Local Order Number 596-00208

Type PVPSSNAP72

Color Red (RD)

Features and Benefits • Solar Circuit markers are a pre-printed, non-adhesive, coiled marker that can be opened and snapped over the cable or conduit for long term, permanent identification.

Product Description HellermannTyton pre-printed Solar Installation labels are designed to meet the requirements of the National Electrical Code (NEC) International Fire Code (IFC) as well as being acceptable to the Authority Having Jurisdiction (AHJ). Labels are made with durable UV stable materials and adhesives that are designed to stick to both baked enamel and powder coat surfaces. Where applicable, labels are made using reflective materials for first responder safety. Some pre-printed labels are printable using a thermal transfer printer when variable voltage or series data must be printed and displayed.

Short Description Pre-Printed Solar Marker, 7.2" X 5", Reflective, Non-Adhesive, Coiled, WARNING: PHOTOVOLTAIC POWER SOURCE, Red, 25/pkg
