

Specification Sheet

Mini Power Center

HPS PowerPlus™

- Phase** Single Phase
- Winding Material** Aluminum
- Rating** Ratings include: 5, 7.5, 10, 15, 25 kVA
- Voltage** 480 Primary, 120/240 Secondary
- Frequency** 60 Hertz
- Insulation System** 180° insulation class
- Core** All welded core construction made with high quality, high permeability silicon steel laminations
- Coil** Aluminum winding
- Termination** Front accessible wiring compartment with high and low voltage lead wires or copper tabs.
- Enclosure** Heavy Duty Ventilated Type 3R in ANSI 61 Grey painted finish with knock outs for indoor and outdoor applications. Encapsulated with electrical grade silica sand and resin compounds.
- Mounting** Standard: wall mounting.
- Warranty** 15 year on transformer, 1 year on mini power center

Approvals and Standards

UL listed (cULus marked and approved for both the US and Canada)

Features and Benefits

- Primary taps: 2 - 5% FCBN
- Shielded transformer
- Combines a pre-wired primary and secondary main breaker, secondary power panel and dry-type shielded transformer

Options

- Stainless Steel Enclosures
