Breathe- Easy™ Flooring

Beautiful and Healthy for Those You Love Most

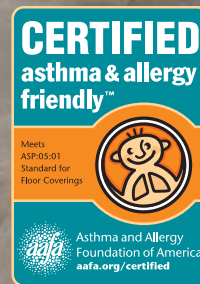

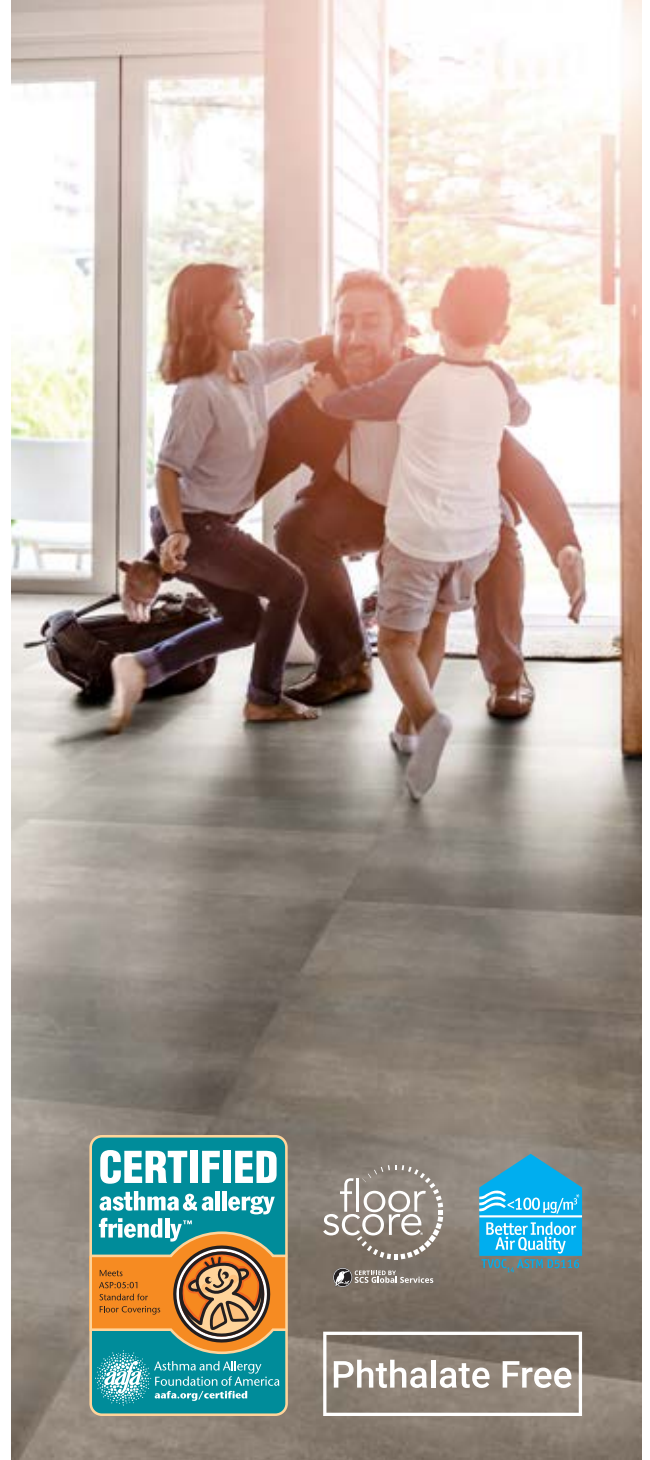

From traditional wood patterns to modern concrete finishes, Tarkett's leading designers bring you a variety of flooring options that instantly update a space with your own personal style.

But they're not just designed to look good.

When it comes to flooring, the features you don't see are even more important than the ones you do. From manufacturing to installation to cleaning, every detail of your floor affects the health and air quality of your home. Since no other surface touches you and your family more each day, we take these details seriously.

That's why **Tarkett FiberFloor® goes beyond other flooring manufacturers and is CERTIFIED asthma & allergy friendly™**. Our flooring exceeds all air quality standards set for schools and hospitals.

So go ahead and focus on the design. We've got the details covered.

Phthalate Free

Deep Breaths & Happy Designing

Choose one of our six stunning color palettes available in 4 collections to meet your individual flooring requirements. Then, select Tarkett flooring to coordinate throughout your home, for a design that flows from room to room. Looking for inspiration? Just turn the page.

Hushed Conversations

Hushed Conversations features soft white and off white in light creamy tones. It's perfect for any room that is classy, hip and everyday casual.

