GFCI Plug Protected Tri-Cords

Heavy duty molded T-head with three receptacles. The GFCI is an integral part of male plug. Provides protection for the extra heavy duty cord and three attached tools. 12 gauge cord is ideal for outdoor rugged construction type environments. Applications include:

- Construction Sites
- Saws and Drills
- ▶ Portable Electric Power Tools
 ▶ Multiple Tools Use

Standard length: 2', 6', 25', 50', 99'. To prevent unmonitored equipment startup, manual reset is required after GFCI trip and power outage. Provides compliance with National Electric Code (NEC 2008) Article 590.6 for "Temporary Installations."
