Lockout/Tagout & OSHA Compliance

What is Lockout/Tagout?

In 1989, OSHA introduced Standard 29 CFR 1910.147 *The Control of Hazardous Energy* in order to establish lockout tagout compliance requirements for general industry. Lockout/Tagout is the process of controlling hazardous energy during the service and maintenance of machinery and equipment. These safety specific work procedures safeguard employees from accidental injuries or even death.

Why Lockout/Tagout?

The Control of Hazardous Energy (lockout/tagout) has been listed within OSHA's top 10 most frequently cited standards for several years. Non-compliance with this standard has resulted in thousands of worker related injuries and even deaths. Lockout/Tagout procedures are utilized to protect employees from the dangers of hazardous energy and ensure they go home safely every day.

For more information on Lockout/Tagout visit www.osha.gov

Master Lock offers the safety products and services you need to help you stay compliant

How to Implement a Lockout/Tagout System

The 1910.147 standard stated above establishes requirements for facilities to implement and employees to follow. In order to keep employees safe and to comply with the OSHA standard, facilities must:

+ Develop – create a lockout/tagout program specific to the machinery in your facility, including equipment that is not capable of being locked out

+ Implement – use lockout devices for equipment that can be locked out and tagout devices to identify who is performing maintenance

+ Train – teach employees the lockout/tagout procedures and be sure authorized employees can perform the procedure accurately

+ Enforce – monitor and maintain that the implemented procedures are being performed

+ Inspect – lockout/tagout procedures as well as employees should be audited at least annually

OSHA Requirements for Padlocks and Devices

The OSHA Lockout/Tagout standard outlines 5 requirements that all safety padlocks and devices must meet. Master Lock safety padlocks and devices were designed to meet all of these requirements.

Requirement	Description	Master Lock LOTO Products
Durable	Manufactured with materials that withstand usage environment	✔
Substantial	Cannot be removed unless considerable force is applied	✔
Standardized	Clearly differentiated from other devices by color, shape or size	✔
Identifiable	Indicates the authorized employee that applied the device	✔
Exclusive for Safety	Not to be used for purposes other than controlling energy	✔

"One Employee, One Lock, One Key"

It is important that each employee at a facility has a padlock key that is unique to them. Key charting is critical to prevent duplicate keys from entering the workplace and jeopardizing your lockout/tagout program.

Master Lock offers keying services and options to meet any safety system's requirements

LifeGuard™

A no-charge Safety Lockout Padlock Key Charting System – critical for Safety Lockout
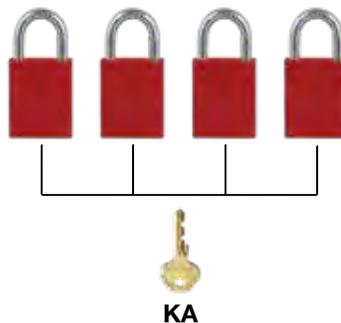

- Key charting is a record of all the safety padlock key codes assigned to a facility
- It is important that each authorized employee at a site has a unique padlock key that only opens that employee's safety padlock. This complies with the "one lock, one employee, one key" directive
- To help prevent duplicate keys from jeopardizing your lockout program, register your workplace with Master Lock. Once registered, Master Lock will send you an End User Identification Number for your site's Key Chart
- When you use that I.D. number on each additional padlock order, Master Lock will use a new key code for each padlock we manufacture for you. When used properly, this free service helps ensure that each employee carries a key unique to them, eliminating unwanted key duplication in a safety lockout program
- Locate the Master Lock End User Registration form and instructions at www.masterlock.com

Keying Options to fit your facility's needs
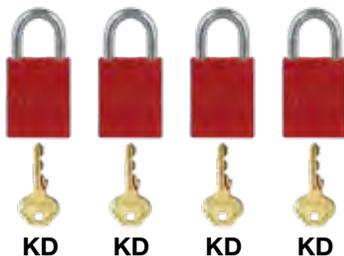

KD KD KD KD	KA	KD KD KD KD — MK
Keyed Different	**Keyed Alike**	**Master Keyed**
Each lock is opened by its own unique key which does not open any other lock in the set – complying with the "One lock, one employee, one key" mantra	All padlocks in the set are opened by the same key so only one key is necessary to open numerous padlocks – for employees who need many locks, they still only have one key	A master key opens all locks within the system while each lock also has its own unique key – allows for responsible removal of improperly placed or forgotten lockouts according to your emergency notification policy
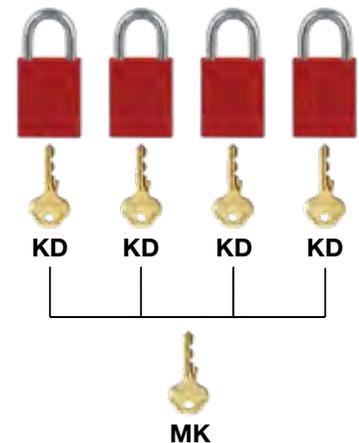

Zenex™ Thermoplastic Safety Padlocks

Optimal safety padlock designed exclusively for Lockout/Tagout by Safety Directors. Distinctive Zenex™ Thermoplastic safety padlock is durable, standardized, substantial and identifiable for OSHA 1910.147 compliance. Stands up to chemicals, temperature extremes, and is UV stable.

