

ODC0P-S0W

Color: White

UPC Code: 07847767010

Country Of Origin: China

Brand Features

Leviton's ODC0P-S0W Switching Photocell is a sensor for precisely monitoring either task or ambient light levels. As a part of Leviton's lighting system, the ODC0P-S0W works with other components to automatically set and adjust target light levels.

Item Description

Switching Photocell: 1x Setpoint, Delayed Off Time: 10 Min (MFG Range 1-1600FC), Title 24 Compliant, ASHRAE 90.1 Compliant

Technical Information

Electrical Specifications

Input Voltage: 12 - 24VDC

Environmental Specifications

Operating Temperature: 0°C to 55°C

Relative Humidity: 20% to 90% non-condensing

Product Features

Color: White

Foot Candle Level: 1-1,600 FC (10-16,000 LUX)

Standards and Certifications

Listing: NOM

Warranty

Warranty: 5 Year Limited

Features and Benefits

- Switched lighting at a desired Daylight Design Level offers greater energy savings and comfort while contributing to improved efficiency
- Provides for ultra-convenient, hands-free lighting control
- Lowers electric bills by reducing usage of lighting where ambient and/or artificial lights are also present
- Measures light from any source in the visible spectrum within a 60° cone at 8-12 feet mounting height
- Provides continual measurements and reports back to Switching Power Pack or Controller
- Mounts on ceiling - surface mount or low profile flush mount
- Auto-calibration for ease of configuration
- LED status indicators for ease of installation