Chevron | Cappuccino | 14561

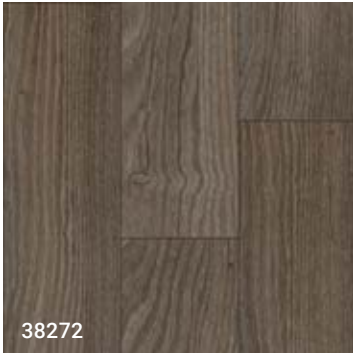

Evening Receptions

Evening Receptions is filled with drama and deep, dark hues of cool grays, blue-based browns and black. These floors are rich, elegant and provide a sense of being grounded in luxury.

19022

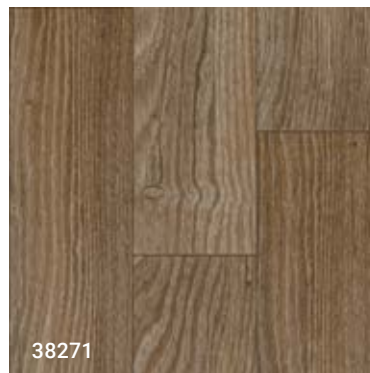

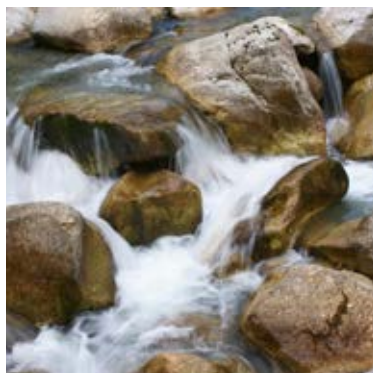

38272

Urban Vintage | Clove | 38302

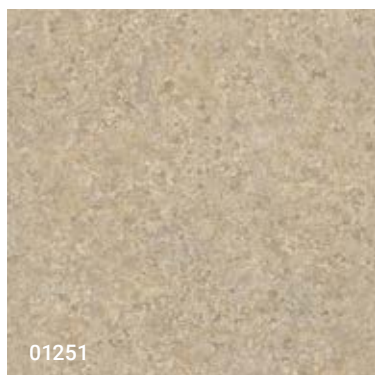

Warm Gatherings

Warm Gatherings is a mix of mid-tones in neutral and warm shades, sometimes tinged with green. Create harmony and balance with mid-tones in natural hues like tan and camel.

Champagne Celebrations

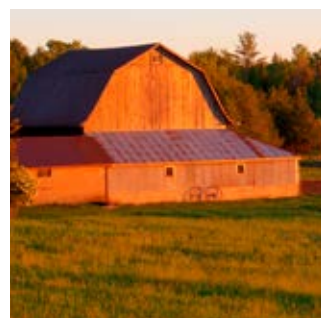

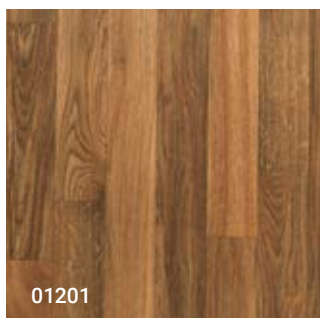

Champagne Celebrations includes warm golden tones, cheerful yellows and muted, buttery colors tinged with soft gray. This collection evokes a feeling of elegance with a hint of opulence.

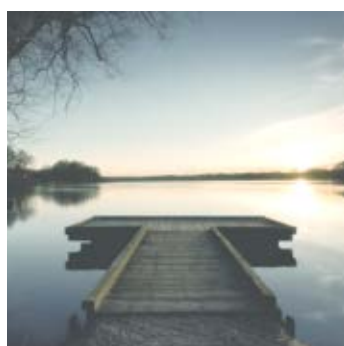

Fireside Chats

Fireside Chats' rich red and orange undertones are reminiscent of autumn's bounty and really warm up a space for cozy comfort.

Acacia | Auburn | 19192

Earthy Connections mixes warm browns and grays in modern colors of bark and stone. These hues evoke the inviting feel of natural harmony without losing their simple, modern charm.

Hex | Castlerock | 14514

Style and Designed for Life

All of the FiberFloor collections are designed to perform in any room, especially those subject to moisture. Choose from any of our four collections to find the perfect flooring for your style, budget and performance needs.

COMFORTABLE

CLEANS EASILY

FAMILY

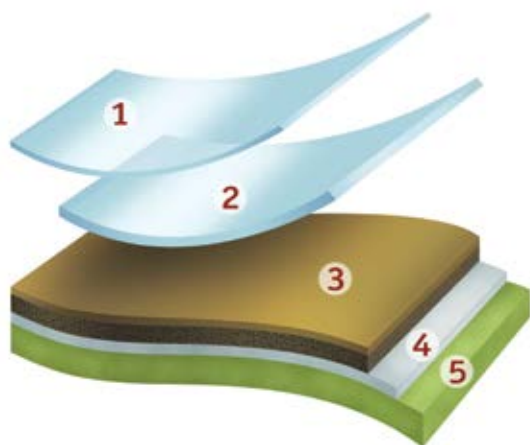

WATER-RESISTANT

PET FRIENDLY

The Tarkett FiberFloor® Protection System,[™] featuring five everyday-life-resistant layers and more.

