

ITEM# 410-48

## 48" Hi Vis Drywall T-Square

The Empire® Level 48-Inch Drywall T-Square is an ideal tool for measurement in the construction and building industries. This product is appropriate for use for both professionals and do-it-yourself enthusiasts. This device comes with an easy-to-read numerical display and graduations with large, bold characters. The white-on-blue coloring makes the markings very easy to read at a glance. The Empire Level 48-inch drywall T-square has a securely riveted head for easy cutting and marking. Product dimensions are 49.5 x 22 x .01 inches. The lightweight tool weighs only 1 pound and has a .01-inch heavy duty blade calibrated in inches. The light weight makes it simple to move the tool around drywall and the thin blade helps to create crisp, clean lines and cuts. This tool features a durable anodized aluminum finish in a highly visible blue color.
