

► HuntSmart™ analyzes your photos in order to make you a smarter and more efficient hunter. Tag, filter, sort and organize all your images then set up a network to share with friends and family. Utilize these in-app scouting features on your mobile device or desktop interface with any of your current game cameras.

FEATURES

- Mapping Tools & GPS Sync** - Positions camera location on a map
- Shareable** - Allows you to set up a family and friend network to view and manage photos
- A.I. Image Recognition** - No animal, buck, doe, by species, specific animal tagging
- Weather & Moon Phase** - Information provided per photo (wind, temp, barometric pressure, moon phase and forecast) to give you the best days, times and locations to hunt
- Photo Sorting** - Filter and sort images on date, time of day, weather, location, moon phase, species and more
- Species Identification** - Buck, doe, turkey, hog, coyote, fox, bobcat and more
- Hit List Tracker** - Ability to tag a specific buck and track movements
- Hunt Predictor** - Utilize all data to predict best time, date and location to hunt in the future
- Buck Scoring** - Ability to score your buck utilizing B&C scoring system

CAMERA TECHNOLOGY

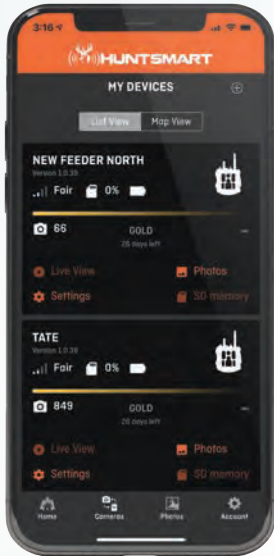

- EXPOSURE CONTROL**
Three exposure settings allow you to select the perfect blend of image clarity and distance that works for you.
- SILENT SHIELD™ TECHNOLOGY**
Every camera action has been engineered with Silent Shield™ technology. This means your camera goes unnoticed by nature and that big buck keeps coming back.
- ZERO DETECTION**
Zero noise, zero detection. Keep camera operations completely silent so you capture natural wildlife behavior without any alert.
- LIGHTSOUT™ TECHNOLOGY**
Lightsout™ technology uses invisible IR LEDs with an extended range to maintain concealment when capturing flash images.
- TRU-DUAL CAM™**
Two are always better than one. Dual cameras – one optimized for day and one for night – give you digital HD photos with superior clarity.
- ADAPTIVE ILLUMINATION**
This enhancement automatically adjusts the amount of illumination based on the camera's distance to a target ensuring a perfect exposure every time.

FEEDER TECHNOLOGY

- VARMINT GUARD**
Protect your unit and eliminate feed waste with this rigid varmint guard that encases everything you don't want nature messing with.
- WELDED CONSTRUCTION**
These heavy-duty designs won't wear or tear because we built them good and strong. Welded construction models are our most durable feeders yet.
- POLY BARREL CONSTRUCTION**
Dependable and effective yet mobile: poly barrel feeders are light enough to easily move and test multiple feeding locations.
- QUICK ASSEMBLY**
Quick assembly feeders require minimal effort and only steal 15-20 minutes of your time before they're fully operational.
- ULTRA-STRONG SQUARE LEGS**
The square shape plus a powder-coating on tube legs is two-folds beneficial – adding both stability and strength.
- CORN OR PELLET FEED**
Fill your feeders with plenty of corn or pellet feed without worrying about clogs or hang-ups.

ATTRACTANT TECHNOLOGY

- AIRBORNE TECHNOLOGY™**
Airborne attractants disperse 600% more scent molecules than ordinary attractants. If you can smell the potency of these products – just think what it smells like to game.
- PROTEIN & FAT CONTENT**
Attractants don't just train game to find your spot; they become an integral part of animals' health by feeding them ample protein and fat to bulk up to trophy status.
- FLAVOR PROFILES**
We know what brings game to dinner. Flavor profiles of apple, persimmon, corn, sugar beet, molasses and acorn make our attractants irresistible.

