

6 models for WALL EXHAUST TRAP

Model VMAX-AF3-BL

3 in. diameter wall mount exhaust vent with 9 in. tail pipe.

Model VMAX-AF5-BL

5 in. diameter wall mount exhaust vent with 9 in. tail pipe.

Model VMAX-AF4-BL

4 in. diameter wall mount exhaust vent with 9 in. tail pipe.

Model VMAX-AF6-BL

6 in. diameter wall mount exhaust vent with 9 in. tail pipe.

Model VMAX-AF4C-BL

4 in. outside diameter wall mount exhaust vent with 3 in. tail pipe.

User Friendly: by removing the existing vent, this unit is designed to slide into the existing tail pipe within the wall cavity.

Model VMAX-AF10-BL

3 1/4 in. X 10 in. rectangular wall mount exhaust vent with 9 in. tail pipe.

Features

The removable damper and grill allows you easy access for cleaning of the ducts, or simply transforming the vent to a fresh air intake vent for air exchanger units.

With 6 models to choose from, these exhaust vents will give you peace of mind.

WARRANTY
Limited Lifetime Warranty on all manufacturing defects, 5 years on paint & corrosion

The Maximum wall exhaust traps

HOW IT WORKS

The Maximum Wall Exhaust Trap : Washroom, Dryer, HVAC and Hood Range.

Design : Engineered to protect the damper from direct contact of extreme weather.

Energy Savings : Unique air tight triple seal gasket.

Net Air Flow : Unique and specifically designed and engineered to permit for the exact net free air flow for both intake and exhaust, thus, eliminating back flow pressure.

Silent : Fine tune precision. The damper mechanism combined with the insulated damper, reduces noise level to a whisper.

Backdraft Proof : Unique anti gust deflector incorporated within the structural envelope.

Tail Pipe : A built-in 9 in. tail pipe (no need of extensions) eliminates moisture loss within the wall cavity and reduces lint build up at the joints.

Rodent Proof : Removable galvanized screen grill, combined with the metal structure, discourages nesting and all other destructible abuses.

Interchangeable : Two products in one, these wall vents can be transformed from an exhaust to an air intake vent within minutes.

Maintenance : Removable grill & damper allows cleaning of ducts all from outdoors.

Finish : Highest quality powder coated paint finish with UV protection.

Available Colour : White (other colours available at a slight premium).

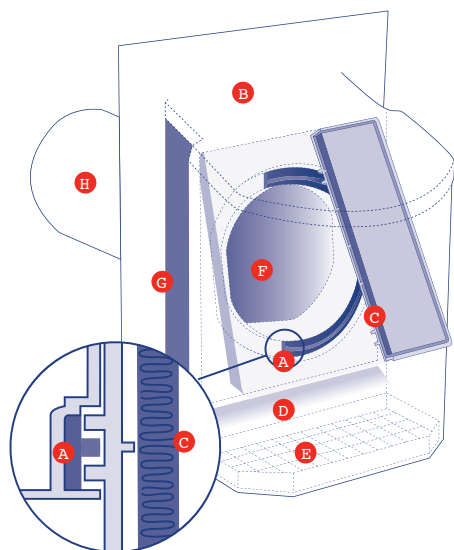

Dimensions : 3 , 4, 5, 6, & 3 ¼ x 10 in.

www.ventilation-maximum.com

A . Energy saving ; due to air tight triple seal

B . Solid construction ; steel envelope protects air damper from extreme weather conditions and abuse

C . Silent ; insulated damper reduces noise level

D . Backdraft proof ; built-in anti gust deflector

E . Rodent Proof ; removable galvanized wire screen grill

F . Net evacuation ; exact net free air from entry to exit

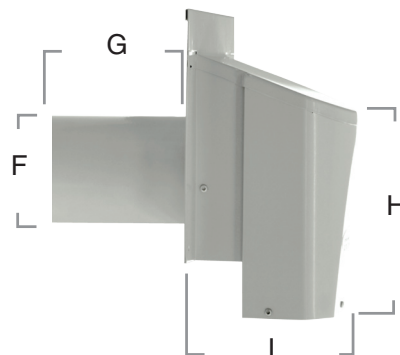

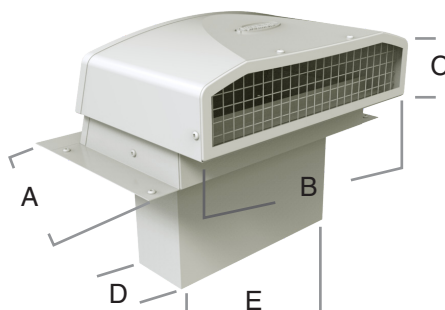

G . Interchangeable ; can be transferred from an exhaust to an air intake in minutes

H . Tail pipe ; Built-in tail pipe reducing moisture loss within the structural walls

Paint ; powder coated with UV protection

Long term investment

Available in 3, 4, 5, 6" diameter as well as 3"1/4 x 10"
