

UNIVERSAL METAL STUD GROMMET

Application

RACO Universal Metal Stud Grommets are for use with nonmetallic cables and conduit running through metal studs. Install the metal stud grommets before cable or conduit installation. The grommets protect nonmetallic sheathed cables and nonmetallic tubing from damage by the sharp metal edges during pulling.

Features

- Universal design fits in a standard 1" trade size hole (1-3/8" diameter), or various factory-punched stud configurations, eliminating the need to carry multiple SKU's
- Snap-in design secures quickly and safely to the metal stud opening
- Grommets prevent safety hazards and costly repairs by protecting the conductors against physical damage
- Light-weight plastic material eases installation
- UL and CSA Listed for your safety and peace of mind

Universal design fits most common hole configurations
