Air Admittance Valve Access Box and Grille

The safe and accessible solution

When installation of a Studor Air Admittance Valve is not feasible in an existing cabinet, the all-new Studor Recessed Box esthetically conceals valves while providing accessibility as required by local codes. The small, low profile box is easy to install and contains a sleek grille for a clean finish. Its integral test cap is an industry first.

- One piece box and mounting flange design needs no additional framing or support when installed to the stud bay
- Optional mounting by use of the Water-Tite Stabilizer Bar allows the box to be positioned anywhere in the stud bay
- Contains integral test cap with rubber gasket for leak testing and protection during the construction phase
- Access Box connects to 1½" or 2" ABS or PVC vent pipe.
- Includes a one-piece snap-on grille
- Can be used to conceal the Mini-Vent®, Redi-Vent®, or Tec-Vent® products
- Recess box carries UPC and ICC listings

Product Code #	Description	Model Number	UPC	Units/Case
AAV RECESS BOX - Allows access to Studor Air Admittance Valves				
 20380	Mini Recess Box with Grille*	20380	764651-203806	10
20385	Grille Only for Mini Recess Box	20385	764651-203851	20
20381	Mini Recess Box, Grille, with Redi-Vent AAV*	20381	764651-203813	10
Fire Rated AAV RECESS BOX - Allows access to Studor Air Admittance Valves				
 82456	Fire Rated Recess Box, 1 1/2" female adaptor included*	FRAAV12	012181-824566	5
MAXI VENT® - For venting single fixture, individual branch, circuit vent or Stack Type application up to 500 DFU				
 20342	With 4" Push-Fit Rubber Connector	20342	764651-203424	6
20302	With 4" Push-Fit Rubber Connector	20302	764651-203028	25
MINI VENT® - For venting single fixture, individual branch, circuit vent or Stack Type application up to 160 DFU				
 20341	With PVC Adapter, 1 1/2" or 2" connection	20341	764651-203417	6
20301	With PVC Adapter, 1 1/2" or 2" connection	20301	764651-203011	24
20340	With ABS Adapter, 1 1/2" or 2" connection	20340	764651-203400	6
20300	With ABS Adapter, 1 1/2" or 2" connection	20300	764651-203004	24
 REDI-VENT® - For venting single fixtures such as island sinks or bathroom groups up to 20 DFU				
Individually Boxed				
20346	With PVC Adapter, 1 1/2" or 2" connection	20346	764651-203462	24
20349	With ABS Adapter, 1 1/2" or 2" connection	20349	764651-203493	24
Bulk Packaged				
20299	With PVC Adapter, 1 1/2" or 2" connection	20299	764651-202991	60
20386	With PVC Adapter, 1 1/2" or 2" connection	20386	764651-203868	120
20298	With ABS Adapter, 1 1/2" or 2" connection	20298	764651-202981	60
20389	With ABS Adapter, 1 1/2" or 2" connection	20389	764651-203899	120
 TEC-VENT® - Specifically for venting commercial applications up to 160 DFU				
20344	Connection size 1 1/2" NPT	20344	764651-203448	24
 CHEM-VENT™ - For venting chemical waste systems				
20345	With FR-PP sch 40 tail piece	20345	764651-203455	12
 POSITIVE AIR PRESSURE ATTENUATOR™ - Stack protection against positive pressure transients				
20357	Positive Air Pressure Attenuator (P.A.P.A.)	20357	764651-203578	1
MAXI-FILTRA™ - For filtering sewer gas				
 20297	With 4" Rubber Gasket	20297	764651-202977	25
20700	Replacement carbon filter cartridge	20700	764651-20700	5
 MAXI-CAP™ - Protects Maxi-Vents from UV rays and temperature extremes				
20398	Fits on Maxi Vent	20398	764651-203981	1
