Experience the Toro difference... only at your local Toro Dealer

When you buy a Toro, you get the total Toro treatment. Your Toro dealer knows how to treat you right. They roll out the red carpet every day to provide you with exceptional customer service, competitive pricing, special financing options and more. Visit your independent dealer for products that cover your needs year-round, or go to www.toro.com.

HOW TO ORDER

Your authorized Toro dealer is always your best source for product accessories and parts. You can also visit www.shoptoro.com for more information.

Essential Toro Parts

Protect the reliability and productivity of your equipment with parts designed specifically for your Toro products. Made from premium materials and engineered to enhance the safety and performance of your Toro equipment, every part we ship comes with a one-year full warranty.

Our responsive Toro dealers have the skills, training and commitment to keep your equipment performing at its best. Leveraging their extensive inventory and Toro's industry-leading 98% fill rate on parts, your Toro dealer leads the industry in parts support.

TORO OIL

To maximize the performance of your Toro product, we highly recommend using Toro oil, which has been specifically formulated for best results.

PART #	DESCRIPTION
38901	Toro 2-Cycle Oil (2.6 oz bottle)
38902	Toro 2-Cycle Oil w/Stabilizer (5.2 oz bottle)

TORO TIRE SEALANT

Say "good-bye" to flat tires forever! Toro Tire Sealant seals most bead and rim leaks and seals punctures up to 1/4" (larger in heavy ply tires). It also prolongs tire life and lasts for the life of the tire. Toro Tire Sealant will not rust or corrode rims. Works in tubeless or tube tires, does not have a shelf-life, and is very competitively priced!

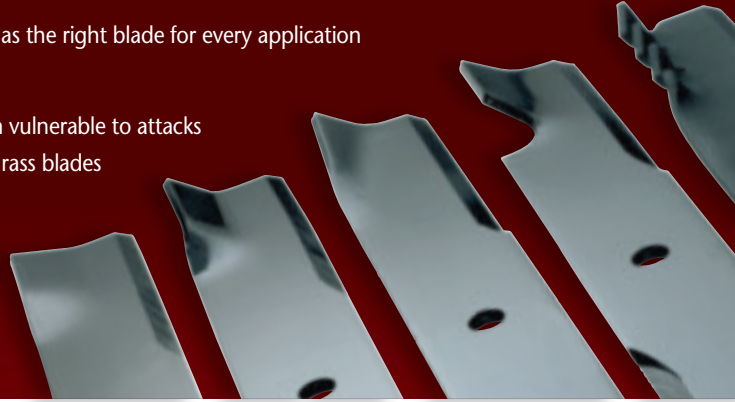

PART #	DESCRIPTION
110-8831	16 oz Tire Sealant
110-8832	32 oz Tire Sealant
110-8833	1 gallon Tire Sealant
110-8834	5 gallon Tire Sealant

GENUINE TORO BLADES

Keeping your lawn mower blade sharp will give you the best quality of cut, and Toro has the right blade for every application and for virtually every turf condition.

A dull mower blade can damage your lawn by shredding plant tips, which leaves them vulnerable to attacks by fungal disease and increased desiccation. Also, dull blades can slow the growth of grass blades and cause them to die back, creating unsightly brown patches on your lawn.

Using sharp, genuine Toro mower blades will help produce a crisp, quality of cut and contribute to the ongoing vitality of your lawn—every time you mow.

Walk Power Mower Accessories

The new line-up of Toro walk power mowers won't change how often you mow, but they will change how well you mow. Lawn care professionals have counted on Toro for over 90 years, and for good reason. Toro mowers are packed with innovations not offered anywhere else. They deliver the highest quality of cut. And they're built to last.

BLADES

Using sharp, genuine Toro mower blades will help produce a crisp, quality of cut and contribute to the ongoing vitality of your lawn –every time you mow.

Part # 59534 22" Replacement Blade
Part # 59535 21" Recycler® Blade

MAINTENANCE KITS

Ensure optimum performance with Toro walk power mower maintenance kits. Kits include: 20 ounce bottle of high performance, specially formulated oil, high quality replacement air filter, spark plug and gasoline stabilizer. Gasoline stabilizer helps ensure easy starting, keeps fuel fresh for up to 24 months, and treats up to 2.5 gallons of fuel.

Part # 20234 Toro mowers w/ Briggs & Stratton® engines
Part # 20236 Toro mowers w/ Tecumseh® engines

PRODUCT COVER

Protect your investment with a water, abrasion and tear-resistant cover. Fits most walk power mowers up to 22" wide.

Part # 490-7462 Cover w/Toro logo
Part # 490-7463 Cover w/o Toro logo

TRACTION ASSIST HANDLE

Allows you to use your hands to control the speed of Personal Pace® mowers, instead of your walking speed. The fixed assist handle allows you to squeeze the traction bar to adjust the mower speed without changing walking speed. Helpful in situations when turning tight corners and mowing hills.

Part # 59196 SR3 Personal Pace® (Bolt-on)
Part # 108-8120 Super Recycler® and Recycler Personal Pace (clamp-on)

DETHATCHER

Combs thatch (dead grass, clippings and debris) to the surface where it can be re-bagged or mulched. Thatch can keep water, air and nutrients from getting to the roots of the grass, which can cause disease or lawn thinning.

Part # 59131 Dethatcher, Rear-Wheel Drive, Cast Deck Rear-Bagging Units

SIDE DISCHARGE CHUTE

Convert your 21" rear bagging mower into a side discharge or mulching mower with Toro's side discharge chute kit. 59197 includes grass tunnel, side discharge chute (59199) and mulching plug (77-0050).

Part # 59197 21" Recycler 3 Chute Kit
Part # 59199 Replacement Chute
Part # 77-0500 Replacement Plug

MOWING TIPS

TO OBTAIN THE BEST QUALITY OF CUT:

- Make sure the blade is sharp.
(For best results, replace or sharpen yearly or when needed.)
- Operate the machine at full throttle.
- Cut only 1/3 of the grass blade at a time.
- Mow only dry grass or leaves.

IF THE FINISHED LAWN APPEARANCE IS UNSATISFACTORY, TRY ONE OR MORE OF THE FOLLOWING:

- Walk at slower pace while mowing.
- Raise the cutting height on your mower.
- Cut the grass more frequently.
- Overlap the cutting swaths instead of cutting a full swath with each pass.
- Set the cutting height on the front wheels one notch lower than the rear wheels.
(For example, set the front wheels at 2" and the rear wheels at 2 3/8".)
- Alternate mowing direction to keep the grass standing straight - this helps disperse clippings, which enhances decomposition and fertilization.
- Clean the clippings and dirt from the underside of the mower after each use.
(Grass build up inside the mower will affect cutting quality.)

Get the Best: Parts and Service

Our authorized service dealers are trained to keep your Toro mower performing at its best. By using Genuine Toro parts, they are able to tune and repair your mower so it lasts for years to come.

HERE ARE SOME BASIC MAINTENANCE TIPS TO CONSIDER:

(refer to owner's manual for specific information on your model)

- Check the blade and engine mounting fasteners making sure they are all tight.
- Clean/replace air filter periodically.
- Drain and refill engine crankcase with fresh oil. Start engine to allow engine oil to warm up.
(4-cycle models)
- Clean built-up grass clippings and dirt.
- Clean grass clippings and debris under belt cover and drive belt . *(self-propelled models)*
- Grease rear height adjuster brackets.
(self-propelled models)
- Sharpen or replace blade annually.