1 Finish layer

Protects against scratches, scuffs and stains for easy cleaning and maintenance

2 Wear layer

Prevents wear, rips, tears, gouges and indentations

3 TechniCore foam layer

Adds cushion and additional indentation protection, creating warmth and comfort underfoot

4 Engineered fiberglass inner layer

Utilizes non-woven fibers so it lays flat and won't expand or contract for increased stability

5 TechniCore backing layer

Allows high flexibility, easy installation and a moisture- and sound-resistant barrier for added performance

Healthier Indoor Environments

Sixty Million Americans, or one out of five, suffer from asthma or allergies. With about 93% of our time spent indoors, Tarkett FiberFloor® contributes to improved indoor air quality of homes, apartments and small businesses with flooring products that are certified by the Asthma and Allergy Foundation.

Tarkett FiberFloor has low emissions. FiberFloor has ultra low TVOCs (total volatile organic compounds) of less than 100 µg/m³ (micrograms per cubic meter) compared to many common household items like shower curtains, carpeting and household cleaners.

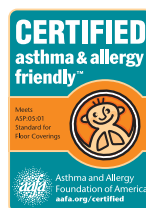

Our product is also FloorScore certified and phthalate free. Through the use of Eco-Innovation and the selection of good materials, Tarkett succeeded in eliminating ortho-phthalates in our FiberFloor products.

Tarkett's Commitment to Sustainability

Tarkett practices Closed Loop, Circular Design, powered by Cradle to Cradle principles, with a goal to design every product to positively contribute to peoples' health, well-being and quality of life, and the environment. We strive to continuously reduce our carbon footprint by using fewer resources and finding improved ways to manufacture and bring products to market.

DESIGNING FOR LIFE

Developing products based on Cradle to Cradle® principles that contribute to people friendly spaces AND respect the planet's natural capital.

CLOSING THE LOOP

Building a circular economy inclusive of programs and business models that encourage take back, reuse, recycling and elimination of waste.

DRIVING COLLABORATION

Inviting others to join us in Doing Good through education, collaboration, transparency and communication.

Cradle to Cradle® is a trademark of McDonough Braungart Design Chemistry, LLC.

It's Nice to Look Amazing with So Little Effort.

Tarkett FiberFloor® Care and Maintenance

To ensure the best performance and quality of your new floor follow these basic steps:

- Replace furniture and refrain from heavy traffic for 24 hours after installation in fully adhered applications. Protect sealed seams for 24 hours after application.
- When moving heavy furniture or appliances, use extreme caution and move using plywood or hardwood panels to avoid damage.
- Full adhesion is recommended for commercial applications and in residential applications where rolling carts or wheel chairs are present.
- Use proper rests, glides and casters on furniture as the recommended stationary load is 75 lbs per square inch. Small narrow furniture rests should be replaced with wider, smooth, non-staining, protective load-bearing devices (at least 1" square or 1-1/8" diameter per 50-75lbs).
- Do not walk on the floor with narrow-heeled shoes which will cause permanent indentation that is not covered under the warranty.
- Close drapes or blinds to minimize the repeated sunlight exposure and to minimize fading, bleaching and discoloration.
- Select area rugs/mats carefully to avoid staining from rubber backings and dyes.
- Protect the floor against heat emissions from refrigerators and other appliances by keeping them clean and free of dust around motors and exhaust areas. The airflow of forced-air heating systems should be directed away from the floor. Over time heat will cause discoloration.
- Tarkett FiberFloor requires little maintenance and should be swept/vacuumed regularly followed by routine cleaning with water and a neutral cleaner. To minimize damage to the floor, immediately treat all stains and spills.
- Visit tarkettna.com/resources for installation directions and for information on treating stains, warranties, and detailed clean, care and maintenance instructions.

Tarkett Installation Accessories

Tarkett FiberFloor provides greater flexibility through three methods of installation: full adhesion, releasable adhesion and floating/loose-lay applications. When using adhesion, Tarkett recommends the use of QBOND-ONE™ for permanent and tacky/releasable applications for all sheet products.

For loose lay or floating installations use Tarkett's floating seam tape S-875 or S-860 (over concrete) which allows for multiple seams and no room size restrictions, unique only to Tarkett. Finish off the seams with DT-65 seam sealer for both PVC and Urethane Finishes. Unlike other seam sealers, DT-65 creates a chemical bond that fuses each side together, providing a superior bond.
