### 4 drawer smoke tinted drawers Smooth move...

"I love this storage bin. The drawers move so smoothly, even with heavy stuff in them. I did not put the casters on the bottom, and happily, the bottom drawer opens without any trouble. And the darkened plastic cuts down on the chaos you usually see through clear plastic walls. Definitely recommend!"

#### Great Tote

"Just like all of Homz totes, this one is made well and is very sturdy. It closes very easily, and my 3 year old can open it without any issues. I like to keep her items, like crayons and coloring books in it. She's able to get her items out and in by herself, which is a huge help to me! I highly recommend this style of tote for anyone wanting to organize a playroom!"

**Love that it is eco-friendly**

"This tote great! It is sturdy, holds lots of stuff, and I love that it is eco-friendly."

**This really is heavy duty.**

"This tough tote really is sturdy. This will be perfect for storing heavier items that normally could not be stacked in totes. The lids are thick and strong and give a secure base to stack the next tote. I'm so happy I chose this tote to store my husband's hunting gear."

6610

**Made in the USA, Recycled, and Great Quality, what more could I want?**

"I chose the Eco Storage because it is made from recycled materials. Making responsible, eco-friendly choices is important to me. The product is very well made and I like that it has handles on all 4 sides for added convenience when carrying. Buying made in the USA makes me happy to be supporting America's working families. This tote is the perfect size to hold all of my canning supplies during the winter. I have it filled with extra jar seals, rings, tongs, and tools. I will definitely be buying more of these storage totes."

**What I needed!**

"I bought this right before Christmas, and I'm glad I did. Honestly my wrapping paper used to be in a couple different piles in my basement. The rolls ended up bent and sometimes ripped. I love how handy and easy to use this is. Now I know exactly where to look and that it will be in good shape."

**Large and Sturdy**

"This storage box is large enough to fit my fake Christmas tree. I read the dimensions on the post but sometimes it is hard to visualize - this tote didn't disappoint - it is nice and big! Durable enough to stack other boxes on in my basement as well."

6618

**Durable and convenient!**

"I've owned two of these totes for about 3 years now. The totes are stored in an attic in the off season, so they see a lot of heat in the summer and cold in the dead of winter. These totes have held up better than any other brand name totes I've used over the years. And, they sure do make it easy to know which totes have my Christmas decorations in them! I'm looking for the 32 gallon totes now to store my large decor."
