Adjustable Wrenches

The IDEAL Made in the U.S.A. Adjustable Wrenches use a forged-steel construction, which provides extra strength and hardness without sacrificing flexibility. It is one of the reasons our tools out-perform the competition in performance and durability.

- Extra wide jaw capacity
- Forged steel construction with narrow profile head reaches into tight spaces
- Permanent highly visible etched standard and metric markings for quick identification and adjustment
- Tight tolerance on thumbscrew will not loosen or wobble with use.
