RM10 N95 Particulate Respirators

Part Description

RM10 N95 particulate respirator

- Fit One size fits all.
- **N95** 95% efficient respiratory protection in non-oil areas.
- Proper design Large coverage providing a comfortable fit for the user.
- Elastic straps Ultrasonically welded straps eliminate the need for staples which can irritate the skin.
- Smooth layers Soft, smooth outer and inner layer is comfortable on the skin, unlike other makes which can be uncomfortably rough.
- Adjustable nosepiece Outer aluminum nosepiece holds shape and provides a proper fit during use.
- Durable shell Thick materials prevent collapsing and provide extended use.
- Material Maintenance-free construction and material offers low breathing resistance.

 Foam Strip – Inner foam strip reduces the potential for eyewear fogging.

Standard:

This product has been tested and meets the NIOSH standard of N95. The main performance tests in this standard are: filter penetration & breathing resistance.

Markings:

RM10 TC-84A-5411 NIOSH N95

Packaging:

Box: 20 pcs Case: 12 boxes

APF

Assigned Protection Factor: 10

Usage:

Use Against:

NIOSH approved for protection against particulate aerosols free of oils. Pyramex recommends this respirator for use against particulates containing materials such as flour, iron ore, coal and minerals.

Do Not Use Against:

- · Vapors, paint spray, oil-based aerosols, asbestos and sand blasting.
- Any contaminant whose concentration is unknown, or immediately dangerous to life.
- Concentrations of dust and mists which exceed the maximum use of concentration or 10 times contaminant's permissible exposure limit established by OSHA.
