MOSQUITO REPELLENT LANTERN

Active Ingredient:
d-cis/trans allethrin..... 21.97%
Other Ingredients.....78.03%
Total.....100.00%

Contains petroleum distillates

KEEP OUT OF REACH OF CHILDREN
CAUTION: See bottom panel for additional First Aid and Precautions

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USEFUL TIPS:

- Allow 10 to 30 minutes, depending upon the size of the area, for product to take effect.
- This product works best in outdoor areas where there is minimal air movement, such as yards and outdoor campsites.
- Provides a maximum of 4 hours mosquito repellency per mat.
- Original, Earth Scent and Max Life Thermacell refill mats are effective in Thermacell mosquito repellent devices.
- Mats turn from pale blue to white when mosquito repellent has been used up and needs to be replaced.
- Some visible vapor will appear during use; this is normal.
- Use additional mosquito repellents to cover a larger area.
- Altitudes above 4,500 ft can effect product performance.
- Zone Indicator Light requires 4 AA batteries.
- The mosquito repellent and light features operate independently.

Use Restrictions:

Only for outdoor use as a mosquito repellent. Do not use indoors, in tents or in any enclosed area. Do not insert anything other than Thermacell® mats into the mosquito repeller. Cover or remove all exposed food. Do not leave mosquito repeller unattended or use in windy conditions. Do not expose mosquito repeller or mats to rain. Place mosquito repeller on a flat, stable surface with the grill facing upward. Do not touch the grill; it will be hot after a couple of minutes. Clean with a damp cloth only when the mosquito repeller is cool and inactive. Only Thermacell® mats and cartridges will work in this mosquito repeller.

TO USE THE LIGHT:

1. Open the battery compartment and insert 4 AA batteries. Close the battery compartment.
2. To use the light, locate the light switch on the base of the lantern. Press the switch towards LO for a soft light or HI for a brighter light. To turn the light off press the ON/OFF switch to the center position.
3. The light may be used with the mosquito repellent or independently.

TO USE THE MOSQUITO REPELLENT:

1. Remove one Thermacell® mat from wrapper.

2. Insert the mosquito repellent mat under the grill.
3. Remove top of lantern from base by squeezing the latch tabs and lifting off the top of lantern until it is fully removed from the base.
4. Remove cap from butane cartridge and insert cartridge into lantern. Turn cartridge clockwise until it stops. Make sure cartridge is fully inserted. Return lantern bottom onto base.
5. To activate the mosquito repellent, slide the

‘ON/OFF’ button to the ‘ON’ position. The gas will begin to flow.

6. Wait approximately 5 to 10 seconds and then depress the ‘START’ button three to five times in rapid succession.

7. To verify that the mosquito repellent is activated look at the circular view hole located at the top of the lantern. An orange light will glow. If there is no orange light, check to make sure the lantern is ‘ON’ and the cartridge is completely screwed into place. Also check the fuel level in the cartridge. If the fuel level in the cartridge is empty or near empty, remove cartridge and replace with a new Thermacell® cartridge. Then once again turn the lantern ‘ON’ and depress the start button three to five times in rapid succession. Check again to make sure the orange light is glowing.
8. When finished using the lantern slide the ‘ON/OFF’ button to the ‘OFF’ position. If using the light, push the light switch to “OFF” to extinguish the lantern light. Allow lantern to cool completely. Lantern is now ready for storage.
9. To replace a used mat, turn off lantern and allow to cool completely. Push the used mat out by inserting a fresh mat.

TROUBLESHOOTING:

If you do not see an orange glow through view window

1. Repeat directions “To Turn ON”.
2. If there is still no orange light visible, make sure the fuel cartridge is completely screwed into place. Repeat “Turn On” directions. Confirm the orange glow is visible.
3. Check the amount of fuel in the cartridge. If cartridge is empty or near empty, remove cartridge and replace with a new cartridge. Repeat “Turn On” directions. Confirm the orange glow is visible.

Not sure product is working?

1. Place product upwind for maximum mosquito repellency. Windy conditions can reduce mosquito repellent effectiveness.
2. Check the mosquito repellent mat. Mats turn from pale blue to white when it has been used up. See directions to replace Thermacell Mosquito Repellent Mat.
3. Check the amount of fuel in the cartridge. If cartridge is empty or near empty, remove cartridge and replace with a new Thermacell cartridge. Repeat “Turn On” directions. Confirm the orange glow is visible.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. **Pesticide Storage:** Store unused mats in original box in a cool, dry place inaccessible to children and pets. Store mosquito repeller and butane cartridges in original box in a cool, dry place away from sources of heat. Store batteries in cool, dry place away from heat or open flame. **Pesticide Disposal and Container Handling:** Non-refillable container; do not refill or reuse this container. **If cartridge is empty or for used mats:** Do not reuse empty packaging, wrappers or cartridges. Do not puncture or incinerate empty cartridges. Place in trash or offer for recycling if available. **If cartridge is partly filled or for unused mats:** Call your local solid waste agency for disposal instructions. Never place unused mats down any indoor or outdoor drain. **For unwanted mosquito repeller:** Place in trash or offer for recycling if available.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Contains petroleum distillates. Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If On Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may call 1-866-753-3837, Monday through Friday, 8:30 AM to 4:30 PM EST. After 4:30 PM, call your poison control center.

Note to Physician: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

PHYSICAL AND CHEMICAL HAZARDS

Butane Cartridge Hazard: Extremely flammable. Contents under pressure. Vapors may cause flash fire. Use only in a well ventilated area. Do not use, store, or dispose near heat, sparks, or flames. Do not puncture or incinerate. Containers exposed to direct sunlight or otherwise heated above 120°F (49°C) may burst. Store in cool, dry area. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. If vapors are inhaled, remove person to fresh air.

Batteries: Use only with AA batteries. Do not pry battery with any instrument or tool or put in a fire. Battery may burst or release toxic materials.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic invertebrates. Do not apply directly to water. Do not contaminate water when cleaning equipment or disposing of equipment washwater or rinsate. Drift may be hazardous to aquatic organisms in water adjacent to treated areas.

WARRANTY AND DISCLAIMERS

To the extent applicable by law, seller will not be held responsible for damage, injury or poor performance caused by use of other butane cartridges or repellent mats. Seller is not responsible for damage caused by using this butane cartridge in other butane products.