ZENEX™ THERMOPLASTIC SAFETY PADLOCK FEATURES

- ► Durable padlocks weigh only ounces (400 series 4 oz., S30 Series 3 oz.), making it easy to carry many
- ► Withstands extreme temperatures
- ► Excellent corrosion resistance
- ► UV stable
- ► No silicone used in padlock
- ► Over 40,000 unique safety key codes available. Over 1 million possible codes with optional key cylinders
- ► Keyed Different, Keyed Alike and Master Keyed options
- ► Key retaining – ensures padlock is not accidentally left unlocked. S33 non key-retaining for group lockout
- ► Available in up to 8 colors

- ► Includes one key to ensure compliance with "One Lock, One Employee, One Key" directive
- ► Includes write-on "Danger" and "Property Of" labels
- ► Body sides and face can be laser engraved for permanent identification
- ► Non-rekeyable ensures your safety lockout system stays pure by preventing haphazard rekeying and the accidental introduction of duplicate key codes
- ► Your facility's padlocks can be key charted to ensure no duplicate key numbers are supplied and accidentally handed out to multiple employees
- ► Virtually all components are made in the U.S.A.

Safety Padlock Keyed-Alike Sets

Popular quantities of safety padlocks are conveniently packed in sets, simplifying the order process.

Safety Padlock Keyed-Alike Sets
Safety Padlocks Built and Packed in Popular Keyed Alike Quantities

Workers often need to lock out more than one energy source on a single piece of equipment. Keyed alike safety padlocks can help serve this purpose.

To simplify and expedite ordering, Master Lock now offers our Zenex™ Thermoplastic, Aluminum and Steel safety padlocks in popular keyed alike quantities – sets of 3, 6, or 12 locks. These locks are ordered as "1" unit and are packed together making them easy to distribute.

"n" Denotes quantity of padlocks per keyed alike set. Choose quantity and color of set(s) at time of purchase.

Aluminum Safety Padlocks

Lightweight and durable aluminum body for Lockout/Tagout. Choose from powder coated or anodized finish. Stands up to chemicals, temperature extremes, and is UV stable.

ALUMINUM SAFETY PADLOCK FEATURES

▶ Durable padlock weighs 5 ounces, making it easy to carry

▶ Solid body construction stands up to physical abuse

▶ Durable aluminum body for superior corrosion resistance

▶ UV stable

▶ No silicone used in padlock

▶ 1/4in diameter boron steel shackle with plated finish for corrosion resistance

▶ Available Keyed Different, Keyed Alike and Master Keyed

▶ Available with 1in, 1-1/2in or 3in tall shackle

▶ Brass shackle option available for spark resistance

▶ Write on labels and Photo ID labels available

▶ Body sides and face can be laser engraved for permanent identification – 6 available spaces

▶ Virtually all components made in the U.S.A.

▶ Uses FDA approved lubricants safe for use in food processing

S-series Aluminum Safety Padlocks
Designed specifically for Safety lockout

▶ Featuring the W401/W417 Safety Exclusive keyway

▶ Key retaining

▶ Over 40,000 key changes to meet your system needs

▶ Complies with the "One Lock, One Key per Employee" mantra

▶ Durable aluminum construction for supreme corrosion resistance

▶ LifeGuard™ key charting free of charge

Steel Safety Padlocks

Strong and economical. Reinforced laminated steel construction stands up to extreme physical abuse.

STEEL SAFETY PADLOCK FEATURES

► Weighs approximately 7 ounces
► Can withstand extreme temperatures
► 9/32in diameter shackle
► Available with 3/4in, 1-1/2in or 2in tall shackle
► 6 bumper colors available
► Keyed Different, Keyed Alike and Master Keyed options
► Over 1400 unique key codes available
► Includes 2 keys

► Key code stamped in key and on bottom of padlock
► Wrap around, write on labels available for identification
► Your facility's padlocks can be key charted to ensure no duplicate key numbers are supplied and accidentally handed out to multiple employees
► Virtually all components made in the U.S.A.
► Uses FDA approved lubricants safe for use in food processing

400COVERS

Padlock Accessories

Safety lockout accessories for OSHA compliance.

