

WOOSTER® Jumbo-Koter®

Pipe Painter

Dual cage frames work 50% faster!

From one inch diameter to 13 feet, the Wooster Jumbo-Koter Pipe Painter has it covered. The patent-pending design incorporates not one, but two smooth-spinning rollers to cut painting time in half! The cage frames adjust in 30° increments—move one arm or both—to accurately fit different surfaces. It professionally applies all coatings; customize with any Jumbo-Koter miniroller. Made of strong copolymer polypropylene, the Wooster Pipe Painter has a thumb rest for comfort, or attach it to threaded or Sherlock GT® extension poles for added reach.

- Twin roller cages spin smoothly and paint two sides of the pipe simultaneously
- Fully adjustable to paint pipes as small as 1" diameter, as well as railings, posts, I-beams, bridges and more
- Works with all 6½" and 4½" Jumbo-Koter minirollers
- Galvanized 1/4" shanks, polypropylene threaded grip, Sherlock GT compatible