INSITE CELL

Take your favorite hunting spot with you wherever you go. The all-new Insite Cell™ trail camera pairs with your cell phone to send automatic photo and video updates anytime, anywhere. The tricked out trail camera integrates with the all-new WGI app to automatically analyze trail cam captures and help you plan your next hunt. The In-site Cell also features all our most premium upgrades, including Adaptive Illumination, invisible Lightsout™ illumination and an industry-leading 32 megapixel image clarity. Works nationwide on any network.

MIRAGE™ 22
LIGHTSOUT™

Your eyes aren't fooling you; trail cam photos and videos really can look this good at an affordable price. The Mirage 22™ Lightsout™ offers a sharp 22-megapixel camera paired with superior nighttime image capturing capabilities. Exposure Control makes it easier to find the right combination of clarity and distance depending on your camera's location. You'll get the same quality results with 720p HD videos, too.

Once you've found the right spot and the right settings, sit back and let the Mirage 22 Lightsout do the rest of the work. The camera reacts with a trigger speed less than 1/2 second, and stays quiet with Silent Shield™ technology. The added benefit of Lightsout™ technology further maintains the camera's concealment with a 42-piece invisible infrared flash.

HEX LIGHTSOUT™

Hex Lightsout™ wins every category when it comes to concealment. But its biggest trick is actually small. With a footprint of just 7.5 square centimeters, Hex Lightsout™ practically disappears when mounted to a tree or fence post.

Other methods of disguise: Trubark HD™ wraps the trail camera in camouflage with a tree-like texture, Silent Shield™ quiets all camera operations, and Lightsout™ technology illuminates with an invisible flash. Undetected by big bucks and camera thieves alike, Hex Lightsout™ will be left alone to deliver incredible 20-megapixel images and HD 720p videos.

MEGAPIXELS	ILLUMINATION RANGE	ILLUMINATION TYPE

-----------	-----	-----------------

HEX

Sometimes the best things come in small packages. And this is one of those times. Hex has a footprint of just 7.5 square centimeters, but still manages to deliver 20-megapixel images and HD 720p videos.

What else can this little camera do? Just about everything. Adaptive illumination and exposure control automatically adjust for incredible image quality so you never miss a tine or a tail. Hex easily mounts to any tree or fence post and stays concealed with its small size and TruBark HD camo. It's truly unlike any other trail cam out there.

WRAITH™ 18 LIGHTSOUT™

There's something haunting the woods. The Wraith™ 18 Lightsout™ features an impressive 40-piece illumination system to capture images and videos up to 70 feet out. Of course, game will be none the wiser since the blacked out infrared bulbs emit an invisible flash. Also contributing to the trail camera's concealment, Silent Shield™ Technology keeps camera operation quiet. Long-lasting battery life allows the Wraith 18 Lightsout to monitor your favorite hunting spot for up to a year.

SWITCH LIGHTSOUT™

SWITCH™

Three buttons: that's all it takes to get the Switch™ fully operational. This dummy-proof trail camera is the easiest setup we've ever come up with. Choose a capture mode, delay setting and time zone – and you're done. The Switch captures crisp 16 megapixel images and 720p HD videos, and updates the date and time automatically (even during Daylight Savings). Spend your time hunting, not setting up cameras, with the Cam.

KICKER LIGHTSOUT™

The Kicker camera is an excellent option for budget-minded hunters who want to cover a lot of ground all at once. Capturing crisp 14 MP images and high-definition 720p HD video this camera does it quickly with a sub-one second trigger speed. Thanks to its compact body and included adjustable tree strap, this model conceals easily in the field and lasts months on end with its overall 8 battery capacity. So, what's the kicker you ask? There really isn't one.

TRAIL PAD TABLET

The Trail Pad Tablet looks and performs like a tablet, with HD images and videos filling the oversized 7-inch touch screen. But this isn't just any other tablet. It's a hunter's tablet – specifically designed to cater to all your game tracking needs.

The weather-resistant tablet features dual, standard size SD card ports to sift through the hundreds of images and videos that every hunting season brings. Insert an SD card from your favorite trail cam into the library port to view every deer, hog and turkey in HD quality. When you like what you see, send it over to the archive. This stores the best of the best on a second SD card so you can easily keep tabs on a single animal or the entire herd. That's right: no more endless scrolling to find that one picture you want to show your buddy. Ultimate bragging rights are within view.

