About Gerber®

Gerber® Plumbing Fixtures was founded in 1932 by Max Gerber, a Polish immigrant, who established our company on a foundation of forming genuine relationships and a steadfast dedication to service and quality. Today, that spirit lives on as each team member in the Gerber family delivers on our commitment to providing dependability reflected in both our products and customer care throughout North America.

Gerber manufactures tried and true, high-quality kitchen and bathroom plumbing products. We earn the trust of trade professionals and homeowners alike who find value in products that have both style and substance – performing without exception for years to come, all while being surprisingly affordable.

Gerber's comprehensive offering of plumbing solutions is created with the entire experience in mind, from easy installation to reliable everyday use, and is supported by Gerber's industry-leading warranties. As a partner in the U.S. EPA WaterSense® Program, Gerber is committed to protecting the environment through resource conservation, and creating high-efficiency and eco-friendly products.

Why Choose Gerber®?

SET IT AND FORGET IT™

Our products are engineered to provide years of enduring performance, trust and reliability.

REALIZE YOUR VISION

We deliver inspired designs backed by quality craftsmanship, no sacrifices necessary. Count on us to check all the boxes for needs, style and budget.

EXPECT UNCOMPLICATED

We are dedicated to making things simple yet impactful every step of the way, from product features and design, installation, support, and beyond.

CUSTOMER CARE

For information on product availability, order status, to change/cancel an existing order or for any other customer service inquiries, call toll-free Monday through Friday 9:00 a.m. - 6:00 p.m. (U.S., Eastern Time) or Monday through Friday 8:30 a.m. - 5:00 p.m. (Canada, Eastern Time).

US: 1-866-538-5536
Canada: 1-866-884-8841

WARRANTY PARTS/TECHNICAL SUPPORT

For technical support on product installation, troubleshooting, or parts-related inquiries, call toll-free Monday through Friday 8:00 a.m. - 8:00 p.m. or Saturday 9:00 a.m. - 6:00 p.m. (Eastern Time). To order a warranty part, please submit your purchase order via fax 1-866-907-8003 or by email support@globeunion.com.

US: 1-888-648-6466
Canada: 1-800-487-8372

ORDER ENTRY

To place an order directly with the manufacturer, please submit your purchase order via fax 1-630-679-1430 or by email gerber.orders@globeunion.com.

RETURN POLICY

Non-Stock (Made-to-Order or Custom) items are non-cancellable, non-refundable, and may experience extended lead time.

There will be a minimum 25% restocking charge for authorized returns of brass fittings, a minimum of 35% restocking charge for authorized returns of fixtures. Freight cost for return of good material is the responsibility of the customer.

Should you find your product to be damaged or defective, or find errors or shortages upon arrival of your order, you must submit a claim to Gerber. in writing within 14 days after such arrival.

Please submit your claims to gerber.returns@globeunion.com

PRODUCT CARE

For years of lasting beauty, treat the finish as a delicate surface. For routine cleaning, use a soft cloth and water. A mild soap can be used to clean stubborn spots. Do not use cleaners or cleaning pads with abrasives since the abrasive may scratch the surface permanently. Avoid chemical cleaners, including those with ammonia. Chemicals can attack the protective clear coating present on many of our special-finish faucets. Use of such chemicals may void the warranty.

ICONOGRAPHY

COMING SOON Coming soon

NEW New product

Pressure Manifold™ Technology — Unique interior design that channels water to each nozzle for maximum performance.

Dual Valve™ Technology — Structural design that optimizes water flow for multi-function showerheads.

Air Injection™ Technology — Air is added to the water stream to increase the water pressure and improve overall feel of the shower experience.

Meets the requirements of the Americans with Disabilities Act. Products designated with this symbol do not require grasping and are operable with less than 5 lbs. of force.

Indicates products are WaterSense® certified. Lavatory faucets and shower products are certified to the high efficiency criteria established by the EPA. epa.gov/watersense

High Efficiency Toilet. Uses 1.28 gallons of water or less per flush.

Lead Free refers to <0.25% as certified by IAPMO in relation to wetted surface of pipe, fittings and fixtures in systems delivering water for human consumption. Gerber lavatory, bar, and kitchen faucets comply with Section 1417 (a)(1) of Drinking Water Act as certified by IAPMO.