Extreme Environment Safety Padlock Covers

► Seals shackle and keyway to help keep out dust and grime from extreme environments
► Dual strap increases durability and minimizes the obstruction of labels
► Removable attached keyway cap allows for easier access to keyway (not included on S30COVERS)
► Available for American Lock S1100 Series and Master Lock S6835, 410, 411 and S30 Series safety padlock families

Master Lock Model #	Description
S101	For American Lock S1100 and A1100 series and Master Lock S6835 and 6835 series padlocks; bag of 12 covers
400COVERS	For Master Lock 410 and 406 series padlocks; bag of 12 covers
411COVERS	For Master Lock 411 series padlocks; bag of 12 covers
S30COVERS	For Master Lock S31, S32 & S33 series padlocks; bag of 72 covers

Barcode Labels
Ideal for Use with Barcode Scanning Software

► With electronic identification labels, equipment can be identified instantly and error free
► S153 barcode label features 1-D barcode graphic
► Durable polyester construction resists extreme environments

S153

Master Lock Model #	Description
S153	1-D Barcode labels – for use on metal or plastic surfaces. Use with barcode reader, smartphone or tablet. 100 Labels/Bag

Padlock Chains, Collars & Tags

▶ Chains keep padlocks close to equipment requiring safety lockout
▶ Engravable brass tag provides for individual worker identification
▶ Tags attach to safety lockout padlocks with 71SC8 and 71SC9 collars

71TAG

71CS

71SC8

Master Lock Model #	Description
71CS	9in long lightweight zinc plated steel chain with chain holder attached; fits all master shackle collars (ordered separately) (12 pk.)
71CH	9in long heavy-duty zinc plated steel chain with chain holder attached; fits all master shackle collars
71SC8	Shackle collar. Fits 1/4in diameter shackles and smaller; for 410, 411, S1100/A1100, S6835/6835 padlocks
71SC9	Shackle collar. Fits 9/32in diameter shackles; for 3 laminated steel padlocks
71TAG	1/2in x 1-3/4in brass tag with ring for attaching to shackle collars listed above
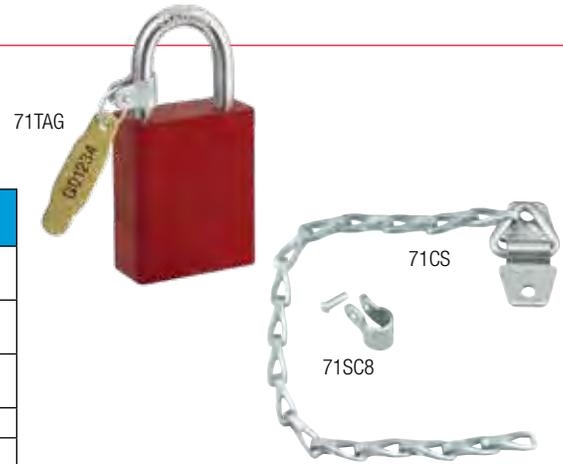

Safety Padlock Caddy

▶ Keep safety padlocks near appropriate machinery
▶ Hold up to 12 padlocks based on number of lockout points
▶ When locking out, conveniently carry caddy to all lockout points
▶ When all padlocks are gone, all lockout points have been met

S125 Safety Padlock Caddy

Master Lock Model #	Description
S125	Safety Padlock Caddy – Carry up to 12 padlocks from lockout job to job

Model 427 – Labeled Snap-On Hasp

▶ Combines multiple-person lockout and tagout identification

▶ Features an easy-to-apply "snap-on" advantage with its spring-loaded locking arm

▶ Fits more lockout points than alternative rivet-hinge labeled lockout hasps

▶ Anodized aluminum and stainless steel construction for combined corrosion-resistance and strength

▶ Complete with high visibility, re-usable, write-on safety labels (English, French & Spanish)

Electrical Lockouts

Master Lock offers innovative, patented and patent pending devices for the effective lockout of electrical shut-off points, including circuit breakers, and electrical plugs.

Grip Tight™ Circuit Breaker Lockout
Increased Hold Strength Combined with Universal Fit

▶ Secure and simple mounting for a solid lockout. Holds tight with simple thumb turn and clamping handle

▶ Exclusive design accommodates virtually all styles of breaker toggles

  • Model 491B fits tall and wide breaker toggles

  • Model 493B fits standard height and tie-bar toggles

▶ Narrow profile permits side by side breaker lockout

▶ Compact devices are easy to carry and easy to store

▶ Both devices accept all American Lock and Master Lock safety padlock shackle and lockout hasp diameters

▶ Durable construction with powder coated steel and reinforced polymer allows operation in harsh environments

▶ Patented

Master Lock Model #	Description
491B	Circuit Breaker Lockout – tall and wide toggles
493B	Circuit Breaker Lockout – standard single and double toggles
506	Set of each device – one 491B and one 493B

491B

493B

Miniature Circuit Breaker Lockouts
Locks Out Most Miniature ISO/DIN Circuit Breakers Found Throughout the World

▶ S2390 fits standard width toggle openings. Pin out. Black Handle

▶ S2391 fits wide toggle openings. Pin out. Red Handle

▶ S2394 features thumb-turn dial screw for easy attachment – no tools needed!

