Arrowhead fingers funnel
cable into base and hold
it securely

DCHS4
shown

Vertical and horizontal cable manager
system installed on a 2-post rack. Vertical
and horizontal cable managers work
together to make an orderly installation.

INDUSTRY STANDARDS
EIA 310-D

APPLICATION
This cable manager features heavy-duty endposts, arrowhead
fingers and tool-less mounting to easily route copper and fiber data
cables horizontally in standard 19-in. cabinets or on 2- or 4-post
open frame racks.

FEATURES
- Snap-in mounting provision holds cable manager in place while
  mounting screws are installed
- Robust arrowhead fingers are shaped to funnel cables into base
  and are made of black composite material
- Robust rounded end posts support cable as it enters and leaves
  cable manager and maintains proper cable bend radius
- Deep cable compartments allow maximum cable density
- Rounded edges throughout protect cable jackets from damage
- Pass-through holes on double-sided models protect cable while
  facilitating routing between front and back sides

- Single- and double-sided units provide high cable capacity,
  including fiber and copper category cables
- 1 RU and 2 RU heights allow greater flexibility in optimizing rack
  capacity
- Removable hinged cover opens top or bottom, snaps closed for
  assured cable protection and professional appearance
- Double-sided model has covers on both front and back
- Covers stay open during installation and maintenance procedures
- Horizontal and vertical cable managers designed as a system for
  streamlined appearance and improved functionality
- Combination head 10-32 and 12-24 screws included for mounting

SPECIFICATIONS
- Made of UL listed black composite material

FINISH
Low gloss, matches look of RAL 9005 textured paint

CABLETEK VERTICAL CABLE MANAGER

INDUSTRY STANDARDS
EIA 310-D

APPLICATION
Available in single- and double-sided models, this vertical cable manager mounts on the sides of or between 2- and 4-post open frame racks. The front side of the manager provides support, management and high capacity for patch cords, while the back supports Cat 5e, 6, 6A and fiber optic cables.
FEATURES
- Easily removable one-piece front cover with access from right or left as needed opens 180º to allow full access to cables
- Self-aligning bolt locations minimize lifting and speed installation
- Self-captivating fasteners; bolt doesn't turn while tightening nut
- Generous finger depth allows for maximum cable density and allows smooth transitions from vertical to horizontal positions
- Unobstructed cable access to rack equipment—no keep-out areas
- Rounded edges on composite material and grommets protect cable jackets from damage
- Robust arrowhead fingers are shaped to funnel cables into base and are made of black or white composite material
- Cable tiedown points provided on back
- Pass-through holes protect cable while facilitating routing between front and back
- Single central door latch allows quick and easy access to cables
- Double-sided cable manager with front and rear supporting fingers includes snap-on cover
- Double-sided cable manager with posts and gates support and contain cables. Three sets of posts and gates are included; additional sets are available as accessories
- Posts snap into prepunched holes in the back of the cable manager
- Gates snap onto posts, open from left or right as needed and swing 225º for cable access. Posts can be used alone as slack spools to control long patch cords.
- Horizontal and vertical cable managers designed as a system for streamlined appearance and improved functionality

SPECIFICATIONS
- Front door and cable channel made of multi-formed lightweight aluminum
- Hinge points and supporting fingers made of high-strength composite material

FINISH
Aluminum components are coated with RAL 9005 black or RAL 9003 white low-gloss lightly-textured polyester powder paint. Arrowhead fingers match look of aluminum components; other composite part have a low-gloss finish that matches look of RAL 9005 textured paint.

Arrowhead style finger ends
- Move apart easily for quick insertion and removal of cable
- Hold inserted cable securely

Deep cable compartments hold maximum cables

Composite fingers funnel cables into base, speeding installation

CABLETEK POST AND GATE KITS

Post and Gate Kits snap together quickly without tools. Each set consists of two posts and one gate. Posts snap into prepunched holes on the backs of CableTek Vertical Cable Managers (single-sided and double-sided with posts and gates) and are easily repositionable without tools. Gates swivel open 225° left or right to allow convenient cable access. When closed, posts and gates contain, support and secure large volumes of cables and cable bundles. Molded from black composite material with large radius, these posts and gates smoothly transition cables from vertical to horizontal positions. Order additional Post and Gate Kits to add to single- and double-sided cable managers.

Single posts can be used alone as slack spools on the front side of the cable manager.

WATERFALL TOP

For routing cable across the top of an open-frame rack. Provides horizontal-to-vertical transition bend radius for compliant installation of Category 5, 6, 6A and fiber optic cable. Makes a complete cable management system when used with vertical and horizontal cable managers. Mounts on 2- and 4-post open-frame racks. Material is steel with RAL 9005 black polyester powder paint finish.
