The wobbler kit will throw side to side just like a trap house and if you're feeling like shooting sporting clays, switch the directional plates (both included) and never shoot the same bird twice!

High school trap leagues are one of the fastest-growing sports in the nation. With the excitement around the growing sport of trapshooting, we have partnered with the USA Clay Target League to help further the growth of user participation and the future of our sport.

It can handle multiple clays stacked/nested, or even multiple Midi or Mini clay pigeons. For the first time ever it is now as much fun to throw clay pigeons as it is to shoot them. Weighing less than 5 lbs the Clay Cannon has unmatched maneuverability. It is simple to use and provides hours of clay shooting entertainment.

HOW TO USE CLAY CANNON

With our patented three pivot mount and adjustable clip, the operator can position the trap head to throw an array of trap, skeet and sporting clay scenarios. Our pro line traps will also throw standards, midis and minis as stacked, nested or following presentations and our double-head traps will throw doubles and singles as true or report pairs.
