

Folding Miter Saw Stand

The Milwaukee® 48-08-0551 is designed for increased portability and jobsite durability. With aluminum main beam construction, the Milwaukee Folding Miter Saw Stand weighs in at only 31 lbs. Steel legs and support extensions are designed from maximum strength and rigidity to support even the heaviest work pieces. An adjustable foot ensure a sturdy, level work area even in uneven locations. The 48-08-0551 is also compatible with the Milwaukee Miter Saw Stand Table Top (48-08-0552) allowing users to keep items like pencils, tapes, blue prints and other items close at hand as well as perform secondary applications like sanding, coping or routing near their saw. An optional carrying strap (48-08-0553) makes moving the stand on and off the site easy and allows you to transport other items at the same time, increasing productivity.
