SERIOUS ABOUT SUSTAINABILITY

Our facilities use 95% post-industrial recycled plastic to mold products pets and their owners love, which translates into as much as 60 million pounds of plastic a year diverted from landfills.

In addition, we fill our bedding products with over two million pounds of recycled fiber and 40,000 pounds of recycled foam annually.

Inside this Replendish® is plastic grass, tape, rope and other post-industrial, pre-consumer plastic goods that get recycled into our products every day!