Product must meet the following requirements: WaterSense® certified, an effective flush volume of no more than 1.1 gallons, and a MaP® flush performance score of at least 600 grams.

Gerber QuietClean™ flush system delivers quiet operation and a spotless, sparkling bowl after each flush due to unique rim jet design.

SnapBack® Retraction System - SnapBack technology lets you customize your retraction, secured by the easily adjustable GripLock® weight

PREP FAUCETS

Small in Size, Big in Style

Perfect for smaller scale spaces, Gerber's Prep and Bar Faucets help make the most of secondary sinks. These sister products to many of Gerber's most popular kitchen collections help extend the décor throughout the entire room. For added functionality, several faucet options come with a pull-down sprayhead. These specific options feature Gerber's proprietary SnapBack® Retraction System, adjustable GripLock® retraction weight, and dual-function sprayheads. Our prep faucets have a maximum flow rate of 1.75 gpm at 60 psi, helping to conserve water without sacrificing performance.

POT FILLERS

Convenience Worth Waiting For

Decades ago the thought of a faucet behind a stove seemed foreign. Today, at-home chefs and kitchen enthusiasts wonder what we've been waiting for all this time! Pot fillers, perfect above a cooktop or in a coffee station, provide an added convenience that any kitchen goer can appreciate. Designed for cold water supply only, these faucets come in handy when filling large pots (hence the name), adding water to an already in-progress hot cooktop item. Gerber pot fillers come in a range of styles, including our newest industrial-era inspired Kinzie® faucet. Pot Fillers add another layer of flexibility, giving your kitchen a coordinated look with practical ease.

KINZIE® COLLECTION

Industrial-Era Influence In the Home

Among our newer collections, Kinzie draws its inspiration from rugged industrial-era plumbing elements but adds a touch of modern style - a blend that makes it at home in traditional or contemporary environments. The collection spans kitchen product options including pre-rinse, pull-down and pot filler models in addition to a pull-down prep faucet. The Kinzie collection is available in Chrome, Satin Black, Stainless Steel and Brushed Bronze finishes.

PARMA® BRIDGE FAUCET

A New Take on An Old Form

Bridge faucets can make an impactful design statement in any kitchen. The Parma® two handle bridge faucet is no exception. With its contemporary styling paired with traditional bridge faucet form, this piece is sure to catch the eyes of all who enter. Add in a Satin Black finish and you'll be asked to consult on your guests' next home renovation! The faucet is also available in Chrome, Stainless Steel and Brushed Brass finishes. A matching side spray, which is included with the faucet, brings even more style and functionality to one of the hardest working areas of the room.

BATHROOM TOILETS FEATURED PRODUCTS

WATER-EFFICIENT VIPER® MODELS

Re-defining Efficiency in High-Efficiency Toilets

Gerber's longstanding, reliable line of Viper toilets has recently added a new family member - the super-efficient 0.8 gpf model. Saving 50% more water than the national standard, the Viper 0.8 gpf toilet exceeds all WaterSense® performance requirements ensuring a quality flush every time. In fact, this Viper model saves 33% more water than high-efficiency 1.28 gpf toilets already on the market. The Viper 0.8 gpf toilet is available in both a two-piece elongated ErgoHeight™ model as well as a traditional round front option, allowing you to maximize the space within the room.

TWO-PIECE CT HINSDALE®

A Touch of Quiet Style

Gerber's two-piece Hinsdale toilet features a simple concealed trapway design and brings a touch of contemporary yet soft understated details to today's more traditional styling. The WaterSense® certified toilet (operating at 1.28 gpf) features the recently updated QuietClean™ Flush System, which delivers one of the quietest and cleanest flushes on the market. This Two-Piece Hinsdale toilet is available in an elongated ErgoHeight™ model as well as a more traditional round front option.

LEMORA® COLLECTION

Nature Calls

When a toilet is inspired by soft, organic elements in the world around us, it can be nothing less than beautiful. Gerber's Lemora Collection (with complementary brass products) features one-piece and two-piece models that each feature a fully skirted concealed trapway adding to that beauty. Powered by the updated QuietClean™ Flush System, users can be assured of a quiet and clean flush every time. This high-efficiency toilet operates at 1.28 gpf and saves 20% more water over standard toilets. And, unlike many toilets on the market, Lemora comes with a top mount, slow close and quick release seat.

