

Heating and Cooling Products for Your Home

COOL, SUMMER COMFORT

Payne® Air Conditioners

Cool comfort is a concept we can all agree on. For example, who doesn't love the refreshing relief of air conditioning on a hot, summer day? Another concept most people can appreciate is value. That's why Payne offers three affordable central air conditioners. Designed for lasting durability, these smooth-running, energy-saving cooling machines deliver comfort you can count on from the very first time you turn them on.

Payne air conditioners deliver up to 18.0 SEER2 (Seasonal Energy Efficiency Ratio), depending upon the model. Similar to gas mileage for a car, SEER2 ratings let you compare efficiencies of air conditioners – the higher the SEER2, the better the efficiency. And you can expect the savings to continue for years because Payne air conditioners are designed, built and tested for lasting operation.

PA8TAN

Air Conditioner

- Up to 18.0 SEER2 cooling efficiency
- Efficient two-stage operation
- Durably built to withstand harsh weather and debris
- Designed for corrosion resistance and lasting performance
- R-454B refrigerant
- 10-year parts limited warranty*

PA5SAN

Air Conditioner

- Up to 16.5 SEER2 cooling efficiency
- Efficient single-stage operation
- Durably built to withstand harsh weather and debris
- Designed for corrosion resistance and lasting performance
- R-454B refrigerant
- 10-year parts limited warranty*

PA4SAN

Air Conditioner

- Up to 16.0 SEER2 cooling efficiency
- Efficient single-stage operation
- Durably built to withstand harsh weather and debris
- Designed for corrosion resistance and lasting performance
- R-454B refrigerant
- 10-year parts limited warranty*

Don't Forget the Evaporator Coil

Your central air conditioning system includes an unsung hero that resides inside your home – the evaporator coil. The evaporator coil helps draw heat and humidity from indoor air as a part of the cooling process. Replacing this vital component as a part of your new air conditioner installation will help you enjoy all of the comfort, efficiency and reliability you expect.

CVAVA

- Cased V-Coil
- Upflow/downflow application
- R-454B refrigerant
- 10-year parts limited warranty*

CVAMA

- Cased V-Coil
- Multi-poise application
- R-454B refrigerant
- 10-year parts limited warranty*

CAAMP

- Cased A-Coil
- Multi-poise application
- R-454B refrigerant
- 10-year parts limited warranty*

CAAVU

- Uncased A-Coil
- Vertical application
- R-454B refrigerant
- 10-year parts limited warranty*

CSAHP

- Cased slab shaped
- Horizontal application
- R-454B refrigerant
- 10-year parts limited warranty*

HEATING AND COOLING YEAR-ROUND

Payne Heat Pumps and Fan Coils

When all-electric comfort is your best option, Payne delivers. Our heat pumps are designed to work with our fan coils for quiet, efficient, affordable and dependable year-round comfort.

Offering the same durability as our Payne air conditioners, our heat pumps keep you comfy for years to come with up to 18.5 SEER2 cooling efficiency and up to 8.5 HSPF2 (Heating Seasonal Performance Factor) heating efficiency.

The Payne PF5T fan coil, with its variable-speed blower motor is matched to your home and your heat pump to deliver the perfect amount of airflow. This quiet and durable fan coil can even provide a potential efficiency rating boost on some system combinations.

PH8TAN

Heat Pump

- Up to 18.5 SEER2 cooling efficiency
- Up to 8.5 HSPF2 heating efficiency
- Efficient two-stage operation
- Durably built to withstand harsh weather and debris
- Designed for corrosion resistance and lasting performance
- R-454B refrigerant
- 10-year parts limited warranty*

PH5SAN

Heat Pump

- Up to 16.5 SEER2 cooling efficiency
- Up to 8.1 HSPF2 heating efficiency
- Efficient single-stage operation
- Durably built to withstand harsh weather and debris
- Designed for corrosion resistance and lasting performance
- R-454B refrigerant
- 10-year parts limited warranty*

PF5T

Fan Coil

- Variable-speed blower motor
- Corrosion-resistant all-aluminum coil
- Convenient washable filter
- Fully insulated cabinet
- Sloped drain pan design helps reduce mold and bacteria buildup
- R-454B refrigerant
- 10-year parts limited warranty*