▶ Works with all Master Lock and American Lock safety padlocks and most lockout hasps

▶ S2390, S2391, S2392 Patented devices

▶ S2394 Patent pending

Master Lock Model #	Description
S2390	Fits pin-out breakers 11mm or less
S2391	Fits pin-out breakers 11mm to 13mm
S2392	Fits breakers with pin-in toggles
S2393	Fits universal breaker toggles
S2394	Fits universal breaker toggles, tool-free

Circuit Breaker Switch Padlock
Provides the Flexibility to Effectively Lock Out Breaker Switches

▶ 3/16in diameter cable shackle allows padlock to properly lock all types of circuit breaker lockout devices

▶ Flexible cable allows the compact lock body to be positioned so that the control panel door closes properly

▶ Fits the tight space constraints within circuit breaker shut-off boxes

▶ Numerous key changes are available to minimize the possibility of unwanted key duplication

Allows Panel Door to Close

7C5RED

Master Lock Model #	Description
7C5RED	1-1/8in wide steel body; 4-pin cylinder; 5in flexible steel cable. Keyed Different

Rotating Electrical Plug Lockouts
Outward/Inward Rotation Allows for Easier Application & Storage

▶ Surrounds the electrical plug; protects against accidental reconnection

▶ Unique, patented rotating design allows for easier installation in confined space applications

▶ Complete with high-visibility permanent safety labels (English, French & Spanish). Labels can be written-on to identify the responsible person, then erased for the next job

▶ Tough, lightweight, dielectric Zenex™ Thermoplastic bodies withstand chemicals; perform effectively in extreme conditions

488

Master Lock Model #	For Electrical Plug Sizes Up To:
487	2-1/4in dia. x 3-1/4in with cord dia. up to 3/4in (110-120 and 220-240 volt plugs)
488	3in dia. x 6in with cord dia. up to 3/4in (Most 240 and 550 volt plugs)

Compact Plug Prong Lockout
Compact Design Locks Out Smaller Plugs Easily & Effectively

▶ Locks on the prongs of 110-120 volt plugs

▶ Fits two prong plugs with and without ground

▶ Use with your existing lockout padlocks or lockout hasps

▶ Includes labels in English, Spanish, and French

▶ Patented

S2005

Master Lock Model #	Description
S2005	Fits 110-120-volt plugs (with or without ground)

S2153

Electrical Covers

Versatile, durable designs address need for temporarily prohibiting access to a switch or control or to avoid nuisance changing of rotary switch settings.

Removable and Permanent Push Button and Rotary Switch Covers

Temporarily prohibit access or avoid the nuisance of changing rotary switch settings with these durable, versatile, push button & switch covers. Available in both removable and installed versions, covers feature a clear base and cover to allow visibility of nameplates, labels or rotary switch knobs.

► Fits both 30.5mm and 22.5mm diameter switches

S2151 Removable Push Button and Rotary Switch Cover

► Accommodates buttons up to 2in (50mm) diameter and 1-3/4in (45mm) tall
► Includes one cover, one install base and one retrofit base with double-faced adhesive tape
► S2152AST pack of 12 install bases allows one S2151 to service multiple switches on same panel

S2153 Permanent/Installed Push Button and Rotary Switch Cover

► Captured by the rotary or pushbutton switch bezel
► Accommodates buttons up to 1-9/16in (40mm) diameter and 1-3/4in (45mm) tall

S2152AST Install Bases

► Use with S2151
► Pack of 12 install bases
► Allows one S2151 removable cover to service multiple switches on same panel

S2154AST Retrofit Install Bases

► Use with S2151
► Pack of 12 horse-shoe shaped retrofit bases with double-faced adhesive tape
► Allows for use with raised nameplates and off-center installation to accommodate rotary switch knobs

Master Lock Model #	Description
S2151	Removable Button and Switch Cover
S2153	Installed Button and Switch Cover
S2152AST	Install Bases for S2151 Removable Cover (12 pk.)
S2154AST	Retrofit Install Bases for S2151 Removable Cover (12 pk.)

Valve Lockouts

The exclusive, patented Master Lock gate and ball valve lockout devices work in difficult applications like tight spaces and insulated pipes.

Butterfly Valve Lockout Devices
Locks out virtually all butterfly valves

▶ Easy-to-use, adjustable design fits virtually all butterfly valves

▶ Locks out valve in seconds by feeding S806 cable lockout device through desired eyelet and around valve neck

▶ Stainless steel rivet allows device to smoothly pivot open and closed to ensure proper fit

▶ Durable, lightweight Zenex™ Thermoplastic material is chemical resistant and performs effectively in extreme environments

▶ Directional application arrows allow for ease of installation and minimize user error

Master Lock Model #	Description
S3920	Butterfly Valve Lockout Device only
S3921	Butterfly Valve Lockout Device + S806CBL3 Adjustable cable lockout

S3920 device acts as a wedge between the two handles; locked out with S806 adjustable cable & padlock.