Crisp lines and square edges are traits of the dignified Allerton™ collection. The elegant transitional design and its high-performance toilet make this a tasteful upgrade to any bath or powder room.

ALLERTON™

8" Centers Standard Pedestal Bathroom Sink (G0022579) & 1.28 gpf 12" Rough-In Two-Piece Elongated ErgoHeight™ Toilet (GHE20007)

BURR RIDGE™

Form meets function with the Burr Ridge™ collection. Each piece incorporates simple lines and styling that add a bit of subtle beauty to the room.

1.28 gpf 12" Rough-In Two-Piece Elongated ErgoHeight™ Toilet (G0020023)

Undercounter Bathroom Sink Rectangular shaped basin (G0013760)

Add a touch of grace with the Hinsdale® collection. The design elements are elegant with understated beauty, while also showcasing hints of edging and detail.

HINSDALE®

1.28 gpf 12" Rough-In Two-Piece Simple Concealed Elongated ErgoHeight™ Toilet (G0020191)

Single Hole Standard Pedestal Bathroom Sink (G0023508)

LEMORA[®]

Lemora[®] collection is designed with an ideal blend of clean lines with subtle arcs and edges. This soft contemporary collection draws upon nature's inspiration and offers both a one- and two-piece toilet, both with concealed trapways for a simply serene look.

The Logan Square™ collection features a traditional design style with rectangular layers for an elegant and timeless look.

LOGAN SQUARE™

WICKER PARK™

The contemporary Wicker Park™ collection has highlights of geometric elements. Pieces feature a smooth style coupled with sharper, more defined lines.

A white toilet is the central focus, set in a modern bathroom. To the left is a glass shower enclosure with a marble-tiled wall. To the right is a light-colored wooden vanity with a white countertop and a window with blinds. A framed picture hangs on the wall above the toilet.

The Elite™ powered by the Avalanche® flushing platform is easy to install and easy to pair with any style. The two-piece design features a low-maintenance, simple concealed trapway for a sleek look. A powerful and reliable flushing machine, the Elite™ houses PowerClean™ technology.

COMMERCIAL

Commercial applications demand the highest quality products, and most consistent and reliable performance. Gerber commercial products offer solutions for schools, high-rise buildings, commercial buildings, assisted living facilities, hospitals, and more.

ULTRA FLUSH® pressure-assisted toilets, found on pages 77-87.

- The Ultimate Flushing Machine
- Maximum bowl clearing
- Ideal for heavy-use applications
- Wide array of models available
- Large footprint ideal for any installation

PEEWEE™ children's toilet, found on page 87.

Please view pages 23-25, 29-30, 163-166 for commercial faucet options.

Gerber offers a wide selection of back outlet toilets with some of the highest MaP scores in the industry. Perfect for various applications, the gravity back outlet solutions out perform other products in the category and are much quieter than their pressure-assisted counterparts.

BATHROOM FAUCETS & SHOWER SOLUTIONS FEATURED PRODUCTS

2021

FLOOR MOUNT TUB FILLERS

Standing Tall

Freestanding tubs in residential settings continue to surge in popularity, especially for those master bathrooms seeking a spa-like experience. Gerber is proud to carry that trend and high-style demand with its floor mount tub fillers. With several décor options, including Round, Square Contemporary and Traditional, these tub fillers complement a wide range of bathroom design. Each style option is equipped with an integral diverter to easily switch between spout flow and handshower and is available in Chrome, Brushed Nickel, Satin Black and Brushed Bronze.

LEMORA® COLLECTION

A Serene Look for a Serene Space

Gerber's Lemora® collection is the ideal blend of clean lines, with subtle arcs and graceful edges. Inspired by organic shapes and elements found in nature, the bathroom faucets and tub/shower products create a simply serene environment. The collection includes various sink faucets, a roman tub faucet, a single function showerhead and other trim offerings compatible with the innovative Treysta® valve platform. For those looking to extend the natural look, the collection offers a complementing one-piece and two-piece toilet option. Each toilet model features a fully skirted concealed trapway for an added touch of design.

