a unique pattern while providing optimal protection.

Number	Product Size	Color
63610308	3.28' x 98'	●

Wind Screen

Tenax Wind Screen is ideal when wind protection is needed for construction sites, storage areas, parks, highways or other areas where wind can do damage.

Number	Product Size	Color
2A120069	5.6' x 150'	●
2A120070	7.8' x 150'	●

Privacy Screen

A privacy screen that's durable, lightweight and easy to install. Available in green, black and blue, this screen is ideal when privacy is needed for construction sites, storage areas, parks or highways.

Number	Product Size	Color
2A120030	5.6' x 150'	●
2A120031	5.6' x 150'	●
2A120032	5.6' x 150'	●
2A120033	7.8' x 150'	●
2A120034	7.8' x 150'	●
2A120035	7.8' x 150'	●

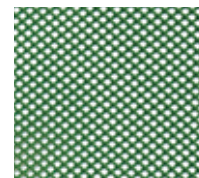

Ventguard

Thanks to its tiny rhomboidal mesh, Tenax Ventguard is generally used on manholes, drains and air vents to screen and prevent blockage by leaves and gravel.

It is also ideal on railings to prevent the access of small animals through openings in gates and fences. Special order item – minimum order required.

Number	Product Size	Mesh Size	Color
1A030192	3.28' x 98.4'	.19"x .16"	●

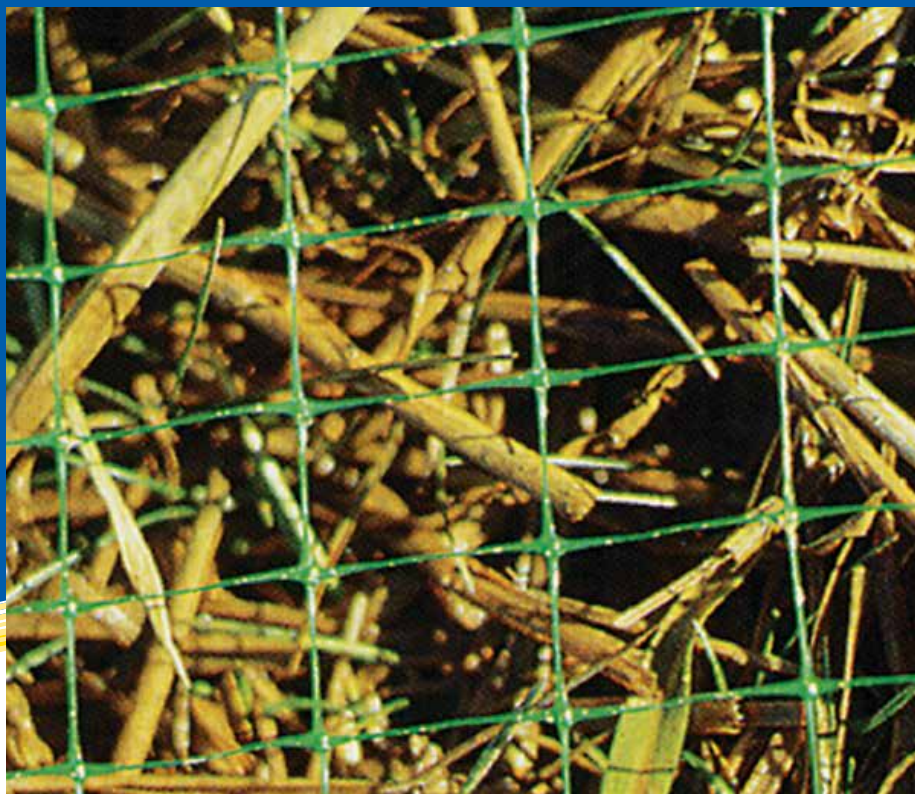

GROUND PROTECTION

Erosion Control Products

Erosion Control

Erosion control on work sites and in finished projects is more than just important, it is essential. It is often a city, state, and federal requirement.