PF5M

Fan Coil

- Multi-speed blower motor
- Corrosion-resistant all-aluminum coil
- Convenient washable filter
- Fully insulated cabinet
- Sloped drain pan design helps reduce mold and bacteria buildup
- R-454B refrigerant
- 10-year parts limited warranty*

WARM, SOOTHING WINTER HEAT

Payne Gas Furnaces

When winter's chill arrives at your door, kick it to the curb with warm, soothing winter heat – from Payne. Offering nine distinct models to choose from, Payne gas furnaces fit a variety of budgets, all with our focus on quality, value and affordability. From our two-stage, variable-speed, ENERGY STAR® certified PG97VTA down to our most basic model, Payne gas furnaces answer the call for warm indoor comfort.

Payne gas furnaces offer a range of efficiencies with our highest model achieving up to 97% AFUE (Annual Fuel Utilization Efficiency). Similar to gas mileage for a car, AFUE ratings let you compare fuel efficiency of furnaces – the higher the AFUE, the better the efficiency. In addition to the savings, our two-stage, variable-speed models offer a more premium heating experience with smooth, quiet and consistent comfort.

TWO-STAGE, VARIABLE-SPEED GAS FURNACES

PG97VTA

Gas Furnace

- ENERGY STAR® certified, up to 97% AFUE heating efficiency
- Two-stage gas valve for high and low heat
- Variable-speed blower and inducer motors adjust to changing conditions
- Aluminized-steel primary heat exchanger
- Stainless steel secondary heat exchanger
- Fully insulated cabinet
- 10-year parts limited warranty and 20-year heat exchanger limited warranty*

PG96VTA

Gas Furnace

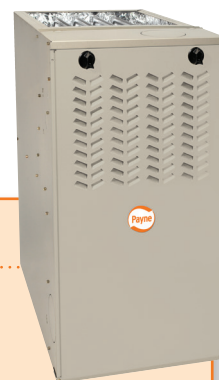

- ENERGY STAR® certified, up to 96% AFUE heating efficiency
- Two-stage gas valve for high and low heat
- Variable-speed blower and inducer motors adjust to changing conditions
- Aluminized-steel primary heat exchanger
- Stainless steel secondary heat exchanger
- Fully insulated cabinet
- 10-year parts limited warranty and 20-year heat exchanger limited warranty*

PG80VTL

Gas Furnace

- Low NOx model
- 80% AFUE heating efficiency
- Two-stage gas valve for high and low heat
- Variable-speed blower and inducer motors adjust to changing conditions
- Aluminized-steel heat exchanger
- Fully insulated cabinet
- 10-year parts limited warranty and 20-year heat exchanger limited warranty*

SINGLE-STAGE, MULTI-SPEED GAS FURNACES

PG96MSA

Gas Furnace

- ENERGY STAR® certified, up to 97% AFUE heating efficiency
- Single-stage operation
- Multi-speed blower motor
- Aluminized-steel primary heat exchanger
- Stainless steel secondary heat exchanger
- 10-year parts limited warranty and 20-year heat exchanger limited warranty*

PG95MSU

Gas Furnace

- Ultra-low NOx model
- ENERGY STAR certified, up to 95% AFUE heating efficiency
- Single-stage operation
- Multi-speed blower motor
- Stainless-steel primary and secondary heat exchangers
- 10-year parts limited warranty and 20-year heat exchanger limited warranty*

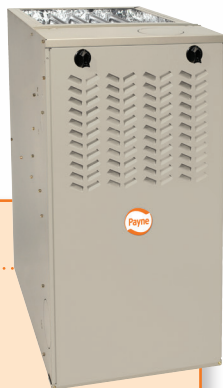

PG92MSA

Gas Furnace

- ENERGY STAR® certified on select sizes, up to 92.1% AFUE heating efficiency
- Single-stage operation
- Multi-speed blower motor
- Aluminized-steel primary heat exchanger
- Stainless steel secondary heat exchanger
- 10-year parts limited warranty and 20-year heat exchanger limited warranty*

(South)

PG80MSA

Gas Furnace

- 80% AFUE heating efficiency
- Single-stage operation
- Multi-speed blower motor
- Aluminized-steel heat exchanger
- 10-year parts limited warranty and 20-year heat exchanger limited warranty*

