Coil Cleaner

Air Conditioning Coil & Fin Cleaner

Coil Cleaner removes the accumulation of soils, dirt, and oxidation film from coils and fins on air conditioning units, humidifiers, condensers, and heat exchange equipment. When coils and fins are clean, air circulates more fully and the systems operate and cool more efficiently. This improves the overall performance of the cooling system and will help lower electrical costs. Regular use with central air conditioning systems as well as with window or portable units will help keep them running at peak performance levels.

DIRECTIONS

Read the entire label and SDS for proper use, handling and storage before using this product.

1. Test surfaces for compatibility before use.
2. Disconnect electricity and turn off unit before applying solution.
3. Remove any housing covers to expose fins and coils.
4. Spray Coil Cleaner onto fins and coils, completely covering all surfaces.
5. Allow to remain on surface for 3-5 minutes.
6. Rinse surfaces with water.
7. Repeat if heavy buildups remain.

FAST FACTS

- Removes soils from fins and coils
- Improves efficiency of air conditioning units
- Reduces utility and electric bills
- Easy to use
- Pleasant scent
- Safer than traditional products

MARKETS

- Plumbing & Heating
- Hospitality & Lodging
- Industry & Manufacturing
- Food Service
- Healthcare

SPECIFICATIONS

Color	Blue
Scent	Cherry
pH	2.5 - 4.0
Viscosity	Water Thin

PACKAGING

NL294-Q12S*	12x1 Quarts/Case
NL294-G4	4x1 Gallons/Case
NL294-D55	55 Gallon Drum

* with sprayers attached
