

MEN’S MEASUREMENT GUIDE

The following information is intended for use as a general Guideline, locate your measurements on the size charts to determine the appropriate size to purchase.

- A = CHEST measurement: Wrap a tape measure around the fullest part under your arms.
- B = WAIST measurement: Wrap tape around your natural waistline.
- C = HIP / SEAT: Standing with your feet together, measure around the fullest part of your hip (approximately 7-8 inches below the natural waist).
- D = INSEAM: Measure from the Crotch down to the ankle bone or top of the foot.
- E = OUT SEAM: Measure from natural waist down to the knee for shorts; ankle bone or top of the foot for pants.
- F = SLEEVE LENGTH: With slightly bent arm, start from the center back base of neck, follow the tape around your shoulder, down the arm, around the elbow bend to the wrist bone.
- G = HEAD: Start 1” above the ear. Follow around head staying 1” above the ear. This will correspond to the hat chart.
- H = NECK CIRCUMFERENCE: Wrap tape around the base of the neck and allow room for wearing comfort.
