

WEISER

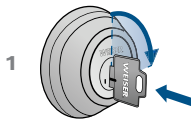

THE ONLY LOCK YOU CAN RE-KEY IN SECONDS!

What is SmartKey?

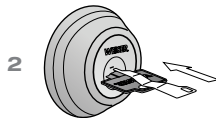

SmartKey™ is a technology that allows you to re-key a lock in just seconds while improving security without removing the lock from the door.

How Does it Work?

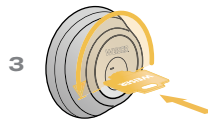

SmartKey™ has a patented side locking bar technology that replaces the traditional pin and tumbler design. This new design includes BumpGuard™ for improved security against lock-bumping, an attack technique that can defeat traditional pin and tumbler locks.

1
Insert functioning key and turn 1/4 turn clockwise.

2
Insert and remove the SmartKey™ Learn Tool. Take out current key.

3
Insert new key and turn 1/2 turn counter-clockwise. Your lock is now re-keyed!

SUPERIOR SECURITY

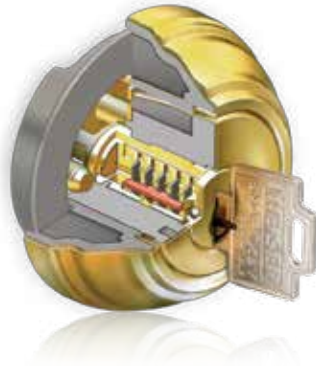

It's why we buy locks in the first place. With SmartKey™ technology from Weiser you are guaranteed to have one of the most secure residential deadbolts on the market.

ANSI Graded Deadbolts

Deadbolt locks are rated by an independent agency (ANSI) on a grade scale; with Grade 3 being good, and Grade 1 being the best.

How does SmartKey rate?

All of our SmartKey™ deadbolts are ANSI rated and approved. In our Collections family of products, many of our SmartKey™ deadbolts are rated as Grade 1 – providing you with the very best residential security on the market and featuring the highest level of pick resistance available.

Collections

SUPERB. DISTINCTIVE. ELEGANT.

Our finest door hardware ever – Collections by Weiser provides the best security and styles you can buy. We've taken over 100 years of experience, and crafted a distinctive line of architecturally inspired products, featuring the latest in styles and finishes.