- + Oversized 7-inch HD backlit TFT touch screen
- + Zooms, swipes and navigates just like other tablet devices
- + Dual SD card reader simplifies in-field file viewing and organization
- + Primary port houses SD card with full library of images and videos
- + Secondary port saves favorites to designated archive SD card
- + Built-in speaker supports audio during video playback
- + Compact, lightweight design
- + Heavy-duty, water-resistant housing
- + Holds two SD cards up to 32GB each (not included)
- + Auxiliary and micro USB ports for computer and/or TV viewing (cords not included)

WGIVW0009	UPC	6 16376 51160 8
-----------	-----	-----------------

TRAIL PAD SWIPE

The Trail Pad Swipe SD card reader allows you to review images and videos directly from your game cameras. Equipped with a heavy-duty, water-resistant housing and a compact, lightweight design, the Trail Pad Swipe can easily trek into the field with you. No cords are required; simply load an SD card into the Trail Pad Swipe to start viewing. You'll find files neatly organized on a bright LCD screen so you can run through all the action your cameras have seen. Instantly view photos and watch videos with a user-friendly touch screen and easy-access buttons. The touch screen even has a zoom feature so you can count every time.

- + Handheld media viewer for in-field use
- + Compact, lightweight design
- + Heavy-duty, water-resistant housing
- + Touch screen and push-button navigation
- + Zoom in/out functionality
- + Holds up to 32 GB SD card
- + Auxiliary and USB ports for computer and/or TV viewing (cords not included)
- + Up to 32 GB SD card and 4 AAA batteries required (not included)

TREEHUGGER™

The Treehugger™ is a low-maintenance feeding solution that sets the dinner table all on its own. We used long-lasting PVC material to construct a durable gravity feeder that attaches to any tree in under five minutes. Simply loop the integrated straps around a tree trunk and secure with the heavy-duty buckle. The Treehugger will take care of the rest, naturally replenishing feed as game consumes it. And you can fill it with just about whatever feed you want: corn, attractants, protein, mineral or a combination.

Easy setup and a lightweight design make the Treehugger perfect for hard-to-reach areas that don't have a lot of space, like backwoods or swamps. Use this simple, streamlined feeder to test a potential feeding site and move it as often as you like until you find the right spot. With a hoof-licking-good food source overflowing all over the ground, deer will be sure to find it wherever you choose.

CAPACITY	CAMO
Up to 100 LBS	TRUBARK HD™

- + Gravity bag feeder naturally replenishes feed as it's consumed
- + Fill with corn, attractant or minerals
- + Durable weatherproof material
- + Roll-top sealed closure
- + Great for hard-to-reach areas like backwoods or swamps
- + Patent-pending design

ACORN RAGE®

Deer have been known to abandon corn, wheat and even lush foot plots in the name of one of their favorite meals: acorns. Acorn Rage® feeds their obsession with 100% real crushed acorns blended with roasted soybean to create a long-lasting attractant that's as nutritious as it is palatable. Airborne Technology™ disperses 600% more scent molecules than ordinary feed grains to cover super long distances with incredible speed. Acorn Rage comes ready to use straight out of the bag and effectively attracts deer year-round.

- + Real acorns crushed and blended with roasted soybean meal
- + Pure acorn scent and flavor packed with rack-building nutrients
- + Airborne Technology™ creates long-range scent vapor trail

SUGAR BEET CRUSHED™

Sugar beets are incredibly effective at attracting and drawing in deer. The problem is they grow seasonally and only in certain regions, making them hard or even impossible for hunters to find. Wildgame Innovations made the impossible possible with an ultra-concentrated attractant using real sugar beets: Sugar Beet CRUSHED®. Airborne Technology™ sends 600% more scent molecules than ordinary feed grains for unparalleled attracting power. Sugar Beet CRUSHED comes chock-full of protein and fat to build strong, healthy deer and will satisfy that buck's sweet tooth to bring him in from miles away.