Rotating Gate Valve Lockouts
Outward/Inward Rotation Allows for Easier Installation & Storage

▶ Surrounds the valve operating handle to protect against accidental valve opening

▶ Multiple workers can apply their lockout hasps or personal safety locks

▶ Tough, lightweight, dielectric Zenex™ Thermoplastic bodies withstand chemicals; perform effectively in extreme conditions

▶ Unique, patented rotating design allows for easier installation in confined space applications

▶ Complete with high-visibility permanent safety labels (English, French & Spanish) that can be written-on to identify the responsible person, then erased for the next job

▶ Center knockout can be removed for rising stem gate valves

▶ Each size rotates into itself and nests within the next larger size to save space in storage

Master Lock Model #	Description	Depth	Stem Opening
480	1in to 3in dia. valve handles	1-1/16in	3/4in
481	2in to 5in dia. valve handles	1-1/2in	1-1/2in
482	4in to 6.5in dia. valve handles	1-7/8in	2-1/2in
483	6in to 10in dia. valve handles	2-3/4in	3-1/2in
484	8in to 13in dia. valve handles	3-3/8in	4in

484

Pressurized Gas Valve Lockout

Fits Pressurized Gas Valves

► Patented design works with valve guard in place
► Fits virtually all pressurized gas valve handles up to 3in diameter
► Compact size easily stored when not being used
► Accepts any Master Lock or American Lock Safety Padlock
► Works with lockout hasps for multiple worker lockout

Master Lock Model #	Description	Depth	Stem Opening
S3910	Pressurized Gas Valve Lockout	1in	1-5/8in

Ball Valve Lockout Devices

Effective Lockout for Virtually Any Ball Valve

► Easy to use – simple, intuitive designs
► Broad application

  • Devices could lock up ball valves up to 4in

  • Fit virtually all types of pipe including insulated, PVC and metal

► Lightweight and compact – devices are easy to carry, store and apply even in tight, awkward spaces

S3068 Seal Tight™ Handle-On Lockout

Metal device clamps tight on handle stop. Defies corrosive environments and extreme temperatures.

468L Seal Tight™ Handle-Off Lockout

Device encloses the valve stem, with the handle removed, to make accidental reactivation virtually impossible. Operates in extreme temperatures.

S3081 Adjustable Lockout

Works with S806 cable lockout device for the most secure fit.

Master Lock Model #	Description	For Valve Diameters of:
S3068	Seal Tight™ Handle-On Ball Valve Lockout 5-3/4in L x 2-1/8in W x 2-1/2in H	1/4in to 4in
468L	Seal Tight™ Handle-Off Lockout, 11-1/2in H x 12-3/4in W x 2-1/2in D	3/8in to 4in
S3081	Adjustable Ball Valve Lockout	1/2in to 2in

S3476/S3477 1/4 Turn Ball Valve Lockout

Fits manual, quarter turn ball valve handles to protect against accidental opening. Easy to use one piece design locks valve in OFF position. Two rows of lock out points allow for a secure fit.

Master Lock Model #	Description
S3476	Fits valves between 1/4in (6.35mm) to 1in (25mm) diameter
S3477	Fits valves between 1-1/4in (31mm) to 3in (76mm)

S856

Cable Lockouts

Innovative patented cable lockout devices offer efficient multipoint safety lockout compliance for a variety of safety applications.

Retractable Cable Lockouts
Adjustable cable lockout devices with Cable Management System for a variety of applications

▶ Cable take-up reel encloses the cable to provide protected storage and easy application by managing excess cable length during lockout

▶ Internal ratcheting mechanism ensures a secure lockout by only allowing the cable tension to increase, even after locks have been applied

▶ Patented 1/8in (3.3mm) diameter x 9ft (2.74m) cable features a colored plastic coating for added durability and visibility

▶ Tough, lightweight thermoplastic body withstands chemicals

▶ Ergonomic design eases operation when wearing gloves

▶ Contoured shape enables easy stacking, storage, and transportation of multiple devices

▶ Suitable for group or challenging, multi-point lockout

▶ Includes high-visibility, write-on safety labels in English, Spanish and French for easy identification (additional languages available)

▶ Replacement cable kits available separately with Steel or Nylon Core Cable; can use either cable type in same device

Adjustable Cable Lockouts
Infinitely Adjustable for a Secure Fit Every Time

▶ Integrated safety hasp and cable are ideal for multi-point lockout

▶ Feed the cable end through the points to be locked out, then back through the lockout body. Cinch it tight to remove any slack with the patented locking feature

▶ Tough, flexible multi-stranded steel cable is insulated with a clear plastic coating

▶ Tough, lightweight Zenex™ Thermoplastic body withstands chemicals; performs effectively in extreme conditions (temperature range of -40° F to 200° F)

▶ Master Lock S806 includes a 6' cable. Cable available in 1ft increments from 2ft to 50ft

▶ Complete with high-visibility write-on safety labels (English, French & Spanish)

Master Lock Model #	Description
3/16in (4mm) Diameter Cable	
S806	6' Adjustable cable lockout
S806CBL3	3' Adjustable cable lockout
S806CBL15	15' Adjustable cable lockout
S806CBL*n*	Adjustable cable lockout with user-specified cable length of 2' to 50'

S600

Group Lock Boxes

Made to withstand the toughest environments. Rugged construction offers enhanced design features, making these lock boxes stronger and easier to use.