TUB & SHOWER TRIM

Customized Shower Experience

There was a time when a shower meant one thing - getting clean. Today, the shower experience means so much more. With Gerber's versatile Treysta® valve platform, tub and shower settings can be customized to accommodate two outlets of choice. Regardless of the components, one thing is for sure - the look will be beautiful and the performance will be consistently reliable. Trim kits are available in several collections ranging from contemporary to traditional with finishes that will carry your décor through the entire room.

POWERED BY TREYSTA®

Behind the Wall Can be Beautiful, Too!

While the style and finish are often what sells our products, professionals in this industry can appreciate the beauty of a product often lies behind the wall! Case in point, Gerber's Treysta® tub and shower valve. Engineered with the experts in mind, Treysta provides flexibility based on the specific requirements of each installation. From the intuitive open and close stops for easy maintenance, to easy installation and pressure-testing features, Treysta saves both time and money. Treysta is compatible with most of Gerber's Pressure Balance trim kits.

SHOWER SOLUTIONS

A customized shower experience is closer than you think. By combining the following components, you can create a two-outlet shower solution.

Built on the Gerber Treysta® platform, each solution is thoughtfully designed to deliver strong, consistent performance. Our tub and shower trim and handshower solutions allow you to create a beautiful and tranquil space with two outlets to maximize the power of your shower.

INTEGRATED DIVERTER ON VALVE

The first solution, **integrated diverter on valve**, uses a Treysta® valve with a diverter built into the valve body. The solution is intended to work with tub and shower trim, as well as two-outlet solutions such as a showerhead and handshower. The diverter directs the flow of water, and has two positions to shut off one outlet and turn on another.

INDEPENDENT DIVERTER CONTROL

The second solution, **independent diverter valve**, uses a diverter control separate from the main valve. Our tub and shower trim and handshower solutions allow you to create a beautiful and tranquil space you can escape to, with two outlets to maximize the power of your shower.

For custom shower systems, please contact your sales rep for more details.

TREYSTA® VALVE

WORK SMARTER.
NOT HARDER.

Engineered with the experts in mind, the Treysta® tub and shower valve is Gerber's most innovative valve yet. Powered by more than 85 years of Gerber performance, Treysta provides flexibility based on the specific requirements of each installation. From the intuitive open and close stops for easy maintenance, to easy installation and pressure-testing features, Treysta saves both time and money.

G00G2525S

FEATURES AND BENEFITS

- **Revolutionary Vertical Inlets** - Treysta's vertical inlets allow for maximum flexibility in the wall, and can install next to a stud in PEX applications without requiring re-framing
- **Easy Pressure Testing Capability** - Treysta features an innovative pressure test cap to make the process of air and water pressure testing easier to complete
- **Easy Installation and Access** - With an easy-access mounting system and integrated depth indexing features on the plaster guard, Treysta is engineered to install smoothly and quickly
- **Flexible and Adaptable for Different Environments** - Treysta has a solution for "with" and "without" stops, and accommodates back-to-back installations and reversed hot and cold inlets, as well as IPS / sweat, Crimp PEX and Cold Expansion PEX
- **Secure and Level Mounting** - The body of the valve features integrated mounting holes for a firm and secure hold, and the flat plane of the plaster guard allows it to install level with the wall
- **Innovative Common Platform** - Treysta uses a common platform of pressure balance cartridge for all configurations, meaning that a single cartridge fits in all valve bodies

VALVES

Integral mounting holes for fast, secure mounting

Quarter turn stops easily open and close using a flat head screwdriver

Stops secured with durable, threaded brass nut easily secured with standard socket

Finished wall depth indicators in 1/4" increments for easy depth indexing

Top and side surfaces are flat to simplify tile cutting and help ensure level installation

Plaster guard features a no-tool clip design for fast removal while providing a secure hold

Two attachment points for thin-wall installations

Unique shaped plaster guard protects body, provides surface to use level and ease of tile work

Valve body can be rotated 180 degrees for top-down installations with a few simple steps

Requires rotation of retention plate and plaster guard

Includes pressure test cap for air or water pressure testing

The innovative test plug can test mixed pressure, or isolate an inlet to test pressure or for system cross flow
