Accessories for Affinium LED display modules

Mounting profile 1500mm

To facilitate installation of the Affinium LED display modules, we have designed different mounting profiles. These provide equipment manufacturers with tailor-made solutions to meet the specific requirements of all cabinets. The glare-free versions prevent annoying glare to ensure a pleasant shopping experience for customers. Furthermore, a separate connector (LS SB) and a connector tool are available for safe and easy connection of the wiring inside the refrigerator.
