We Make Less Water Feel Like More!

Better Quality Specialty Aerators ..

standard aerators & sink strainers

SuperSpray™ spray & stream aerators

SuperSprays have U.S. Made Lead Free Brass Swivel Balls,
Dual Thread Couplings and Lever Control Valves

Deluxe SuperSpray™ with water saving lever control

SU6C Deluxe SuperSpray with lever control

15.96

Provides a wider, more forceful spray that makes rinsing quick and easy, or an aerated stream that reduces splash and a full softer flow.

Lever control valve is made in USA of lead free brass, allows user to easily adjust flow rate from full flow 2.2 GPM to a softer water saving flow or a trickle to save between rinsing, makes that a great water saving product.

Lead Free Brass Swivel provides wider sink coverage.

Brass connector has both 15/16 x 27 male or 55/64 x 27 female threads, installs easily on most kitchen faucets.

Standard SuperSpray™ swivel, spray & stream aerator

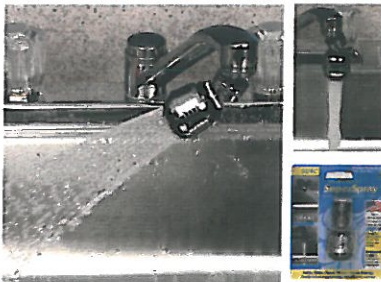

SU7C Std SuperSpray spray & stream aerator

9.96

A great improvement to any kitchen faucet, the standard SuperSpray provides wider, more forceful spray that makes rinsing quick and easy and helps save water, or an aerated stream that reduces splash.

Lead Free Brass Swivel Ball provides wider sink coverage.

Brass connector has both 15/16 x 27 male or 55/64 x 27 female threads machined into shell, installs easily on most kitchen faucets.

Double Swivel SuperSpray™ spray & stream aerator

SU8C Double Swivel SuperSpray aerator

15.96

Includes extra swivel action for complete sink area coverage, makes cleaning up quick and easy. Provides wider, more forceful spray that makes rinsing quick and easy, or aerated stream that reduces splash. Chrome plated brass swivel ball and connector is made in the USA, provides more sink coverage. Brass connector has both 15/16 x 27 male or 55/64 x 27 female threads machined into shell, installs easily on most kitchen faucets.
