### Convoy Hook Displayer Set

## CONVOY<sup>®</sup> RS<sup>™</sup>

### Dual Power<sup>™</sup>

For hard materials, pull down the lever, for soft materials, push up the lever. By pulling down the lever, thrust force increases about 40%.

### Enhanced SST<sup>™</sup>

By increasing 20% of contact surface between plunger and valve plate, the thrust force is transmitted to the plunger without reduction. This results in higher durability.

### Extra-long Seal Puncture Pin

### 360° Rotating Handle

### Viscosity

## CONVOY<sup>®</sup> RS<sup>™</sup>

Switchable thrust force to select proper discharge quantity based on caulking materials. Especially in winter, by switching the lever, it makes it easier to dispense materials which increase in viscosity due to lower temperature.

## Thrust System

**DP Dual Power™**  
For hard materials, pull down the lever, for soft materials, push up the lever. By pulling down the lever, thrust force increases about 40%.

**Enhanced SST™**  
By increasing 20% of contact surface between plunger and valve plate, the thrust force is transmitted to the plunger without reduction, it results in higher durability.

**TT System™**  
4 edges of valve plates strengthen the thrust force on the plunger. It helps to use hard materials with ease.

## Functions

**360° RH**  
**360° Rotating Handle™**  
For maneuvering in and around tight spaces.

**AFS System™**  
**Auto Flow Stop System™**  
Plunger goes back a few millimeters after every push to stop the flow efficiently.

## NEW Convoy® RS

DP Enhanced SST 360° RH

Dual Power™ 360 degree rotating handles with contoured grips, and extra-long seal puncture pins. For dispensing thick, viscous materials.