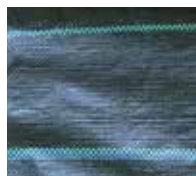

SILT FENCE

Silt Fence

Tenax Silt Fence is the ideal barrier for sediment control around construction sites or wherever there is bare or disturbed earth. The woven geotextile used on Tenax Silt Fence is designed to filter out sediment from construction site run-off, yet allow clean water to pass through.

Tenax Silt Fence is pre-assembled with hardwood stakes securely attached at 10 foot intervals and packaged in 100 linear foot rolls.

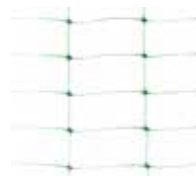

Number	Product Size	Color
31900500	2' x 100'	●
31900700	3' x 100'	●

Radix

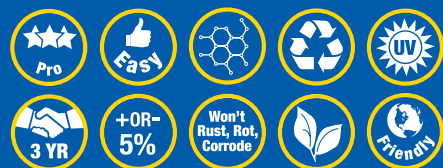

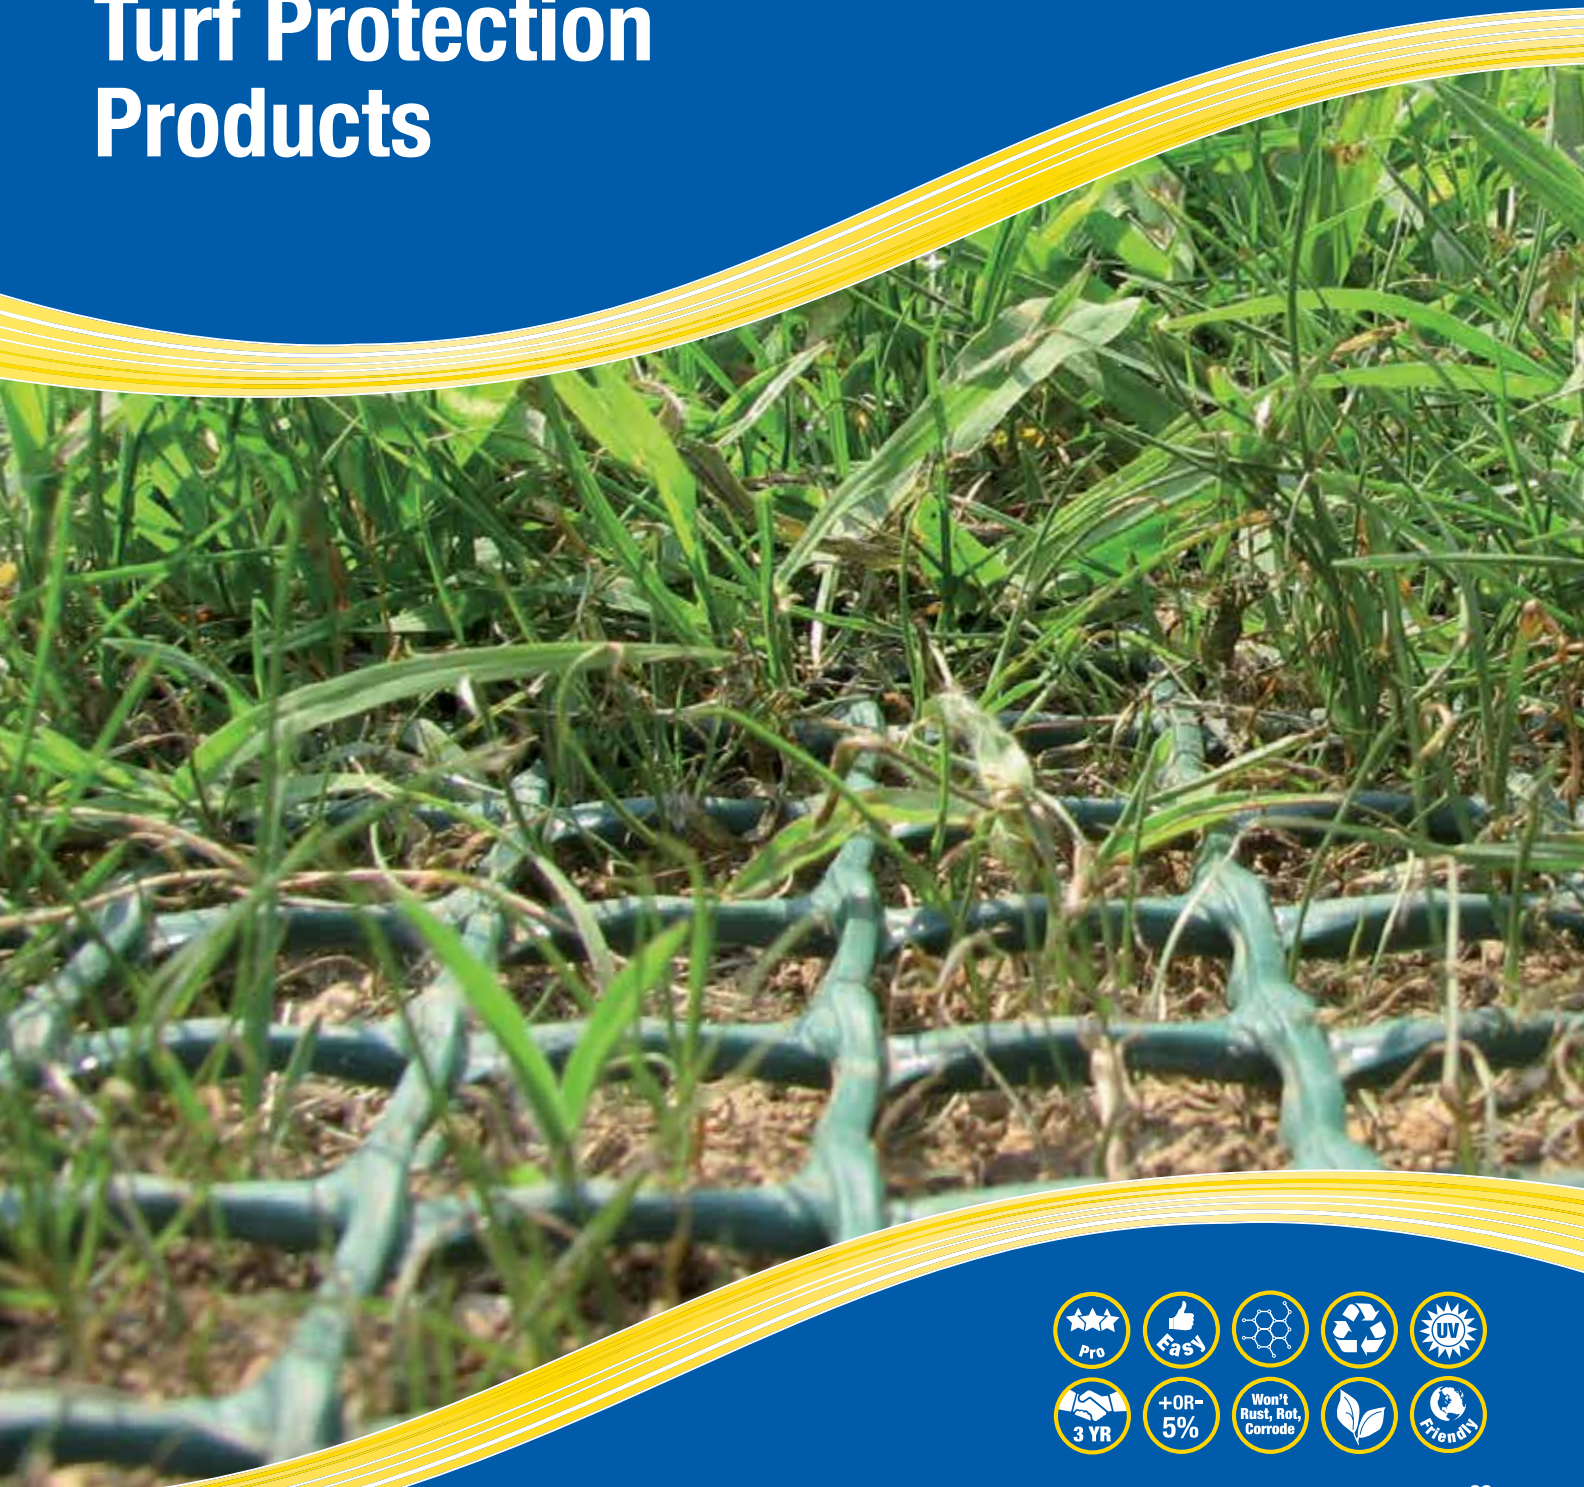

Tenax Radix is a lightweight, biaxially oriented net made from durable polypropylene, and is designed to secure loose mulch, like straw and paper and to secure soil surfaces in order to establish vegetation. Tenax Radix is resistant to chemical agents and pesticide applications.

Number	Product Size	Mesh Size	Color
79S10796	12.5'x6,000'	1.38"x .79"	●

GROUND PROTECTION

Turf Protection Products

Ground Protection

