

COMMERCIAL PRICE BOOK 2014 + 2015

EFFECTIVE: 05.04.14

The Delta Commercial Price book provides you with the details you need to choose the right product for your commercial application. From lavatory faucets, flush valves, healthcare specialties, tub/shower, drainage and parts, Delta offers a variety of plumbing products.

For your convenience, our product selections are divided into two sections, **Quick Pick** and **Model Options**.

Quick Pick (starting at page C1) provides you with a list of our most popular models and is set up to simplify your ordering process.

Model Options (starting at page C87) allows you to build a product to meet your unique commercial needs.

SMART SOLUTIONS

Style meets performance with Delta commercial products that not only provide long life, but also enhance their environments. From the beginning, Delta has sought out innovative solutions to help people use water in better ways. These smart features, found across our offerings, are helping to improve the lives of more and more people every day.

Water-Efficient Products

All Delta products that are water-efficient provide a flow rate that's lower than the industry standard. Specific flow rates are noted in the product descriptions.

 **ADA** – some people and some local codes, require fixtures that are compliant with the Americans with Disabilities Act. If someone may visit who has special needs, or if you believe future buyers might appreciate this feature, Delta offers a range of compliant fixtures.

 **Code Compliant** – products compliant with U.S. State and federal drinking water legislation.

 Denotes water-efficient products

H₂Optics® Technology – a hands-free innovation which accurately senses the user's distance, regardless of external factors such as light reflection, clothing color and textures or dryness of one's skin, providing consistent and dependable results.

Proximity® Sensing Technology – the entire faucet body acts as a sensor, activating the faucet when the user's hand comes within 4" of the spout.

Single-handle Diamond™ Valve and 3/8" copper supplies with universal fittings (3/8" compression, 3/8" sweat, or 1/2" I.P.S.).

Battery back-up – provides battery power back-up for HARDWIRE Delta 6 VDC Electronic products. Battery back-up products have a model number suffix of BB.

Delta is known for its depth of commercial products that meet any project requirement. Part of our solution is having the flexibility to customize products – easily. This section of the price book utilizes our building block process, where you configure the product to your specific needs. It’s all up to you – cartridge, spout, outlet, handle – you select it, we build it. It doesn’t get any better and to top it off we continue to support you by listing some of the most popular selling models within a series, along with a supplemental product list, rough-in, trim and add-on options. Delta has the solutions to meet your current and future needs.

TERMS OF SALE

WARRANTY

These Delta® products are warranted to the original consumer purchaser or commercial user. Please refer to the "Limited Warranty" enclosed with each Delta product for specific details. Additional copies are available upon request.

RETURNED GOODS

Merchandise MAY NOT be returned for credit or replacement without prior inspection and written authorization from Delta Faucet Company (DFC). Any unauthorized return of products is expressly prohibited. A handling charge of 50% will be assessed against anyone attempting to return merchandise without prior authorization. Only product purchased directly from Delta Faucet Company by a wholesaler will be authorized for return. NO EXCEPTIONS.

WARRANTY RETURNS

A full wholesale price credit will be issued to authorized Delta Faucet wholesaler customers for returned merchandise that is defective as described in the warranty. The defective merchandise must be shipped freight prepaid by the least costly method of shipment and the freight cost of such shipment will be added to the price credit. If a replacement is made rather than a credit issued, Delta Faucet Company will ship the replacement freight prepaid. Product returned as defective that is found to be misused, abused, modified or otherwise NOT DEFECTIVE will receive credit at scrap value only.

OTHER RETURNS

All other returns will be handled in accordance with the then-current DFC Return Policy for Non-Defective Faucets, copies of which are available upon request.

PRICES

All prices and specifications of models are subject to change without notice. Orders will be invoiced at the prices prevailing at time of shipment.

NOTE

All orders are subject to all applicable DFC policies in effect at the time of order.

These Terms of Sale are subject to change without notice.
