

Speedrooter 92[®]

Job tested tough

Contractors know that the Speedrooter really can take a beating – from its frame braced at key stress points, to General's exclusive Flexicore[®] wire rope center cable that's so tough it carries a one year warranty.

The Speedrooter 92's field tested design offers easy handling. One person can easily load it onto a truck, as the machine slides smoothly from the loading wheel to the handle to the stair climbers and finally to the wheels. The adjustable height handle can be reset to be three inches longer or more compact, depending upon your preference.

With the driving and pulling power for long, tough jobs, General's Power Cable Feed easily handles 3/4" and 5/8" cables. To adjust to different cable sizes, simply turn

the knob on top of the feed. The screwdriver stays in the tool box.

The drum holds 100 feet of 3/4" or 5/8" Flexicore cable to clear 3" to 10" drain lines. The drum has a see-through inner cage, so you can quickly see how much cable is left in the drum.

Truck Loading Wheel

One person easily loads the Speedrooter 92 onto a truck. The swept-back handle and loading wheel give you the needed leverage.