Group Lock Boxes with Key Window
Heavy-Duty Group Lock Boxes with Key Window that Offer Visual Verification of Secured Keys During Group Lockout

- ► Constructed out of 430-grade stainless steel to withstand the toughest environments
- ► Each lock box includes a removable cup that creates a clear, impact-resistant window on the front, allowing participants to see keys are secured inside the box during a group lockout
- ► All models include 19 total lockout holes, including one on the front latch for the operations lock
- ► Models S600 and S601 feature a side window, offering visibility to unused locks
- ► The stackable design facilitates storage and simplifies transporting multiple boxes
- ► Replacement removable key cups are available

Group Lockout Customization Services Available

- ► Master Lock builds group lockout kits containing lock boxes and padlocks configured to customer specifications
- ► Group lockout kits increase the efficiency of deploying products on site
- ► Contact your Master Lock safety sales representative for more information about our customization and kitting capabilities

Latch Tight™ Group Lock Boxes
Storage Devices Capture Keys for Effective Lockout of Large Equipment

- ► Secure each lockout point on a piece of equipment with a single padlock. Place the keys in the group lock box and then each authorized employee places their personal padlock on the lock box
- ► When work is complete, employees take their personal padlocks off the lock box, freeing the keys inside. Keys inside cannot be accessed until the last employee removes their padlock
- ► Feature an exclusive, patented Latch Tight™ locking mechanism that prevents keys from being accessed until the last padlock or lockout hasp is removed from the box. Provides the highest level of security available in a group lock box
- ► Lockout message on box is in three languages – English, Spanish and French
- ► Cold-rolled steel with durable powder-coated finish and stainless steel handle

498A
- ► Portable solution
- ► Available in Red
- ► Accepts 12 padlocks or lockout hasps
- ► Secures multiple keys

503RED/503YLW
- ► Can be mounted to wall or carried from job to job
- ► Accepts 14 padlocks or lockout hasps
- ► Secures multiple keys
- ► Includes organized storage for 12 keys in back of box

Permit Control Station

Place group lockout where you need it to effectively communicate the status and details of permit-to-work jobs.

Modular Permit Control Station
A single location to display and protect paperwork and padlocks for group lockout

► 430-grade stainless steel with heavy-duty powder coating withstands outdoor elements and provides corrosion resistance
► Wall mounted for accessibility or use on-the-go for convenience
► Clear, impact-resistant windows for viewing permit and key(s) during lockout
► Rubber seal on permit display case protects documents from water damage in outdoor applications or during cleaning
► Group lock box has 12 numbered lock holes for personal safety locks, plus a latch hole designated for the control lock
► Includes removable lock caddy for easy transportation of equipment locks to isolation points during lockout

Blind Flange & Pneumatic Lockouts

Best-in-class lockout solution for pipeline maintenance and innovative ways to lock out virtually any pneumatic fitting.

Blind Flange Lockout
Device provides a physical barrier preventing unwanted blind removal during pipeline maintenance

▶ Ideal solution for protecting workers from hazards during pipeline maintenance

▶ Device fully conceals flange bolts preventing access to the blind until all work has been completed

▶ Easy-to-use, adjustable device provides a tight fit, adapting to multiple flanged pipe applications

▶ Three models designed to cover and lock out flange nuts ranging from 3/4in (19mm) to 2-3/4in (69.9mm) diameter and flange widths ranging from 1-1/2in (38.1mm) to 17-7/8in (447.8mm)

▶ Durable powder coated aluminum and hardened steel slide bar withstand conditions indoors and out

▶ Trilingual, write-on "Danger" labels provided for additional safety ID

Size Chart

| Master Lock Model #	Pipe Diameter Range	Nut Diameter	Flange Width Range
S3922	1/2in – 3in (12.7mm – 76.2mm)	3/4in – 1-1/8in (19mm – 28.7mm)	1-1/2in – 5-5/8in (38.1mm – 143.3mm)
S3923	3-1/2in – 12in (88.9mm – 304.8mm)	1in – 1-7/8in (33.3mm – 47.8mm)	3-3/4in – 10-3/4in (95.3mm – 274.6mm)
S3924	14in – 24in (355.6mm – 609.6mm)	2in – 2-3/4in (52.3mm – 69.9mm)	7-3/4in – 17-7/8in (196.9mm – 447.8mm)

S3923
Blind Flange Lockout, Medium

S3924
Blind Flange Lockout, Large

Pneumatic Lockout
Prevents Pneumatic Fitting From Being Connected to Pressurized Air Source

▶ Fits virtually all male pneumatic fittings

▶ Stainless steel construction for corrosion resistance

▶ Measures 1-3/8in wide x 7-3/4in tall x 1/8in thick

▶ Accepts any Master Lock or American Lock Safety Padlock with shackle diameter up to 9/32in

▶ Works with lockout hasps for multiple worker lockout

▶ Accommodates 1/4in, 5/16in, 3/8in, 7/16in, 1/2in, 9/16in, 5/8in, 13/16in connections

Confined Space Covers & Steering Wheel Covers

Covers for preventing access to confined spaces and prohibiting use of steering wheels.

