

XCEL Bluetooth Advanced Digital Muff

Product Description

These enhanced ear muffs with Bluetooth connectivity provide protection from loud noises such as gun shots, construction equipment, daily job site noise and industrial equipment while allowing the user to maintain productivity with a variety of Bluetooth enhanced capabilities.

The Bluetooth connectivity on the XCEL Bluetooth muff allows for additional functions, such as music playback and the ability to answer or reject incoming phone calls, while still offering the same sound compression to deaden or completely mute incoming ambient sound and multiple audio filters that provide enhanced hearing for various situations.
