About Us

Carmie's Kitchen was established in 1988 when Carmie developed two recipes for dip mixes in her home kitchen. Those two recipes have definitely withstood the test of time and the Manana Mexican and Dilliest Dill are still two of our most popular flavors! Since then, we've expanded into two manufacturing facilities and we've created over 100 different products that you can now find in thousands of unique specialty retail locations nationwide. Now Carmie's and Jerry's son Tommy

and his wife Laine are at the helm with the help of their top-notch crew at Carmie's Kitchen. We have kept the same goal all these years: we want to keep creating unique and tasty products using premium ingredients, and we want to keep providing excellent customer service every day, to every customer. We will continue being a brand you trust and a brand you love!
