

Ratchet-Style Calf Puller

Product Number: 3020

Product Description

The Ratchet-Style Calf Puller can be your solution to difficult deliveries. Crafted of the finest quality steel, it will stand up to the toughest deliveries without letting you down.

The Ratchet-Style Calf Puller features steel rods that easily disassemble for cleaning and storage. The rods have smooth, clean grooves that lessen wear on the jack and give a much quieter ratchet than competitor pullers. The jack is extremely durable, and has a large, comfortable handle that allows for one person operation. Large handles also greatly reduce the incidence of pinched fingers and hands.

The rods screw into the breechen, which provides stability during the birthing process. The Ratchet-Style Calf Puller comes with a standard 66” rod, yet has an additional attachment to extend the rod to a full 78”.

The jack conveniently offers both a zig-zag pull and single-pull option. Many prefer the zig-zag pull as it helps avoid locking of the calf’s shoulders in the pelvic opening.