PG80MSL

Gas Furnace

- Low NOx model
- 80% AFUE heating efficiency
- Single-stage operation
- Multi-speed blower motor
- 10-year parts limited warranty and 20-year heat exchanger limited warranty*

PG80MSU

Gas Furnace

- Ultra-low NOx model
- 80% AFUE heating efficiency
- Single-stage operation
- Multi-speed blower motor
- 10-year parts limited warranty and 20-year heat exchanger limited warranty*

HEATING AND COOLING IN ONE CONVENIENT PACKAGE

Payne Small Packaged Products

Don't let the name fool you. In the heating and cooling industry, they are often called "small packaged products" – but there's nothing small about them. Designed for either rooftop or ground-level installation, Payne small packaged products include both the indoor and outdoor sections of a standard split-system in one "convenient" cabinet.

If you prefer the cozy comfort of gas heating combined with central air conditioning, the PY5G is the perfect choice. For all-electric, year-round comfort, or when outdoor space is at a premium, the PH5Z narrow-lot heat pump can be a great fit. Offering up to 13.4 SEER2 cooling efficiency, 81% AFUE gas efficiency and 6.7 HSPF2 heat pump heating efficiency, these small packaged products can deliver value, reliability and comfort in a very big way.

PY5G

Packaged Gas Furnace and Air Conditioner

- 81% AFUE heating efficiency
- 13.4 SEER2 cooling efficiency
- Multi-speed blower motor for improved temperature and humidity control
- Durably built to withstand harsh weather and debris
- R-454B refrigerant
- 10-year parts limited warranty and 20-year heat exchanger limited warranty*

PA5Z

Packaged Air Conditioner

- 13.4 SEER2 cooling efficiency
- 6.7 HSPF2 heating efficiency
- Efficient, single-stage operation
- Louvered hail guard and raised coil design for protection against harsh weather and debris
- Ground level, narrow lot installation
- R-454B refrigerant
- 10-year parts limited warranty*

PH5G

Packaged Heat Pump

- 13.4 SEER2 cooling efficiency
- 6.7 HSPF2 heating efficiency
- Efficient, single-stage operation
- Multi-speed blower motor for improved temperature and humidity control
- R-454B refrigerant
- 10-year parts limited warranty*

PH5Z

Packaged Heat Pump

- 13.4 SEER2 cooling efficiency
- 6.7 HSPF2 heating efficiency
- Efficient, single-stage operation
- Louvered hail guard and raised coil design for protection against harsh weather and debris
- Ground level, narrow lot installation
- R-454B refrigerant
- 10-year parts limited warranty*

RELIABLE COMFORT, NO DUCTS REQUIRED

Payne Ductless System

Regardless of your need – older home, room addition, or a converted space – Payne ductless products are a great solution for your comfort needs. Payne ductless products can be used to supplement your current system, or for areas where traditional ductwork is either non-existent or difficult to install.

The Payne 37MHRAQ heat pump delivers money-saving, high-efficiency comfort up to 22.4 SEER cooling and up to 9.4 HSPF heating. That's higher than most traditional air-source split-system heat pumps! This compact outdoor unit pairs with the Payne 45MHHAQ high wall indoor unit to create an affordable, efficient and reliable ductless solution for comfort all year long.

37MHRAQ

Ductless Heat Pump

- Up to 22.4 SEER2/12.6 EER2 cooling efficiency
- Up to 9.4 HSPF2 heating efficiency
- Inverter-controlled, variable-speed compressor
- Quiet outdoor operation, as low as 52.5 decibels (select sizes)
- Factory-charged with refrigerant to support standard installations up to 24.6' of piping, no extra charging required
- R-454B refrigerant
- 10-year parts limited warranty*

45MHHAQ

Ductless High Wall Indoor Unit

- Quiet indoor operation, as low as 18.5 decibels (select sizes)
- Four fan speeds
- Heat, Cool, Dry, Fan, Auto, Turbo, and Sleep Modes
- Follow Me (senses temperature at handheld remote)
- TU1 copper coil for enhanced corrosion resistance
- Up-down louver airflow control (fixed or swing)
- R-454B refrigerant
- 10-year parts limited warranty*
