

## I. Product Description

**CRC Insect Repellent** uses a high DEET formula to repel mosquitoes, gnats, chiggers, fleas, ticks, biting flies and other flying insects up to twice as long as common consumer insect repellents. Additionally, **CRC Insect Repellent** protects outdoor workers by reducing the risk of contracting Lyme Disease from ticks when sprayed on exposed skin and clothing. DEET content is 25%.

## II. Applications

Recommended for any outdoor worker that is exposed to insects around electric and power utilities, telecommunications equipment and installation sites, bridge and tower maintenance, cable and wire installation sites, industrial plant grounds, warehouses, farm structures and buildings.

## III. Features & Benefits

- **High Strength Formula.** Protects up to twice as long as common consumer insect repellents.
- **Repels Insects and Pests.** Repels insects that can distract and annoy, as well as spread disease and infection.
- **Convenient Aerosol Package.** For easy and controlled application of product.
- **M.S.D.[L.]™ Material Safety Data Label** provides instant access to current safety information should an accident or OSHA inspection occur. Helps comply with **OSHA Hazard Communications Standard 29 CFR 1910.1200.**

## IV. Physical Properties without propellant

| <b>Prop 65</b>                             | Yes                                   |                                 |                |

## V. Specifications and Approvals

- EPA Reg. No. 1021-1600-55809.

## VI. Performance Characteristics

- Not applicable.

## VII. Directions

- For best results, spread evenly and completely over skin and clothes.
- Hold can 8-12 inches from skin or clothing while spraying, keeping nozzle pointed away from face.
- Do not use under clothing.
- Apply to hand for application to face and neck. Do not apply to eyes and mouth.
- Use just enough repellent to cover exposed skin and clothing.
- Repeat application as necessary.
- Avoid overapplication – frequent reapplication and saturation are unnecessary for the effectiveness of **CRC Insect Repellent**.

## VIII. Package Description

| Part Number | Container Size |
|-------------|----------------|
| 14011       | 8 oz Aerosol   |

## IX. Disposal

Disposal requirements vary by state and local jurisdiction. All used and unused product should be disposed of in conformance with local, state and federal regulations.

## X. Special Use Warnings

### Aerosol Cans

Do not puncture, incinerate or store above 120° F. Exposure to high temperatures may cause can to burst. Do not place in direct sunlight or near any heat source. Aerosol cans will conduct electricity. Keep away from all live electrical sources including battery terminals, solenoids, electrical panels and other electronic components. Failure to observe this warning may result in serious injury from flash fire and/or electrical shock.

### General

Do not apply over cuts, wounds, or irritated skin. Do not apply to the hands of young children. Do not use under clothing. After returning indoors, wash treated skin with soap and water. After using, wash treated clothing. Use of this product may cause skin reactions in rare cases. Avoid contact with eyes or lips. For more information, review the Material Safety Data Sheet for this product.