Tenax Ground Protections are very strong and ideal for temporary car parking. Once installed and the grass grows through, the finished effect is a natural green environment with a stabilized surface. Use Tenax Ground Protection for heavy machinery, livestock and other applications to preserve lawns.

YARD PROTECTION

TRACKWAY

Trackway

Manufactured from high density polyethylene, this thermoplastic extruded mesh panel is extra thick and ideal for the support of heavy weights.

Tenax Trackway has a high profile, providing extra grip for both wheeled and tracked vehicles. UV stabilized and unaffected by chemicals, Tenax Trackway can be re-used many times over, providing long lasting protection. Tenax Trackway weighs less than 22 pounds yet each panel will support vehicles up to 20 tons.

Number	Product Size	Mesh Size	Color
1A060275	4' x 6.7'	1.85"x 1.65"	●

Yard Protection

Tenax Yard Protection is a high density polyethylene mesh designed for protecting and reinforcing grassed areas to be used by lightweight vehicles. Once grass growth is established, Tenax Yard Protection will protect the grass roots from damage and help prevent wheel rutting. Due to its unique design, Tenax Yard Protection has proven to be flexible and provides a visually pleasant and stable surface structure through which grass can be grown healthily.

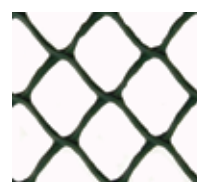

Number	Product Size	Mesh Size	Color
64313308YP	3.35'x20'	1.4"x 1.4"	●

Turf Reinforcement

Tenax Turf Reinforcement is a strong, high density polyethylene net which provides a very stable surface suitable to withstand the loading of cars and lightweight trucks once installed properly. The durable net protects from wheel rutting and ensures a good grasp for grass roots, making it ideal for car parking during concerts, exhibitions and other events wherever a natural green environment is appreciated.

Number	Product Size	Mesh Size	Color
64313308	6.7' x 100'	1.375"x 1.25"	●

TURF REINFORCEMENT

Accessories

Tenax has a wide range of Accessories that pair with our entire range of products. From our garden line to our safety line, Tenax has all the accessory solutions your project may need.

REBAR CAPS

Pro-Seeder

The Tenax Pro-Seeder is a unique tool that allows the individual sowing of seeds of all shapes and sizes, one at a time. It eliminates seed waste and thinning-out.

Number	Product Size	Color
