INERT INGREDIENTS	58.75%
TOTAL	100.00%

SEX LURE (PHEROMONE)

Net Weight 750 mg

ACTIVE INGREDIENT

(R,Z)-5-(1-Decenyl) dihydro-2(3H) Furanone*	0.133%
INERT INGREDIENTS	99.867%
TOTAL	100.000%

*1 mg. per dispenser

EPA EST NO. 4-NY-1

EPA REG. NO. 51934-2-4

Keep Out Of Reach Of Children

CAUTION (Read Directions and Precautionary
Statements on box before use)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For outdoor residential use. Do not use this product around ponds and/or bodies of water.

TRAP ASSEMBLY:

- 1) Remove vanes, bag and lure from box.
- 2) Attach the bag to the hooks on the vanes.
- 3) Peel top from the Dual Lure attractant.
- 4) Insert the Dual Lure vane slots with dispensers facing the vanes.

HANGING TRAPS:

- 1) Hang traps from a metal or wooden stake 3 to 5 feet above the ground at least 8 to 25 feet downwind from plants you are protecting.
- 2) Be sure that the rod or stake is strong enough to prevent traps from detaching in windy conditions.

PLACEMENT:

The hanger loop on the vane is used to suspend the trap. To be most effective, the trap should be located about 10 feet downwind of foliage to intercept beetles heading toward it. Do not place the trap near or in the foliage as it will attract more beetles into the foliage. (Experience has shown that a height of about 3½ to 4 ft. intercepts large number of beetles). Traps work better in bright, open areas rather than shade.

TRAP RATE:

For maximum effectiveness, use the suggested number of traps below:

Suggested # of Traps	Size of Use Area
1	Less than 1/8 acre
2	1/8 to 1/4 acre
3	1/4 to 1/2 acre
4	1/2 acre
*	over 1/2 acre
*1 trap every 150-200 feet along perimeter	

TRAP MAINTENANCE:

- To replace bag, grasp the neck of the bag firmly in one hand and detach at each vane hook with the other hand.
- Twist neck of bag and secure with a 6" twist tie.
- Place bag in securely covered garbage container.
- Replace bags when full or when they begin to emit an offensive odor, which can repel Japanese beetles.
- To reduce build up of odors or when holes become blocked during wet conditions, use a toothpick to unplug holes in bag to allow for drainage.
- Replace Dual Lures at end of infestation season; attractants last all season.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Caution: Avoid contact with, eyes, or clothing. Wash thoroughly with soap and water after handling.

FIRST AID

If on skin or clothing:	If on skin or clothing: <ul style="list-style-type: none">• Take off contaminated clothing.• Rinse skin immediately with water for 15-20 minutes.• Call poison control center or doctor for treatment advice.
