

40925

1/2 BELLEVILLE WASHER

UPC: 085937409256

Country of Origin:

UNSPSC: 31161825

**USA**

Commodity: Belleville washer

*A disc spring, or "Belleville washer", consists primarily of a convex disc supported at the outer periphery by one force and an opposing force on the center of the disc. Disc springs are used singly, or in stacks, to achieve a desired load and travel.*
