## Quality tools since 1929

Yeoman & Company was founded by William F. Yeoman of Monticello, Iowa. The company's products were known as "YO-HO Tools" reflecting the Yeoman name and that of two local brothers named Hoag who had invested in the early business.

Area manufacturers were initially used to produce the steel rake heads and shovel blades, while assembly of the finished tools took place in the basement of the family home. By 1935 the company expanded to a building in Monticello and managed its own manufacturing.

Yeoman tools were designed and built to meet the needs of the agricultural and manufacturing industries of the upper Midwest. During World War II, Yeoman & Company was designated an essential industry and produced tools for Victory Gardens and snow tools to clear the decks of U.S. Navy aircraft carriers.

## Manufacturing and distribution centrally located in Iowa

Over the past 87 years, Yeoman & Company has grown to the largest family-owned manufacturer in the industry with a product line of more than 600 tools.

A centralized location in Monticello, Iowa allows Yeoman & Company to easily meet the needs of customers throughout the U.S. and into Canada. Most orders are received, processed, shipped and delivered to our customers within a week. This keeps our customers tooled up season after season, as well as during unpredictable winter weather and emergencies.

## Innovative tool designs and exclusive materials

Yeoman innovation begins with wanting to help our customers find the best way to get the job done. Unique designs such as our BustR™ shovels and exclusive materials such as our spring steel mean that Yeoman tools perform better and last longer.

Yeoman merchandising even makes sense. Our pruners and loppers can be displayed right in the garden center thanks to waterproof hang cards that don't fall apart in damp or humid conditions.

Yeoman & Company employees and suppliers are proud to be continuing the tradition established by William to deliver quality, innovative and price-competitive products with reliable, friendly service.

## Durability That Gets The Job Done

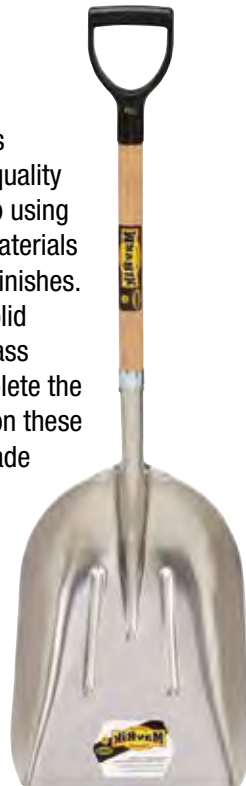

Yeoman & Company offers a wide variety of tools that help complete projects tackled by both homeowners and professionals. For more than 87 years, buyers have looked to Yeoman for innovative tool designs, quality craftsmanship, and unique merchandising solutions.

GLASSKOR® is an industry leader for dependable strength and durability. The structurally designed GLASSKOR® handle has a tough fiberglass inner core for maximum strength. A molded polymer exterior is non-conductive as well as moisture and chemical resistant. Comfortable grips help prevent slipping and twisting.

MavRik™ tools feature high-quality craftsmanship using heavy-duty materials with durable finishes. A choice of solid ash or fiberglass handles complete the construction on these contractor-grade tools.

American Choice™ tools provide homeowners a quality, long-lasting tool at an unbeatable price. Features include heavy-duty, high carbon steel blades; steel support collars for strong handle-to-head connections; and choice of quality fiberglass or hardwood handles.

### Strong, Sturdy Serious Snow Removal

Since 1929, YO-HO® has been a top brand for tools dedicated to winter snow and ice removal. Spring steel blades (based on our design from the 1930s) are the go-to tool for snow removal professionals. Other favorites include heavy-duty aluminum or poly blades with replaceable wear strips and brass-edge vehicle windshield scrapers.

The reasonably priced Garden Select™ line of occasional-use tools is perfect for gardeners and homeowners. High-quality carbon steel blades with sturdy 9" sockets and choice of hardwood or fiberglass handles.

Super strong BustR™ tools can do it all – shovel, push, scoop, scrape and pry! Great for winter snow and ice removal as well as contractor and industrial projects.

Innovative PolarTuff® tools are designed to efficiently remove snow from walks, driveways, parking lots and rooftops.

# Snow Shovels

YO-HO snow shovels on this page are **MADE IN THE U.S.A.**

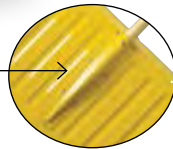

This top-selling spring-steel shovel is based on the YO-HO® shovel first sold in the late 1930s.

Ergonomically designed handles help **REDUCE BACK STRAIN.**

Aluminum snow shovels feature replaceable **HIGH CARBON STEEL** wear strips.

**SHOVEL HEELS** extend the length of the blade for maximum support.

# Display & Merchandising

**35000  
Rolling Display Rack**

Versatile display rack holds any combination of winter, ag, or lawn and garden tools.

Constructed of heavy-duty steel with locking casters.

Pack 1 KD / 43 lbs.

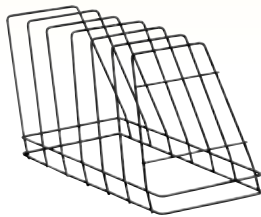

**35200  
Replacement Handle Rack**

Twelve compartments to organize a large assortment of handles.

27" W x 33" H x 17" D

Pack 1 KD / 19 lbs.

**30999  
Scoop Rack**

Holds any combination of six scoops; #10, #12, or #14 sizes.

11" W x 13" H x 27" D

Pack 1 / 6 lbs.

**35300  
Pruning Display Rack**

Two-sided, free-standing rack with casters.

Pegboard is 16" W x 36" H

Pack 1 KD / 22 lbs.

**90-001  
48" Striking Tool  
3-Tier Display Rack**

Free-standing rack. All steel construction.

48" W x 45" H x 21" D

Pack 1 KD / 35 lbs.

**06000  
Snow Tool Floor Stand**

Holds up to ten steel, aluminum, or poly shovels and pushers.

Makes a quick, refillable P.O.P display during snowstorms.

11" W x 5" H x 35" D

Pack 1 KD / 8 lbs.

# Replacement Parts

## Peg Board Hangers

Save space and display tools neatly with these hangers.

## For D-handle tools (top)

Pack 5 / 8 lbs.

**35606** YO-HO® label
