INNOVATIVE
SECURE

The **#1** Selling,
Original,
Password
Protected Lock

WordLock®

in a word: secure®

Words are our most natural form of communication and easier to remember than a series of numbers. The patented WordLock algorithm allows you to use thousands of words for your own security on luggage, bikes, lockers, job sites and anywhere else you need it.

WordLock maintains the highest standard of security for personal and commercial locks, without using any keys or arbitrary number combinations. Instead, WordLock uses your memory's natural preference for keywords and

the alphabet, allowing you to set and change your own combination from thousands of possible word and letter combinations.

Traditional locks require keys or they make you remember confusing sequences of numbers. Those days are over, thanks to WordLock's advances in lock technology.

Security, creativity and usability come together in the original family of WordLock padlocks, bike locks, travel locks and cable locks.