Confined Space Covers
Best practice OSHA compliant solution to confined space entry protection

S201CS

▶ Features "Danger" signage and barrier protection to meet and exceed OSHA regulations for confined space

▶ Designed to protect employees from the dangers associated with confined spaces

▶ Elastic design is easy to use and applies in seconds

▶ Ventilated to prevent entry and allow airflow

▶ Wards against pests entering the confined space

▶ Reusable covers made from durable fabric to stand up to extreme environments

1 Model Available

Master Lock Model #	Description
S201CS	Elastic, ventilated cover; non-lockable

When Do I Use Covers?

▶ Once a **confined space entryway has been opened**, covers provide required signage needed to alert workers of confined space danger

▶ During **break periods of active maintenance**, ventilated covers provide excellent signage and encourage air flow

4 Sizes Available

HOW TO DETERMINE SIZE NEEDED			
MAN-WAY DIAMETER	**Man-Way Diameter**	**Size**	**Suffix**
	20in – 23in	Small	S
	23in – 28in	Medium	M
	28in – 32in	Large	L
	32in – 39in	X-Large	XL
	Size also depends on flange size Add size suffix to model number to order, Ex. S201CSXL for X-Large		

Steering Wheel Covers
Provides Visual Deterrent During Vehicle Maintenance

▶ Three sizes available for various diameter steering wheels – 16in, 20in, 24in

▶ Trilingual warning notifies employees not to start or move vehicle

▶ Lock in place with a 421 hasp and safety padlock

▶ For added security, use Master S806 cable lockout around steering wheel and foot pedals

| Master Lock Model #	Description

► Customers, please contact your preferred Master Lock Distributor to specify the contents of your kits. Distributors, contact Master Lock Safety Specialists at 800-944-1380 to process the order

► Minimums apply. Laser Engraving and Guardian Extreme™ products excluded

---

Custom Lockout Kits & Stations

Select your own unique assortment of safety padlocks, lockout devices, tags, and the kit or station that meets your needs.

497A

Safety Tags

Identification tags are key components to any safety lockout program. Master Lock offers write-on tags in English, Spanish and French to accommodate employee needs.

"DO NOT OPERATE" Safety Tags
Laminated Tags Comply with OSHA Lockout/Tagout Standard

► Durable polyester laminate resists water, grease and extreme temperatures

► Heavy duty construction withstands over 50 lbs. of pull force (meets OSHA requirement); prevents accidental removal

► Write-on name, department, expected completion

► 7/16in dia. brass grommet accepts all safety padlocks

► Single language and bilingual tag options

► Tags available in other languages; call for details

Guardian Extreme™ Safety Tags

Make sure your safety message is clearly visible for years and years with Guardian Extreme™ tags.

Guardian Extreme™ Safety Tags

Our process permanently fuses the safety message into rugged, industrial grade polypropylene, creating the longest lasting tags available. These graphics remain vibrant and clear for years – even when exposed to high humidity, UV radiation, harsh chemicals, frequent wash downs, extreme high and low temperatures and more.

Metal detectable versions available for use in food processing and pharmaceutical facilities.

Environmentally Friendly is Business Friendly

Guardian Extreme™ lifetime tags and signs withstand tough environments and abuse eliminating the cost of replacement.

Rewrite-Reuse
Modify the message as often as needed

Guardian Extreme™ signs and tags provide the ultimate flexibility. You add the exact safety message for the job with permanent marker, erase it when the work is complete and repurpose it for the next job.

Wipe off current message with Isopropyl Alcohol

Cleaned tag ready for next message - write new message with permanent marker

A brand new message is ready for the next project

Reduce

Durable
▶ Guardian Extreme™ tags hang tough to exceed OSHA requirement that tags meet 50 lbs pull strength
▶ Guardian Extreme™ tags withstand **over 90 lbs pull force**
▶ Other paper or plastic tags, with grommets or without – only reach 10 – 50 lbs pull strength

More tags in less space
▶ Guardian Extreme™ tags stack flat in kits and stations, remaining neat and organized when stored

Corrosion free
▶ Guardian Extreme™ tags have no grommet to corrode

All of the carded safety padlocks, devices and tags listed are available for purchase separately to replenish or expand your planogram and enhance your showroom. Carded commercial security products and commercial security planograms are also available.

Professional Lockout Services

Expert guidance and industry-leading experience to help facilities meet safety goals.

Professional Lockout Services

Master Lock Professional Lockout Services can take a holistic approach to build a customized, best-in-class lockout management system or focus on the select elements that will make significant improvements in a facility's safety program

Assessment

Our safety experts conduct in-depth, on-site assessments to evaluate the current state of a lockout tagout program and identify methods of improvement. The recommendations from the assessment can be used to design a best-in-class lockout/tagout program that achieves heightened safety, practicality and efficiency for personnel. Some of the on-site assessments include:

- Alternative Methods to Lockout — Keep workers safe, when full lockout is not practical
- Confined Space Hazards — Pre-plan for confined space entries
- Machine Guarding — Establish frontline protection to keep employees safe
- Rapid Access to Lockout Equipment — Minimize wasted time by maximizing access to lockout equipment

Lockout Management System

Written Program

A team of safety consultants will develop a company-wide written lockout program that takes an efficient approach to meet and exceed compliance requirements.

