MEASURE YOURSELF TALL BOOTS

Print the [Men's Footwear Sizing Guide](#) to accurately measure your foot.

TALL BOOTS MEASUREMENT GUIDE

- Sit in a straight chair with your knees bent at 90 degrees to the floor.
- Wear the breeches and socks that you would most likely wear with your tall boots.
- Have someone else measure your calves, if possible:
 - A. Measure foot for shoe size.
 - B. To determine calf width: Measure the calf width at the widest part of the calf.
 - C. To determine calf height: Measure leg height from the floor to the bend behind the knee.
- Add approximately 1/2"–3/4" to allow for drop.
- Approximate drop allowance is built into the chart height measurements so make sure you add drop to your leg measurement.

The measurements on the size chart are foot measurements.
