

Low Load Torq Tool

Accessory

The Gripple Low Load Torq Tool is lightweight, compact and tensions up to 6 mm Gripple tensioners where low load precision is required.

FEATURES / BENEFITS

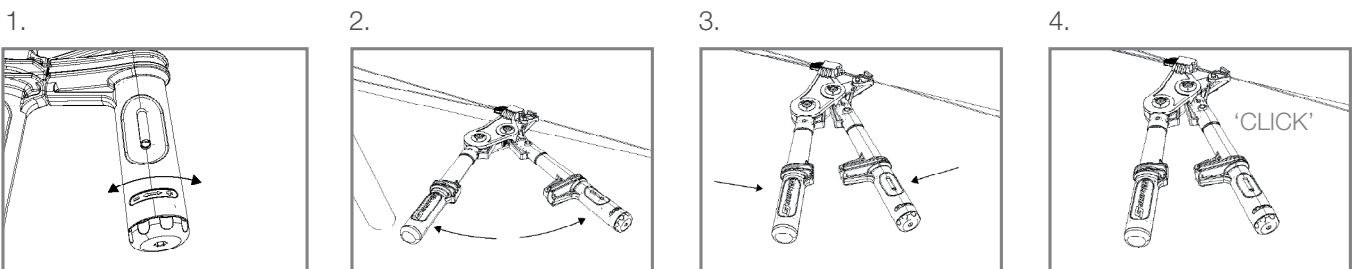

- Lightweight and compact
- Designed with an in-built gauge, controls the tension applied in low load applications
- One tool works on all Gripple tensioners on up to 6 mm diameter wire
- Ensures consistent tension every time, optimising the life of wires
- Gear driven handles provide a 6:1 mechanical advantage, allows tensioning with minimal effort

SPECIFICATION

Wire Range	Gauge Range	Max Working Load
Up to 6.00 mm	0 kg - 100 kg	100 kg

INSTALLATION

TIPS

- If installing on a post which is 'open-side-out', there is a handy adaptor that can be fitted to the tool to make tensioning easier
- Regularly lubricate the cam area for smooth operation
- Replacement cam sets are available should the teeth wear