Written Procedures

Our technicians complete an in-depth analysis of equipment and energy sources to create detailed lockout isolation procedures.

Tiered Training

We empower organizations to create a safer work environment. Achieving a compliant lockout management system requires ongoing training. Our safety certified staff will come on-site and lead all or any of the hands-on courses requested. We offer the following training courses:

- Authorized Personnel
- Affected Personnel
- Lockout Procedure Creation
- Lockout Practitioner Certification
- Lockout Leadership
- Alternative Methods to Lockout
- Confined Space Hazards
- Rapid Access to Lockout Equipment

Proper Equipment

Our safety experts can provide recommendations on the necessary safety padlocks, lockout devices, and identification tags for a best-in-class lockout management system.

Access

Experience has shown it should take less than 15 seconds to access lockout equipment. Keeping the necessary equipment close and easily accessible by authorized personnel saves time, eliminates excuses, and helps prevent damages and injuries. We provide the assessment and training to improve access to lockout equipment within a facility.

Audits

Our safety experts offer on-site review of lockout procedures and programs to help ensure compliance requirements are met. We deliver a summary report which includes best-practice recommendations and corrective actions.

Estimates for services will be provided once the scope of work has been identified.
For more information about Master Lock Professional Lockout Services, speak with a Master Lock Sales Representative or visit www.masterlock.com/PLOS.

Lockout Procedure Writing Software

Machine-specific procedures are a requirement of a compliant lockout management system. Master Lock eLOTO provides a best-practice solution to create visual lockout procedures and conduct audits.
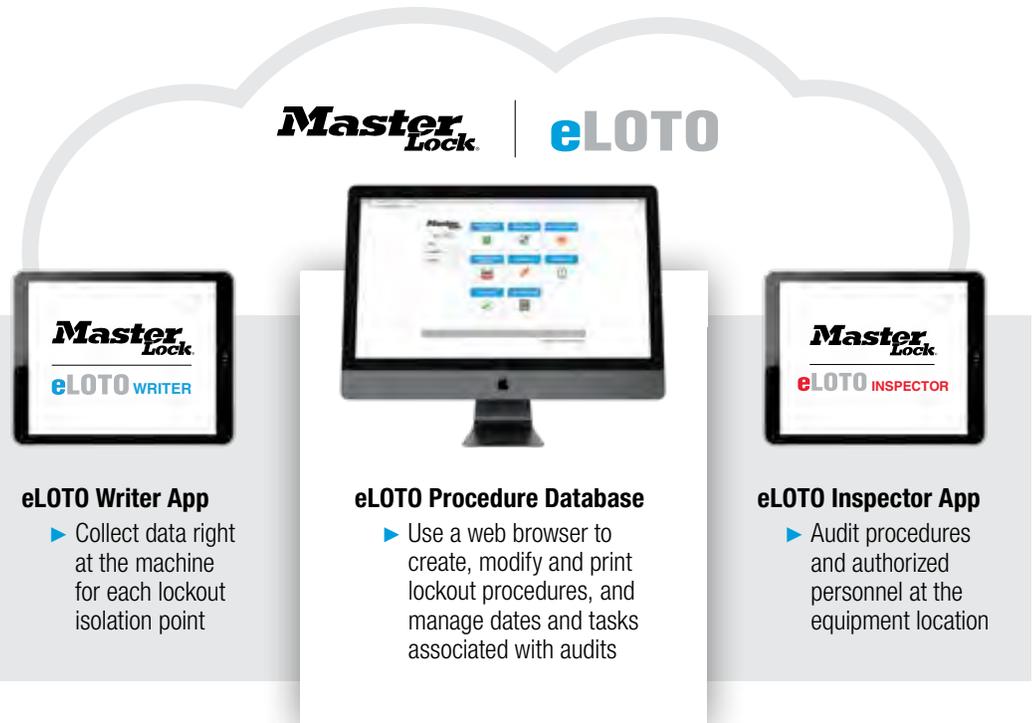

Master Lock eLOTO
Lockout Procedure Writing Software
Empower employees with the tools needed to make work environments safer

Master Lock eLOTO is an easy-to-use, cloud-based software solution for writing and managing visual lockout procedures. Master Lock eLOTO is comprised of a web interface and two mobile applications:

eLOTO Writer App
► Collect data right at the machine for each lockout isolation point

eLOTO Procedure Database
► Use a web browser to create, modify and print lockout procedures, and manage dates and tasks associated with audits

eLOTO Inspector App
► Audit procedures and authorized personnel at the equipment location

The eLOTO procedure database and the Writer and Inspector mobile applications work together to help ensure lockout procedures are accurate and up-to-date. Printed procedures meet the best-practice format demonstrated in ANSI Z244.1-2016.
