Article on Cool Tools by David Carr

January 5, 2014

“  
Cool Tools, both the website and the book ( by Kevin Kelly), is not about getting more things, or expensive gadgets, but about finding the right stuff. For me, it was the \$9 AccuSharp Knife Sharpener, remarkably useful because it makes something I already have – an indifferent set of kitchen knives – much more valuable.

”  
David Carr -- The New York Times
