

VENOM[®] Disposable Gloves
Comfortable, Strong Protection

Perfect for painters, cleaning professionals and auto mechanics.

The tactile sense can be just as important as barrier strength.

Venom disposable gloves offer excellent tactile sensitivity and strong protection from grease, dirt and grime. Made of an advanced powder-free nitrile, Venom gloves provide a latex-like touch without the harmful side effects.

Try them on...

- **Comfortable fit** – Venom gloves don't feel like typical clumsy disposable gloves
- **Excellent tactile sensitivity** – You can protect your hands and still feel what you're working on
- **Non-slip grip** – Textured fingertips make it easy to grab greasy tools and other slippery items

Put them to the test...

- **Abrasion-resistant** – Tough enough to resist punctures and tears
- **Exceptionally strong** – Powerful protection from polishes, oil and grease

Item #	Description*	Pkg