- + Real sugar beets crushed and blended into an ultra-concentrated attractant
- + Captures one of deer's favorite treats that can be difficult to find
- + Airborne Technology™ creates long-range scent vapor trail

APPLE CRUSHED™

Deer go wild for the sweet aroma and delicious taste of ripe, juicy apples, and now Wildgame Innovations is bringing the orchard to you with Apple CRUSH®. We take fresh, all-natural ripe apples then CRUSHED 'em with a blend of nutrient-filled proteins and fats to grow monster trophy bucks. Airborne Technology distributes 600% more scent molecules than ordinary feed grains to attract over crazy long distances at super-sonic speeds. Unleash a whole bushel of attractant power with Apple CRUSHED.

- + Fresh, all-natural apples are sliced, dried and crushed with an irresistible sweet mix of proteins and fats
- + Tasty, nutritious treat brings out even the most cautious bucks
- + Real apple power will help you crush that trophy buck you've been waiting for

ACORN RAGE FEEDER FAT™

It's no secret real acorns provide highly palatable, widespread forage that deer find irresistible. These acorns are also high in fat – four times more than corn. Acorn Rage® Feeder Fat™ can be added to corn feeders to help you bulk up deer's diets. They'll want it for the delicious acorn taste, but the true benefits lie in the fat, protein, fiber, calcium and vitamins in each bite. You'll see the difference when you get your hands on that rack.

- + Concentrated pellet made with real acorns
- + 4x more fat than corn
- + Treats up to 80 pounds of corn

5 LB BAG	WLD086	8 55018 00086 9

HOG HEAVEN®

Most landowners, farmers and hunters have their own first-hand accounts of the damage feral hogs can cause. Everyone wants to solve this problem, but it's a tough one to tackle. Hogs can be difficult to pattern because of their large home range, acute senses of smell and opportunistic feeding habits. That last part is where we can help: hogs are always hungry.

Hog Heaven™ uses a proprietary mixture of grains and a super-sweet fruit punch additive that will draw them in for miles. This powerful granular attractant will help you attract, pattern and trap hogs in your area as they fight over every last morsel of this heavenly treat. If you're after an attractant that hogs simply can't resist – Hog Heaven is the answer to your prayers.

- + Most effective hog draw on the market
- + Manage unruly populations of intelligent and destructive hogs
- + Premium mix of the berry flavors hogs love

SIZE	MODEL	UPC
5 LB BAG	WLD059	8 55018 00059 3

PILE DRIV'R™

Pulling deer into perfect range or putting them directly in front of your trail camera takes a little something extra. Pile Driv'R is an extremely affordable high-volume attractant that will put big bucks right where you want them - in the freezer. The sweet and savory aroma attracts deer from a long range and is a great option for late-season supplement when deer herds need it most.

- + Sweet and savory aroma attracts big bucks from long distances
- + Highly palatable blend for ease of consumption
- + Easy additional food source for late season

BUCK SNORT™ APPLE

Deer won't be able to get enough of Buck Snort™. Our proprietary formula disguises minerals in a highly concentrated liquid that smells and tastes just like real apples. Simply flip the lid, squirt where you want it, and watch the deer come sniffin'. You'll have a patterned, healthy herd faster than you can say "Wildgame Innovations." Works year-round for incredible attraction power.

- + Irresistible apple aroma
- + Flip top cap for easy, mess-free application
- + Super dense mineral concentration
- + Quickly establish hoof traffic to your favorite spot
- + Incredibly long lasting
- + Starts working immediately

40 OZ BOTTLE	WLD460	8 50695 00460 5

PERSIMMON CRUSHED™

Hunters know the value of hunting over persimmons, but they're difficult to find and often messy or inconvenient to use. Now there's Persimmon CRUSHED™, combining the natural attracting power of real persimmons with a high-protein, carbohydrate-packed proprietary base. The powder is double screened to create a finely sifted formula that absorbs and releases with long-range, in-your-face power. Airborne Technology™ adds more distance and speed by distributing 600% more scent molecules than ordinary feed grains. All that with an irresistible persimmon taste makes this one of the most incredible attractants ever.

- + Proprietary double-screening process creates fine powder that absorbs and releases more potent scent
- + Airborne Technology™ creates long-range scent vapor trail
- + Ultra-high fat content and carbohydrate blend
