

Ultra Mat Max™ is a heavier-duty version of the Ultra Mat® made from a resilient rubber compound for greater resistance to greases and oils. Like Ultra Mat® it has molded-in mat connectors that allow for easy on-site custom configurations. An anti-slip surface texture increases traction in wet or greasy areas, and a multi-nib backing enhances the ergonomic support of the mat. A large hole drainage system facilitates the removal of liquid and debris from the work area. Ultra Mat Max™ has an available beveled ramp system to reduce trip hazards and allow for easy access onto and off of the mat.

Application Requirements

Flexible configurations, exposure to grease and oils, good drainage, anti-fatigue, anti-slip properties

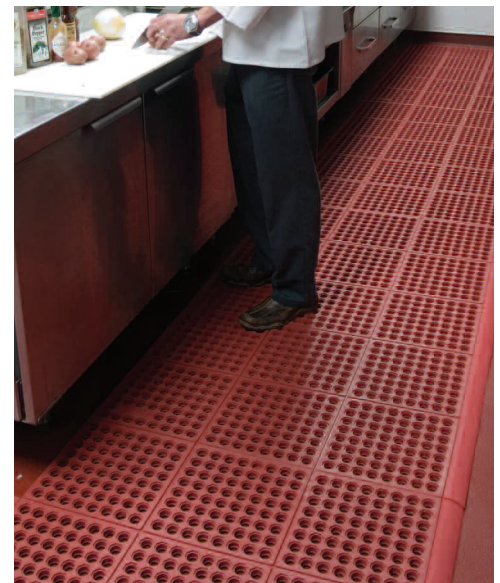

- Available in general purpose (black) and heavy-duty (red) rubber compounds for varying degrees of grease and oil protection
- Unique support design offers exceptional fatigue relief
- Drainage system removes liquid and debris from worker platform
- Modular design with molded-in connecting system for longer lengths and custom configurations
- Optional beveled ramps available to reduce trip hazards
- Overall thickness: 3/4"
- Stock Sizes: 3' x 3', 3' x 5'
